No. 463

ALL-WHEAT BREAD NOW LAWFUL; FOOD ADMINISTRATION ORDERS SUBSTITUTE GRAIN RULE LIFTED

BUT CONSERVATION IS STILL URGED

Wheat Situation Greatly Relieved by the Military Armistice, but There Is "to Be No Relaxation in General Food-Saving Program."

For the first time since its inception the Food Administration will not frown upon the use of wheat bread. It announced to-day that all regulations requiring the use of wheat substitutes in baking are suspended and that the white loaf may return to its own. Restricted consumption of wheat bread is still advocated, however. Carrying on of conservation is requested by the Food Administration. There is to be no relaxation in the general food-saving program.

Disposition of Substitute Grains.

Plans are now being worked out to care for accumulated stocks of the substitute cereals. Under the new program the coarse grains will be used primarily for animal feeds. The Food Administration Grain Corporation is formulating plans for the purchase of substitutes which do not find a ready sale by the millers, dealers, or bakers, if acquired before November 12.

Relaxation of the wheat regulations is a direct result of the military armistice. The Mediterranean Sea is now safe for commercial transport, and the European nations can again draw upon the large wheat supplies in India and Australia. With cargo ships now released from military service it will also be possible to tap accumulated supplies in the Argentine.

Conservation Still Necessary.

In withdrawing the substitute regulations, however, the Food Administration emphasizes the necessity for continued conservation of all staple foods. This country will be called upon in the coming year to send at least 20,000,000 tons of foodstuffs to Europe—practically the limit of loading capacity at our ports. This compares with the export of 11,820,000 tons last year—the greatest in our history—and a prewar normal of less than 6,000,000 tons.

The Food Administration first compelled the purchase of other cereals with wheat flour on January 28, 1918, when the "50-50" rule went into effect. On February 3, the first compulsory baking regulations were imposed upon the trade. On that date bakers were required to mix

(Continued on page 2.)

VOLUNTEER PRESS CENSORSHIP AGREEMENT NO LONGER BINDING

Government's Gratitude to the Newspapers for Hearty Co- operation Expressed.

George Creel, chairman of the Committee on Public Information, made the following announcement to-day:

It has been agreed that there is no further necessity for the operation of the volunteer censorship under which the press has guarded from the enemy the military policies, plans, and troop movements of the United States. The agreement may be considered as no longer binding, and the card carrying the requests of Government is herewith canceled. The Secretary of War and the Secretary of the Navy and all others concerned with the direction of America's war efforts join in sincere acknowledgment of the debt of gratitude owing to the press of the United States for the honorable discharge of a high responsibility. Without force of law and under no larger compulsion than their own patriotism, the overwhelming majority of newspapers have given unflinching obedience to every desire of Government in all matters of military secrecy, carrying through successfully a tremendous experiment in honor and trust.

TIME EXTENDED FOR MAILING CHRISTMAS PARCELS OVERSEAS

November 30 New Limit Set by Postoffice at the Request of the War Department.

OFFICE OF THIRD ASSISTANT
POSTMASTER GENERAL,
Washington, November 14, 1918.

The War Department has requested that the final date for mailing Christmas parcels to members of the American Expeditionary Forces in Europe be extended to November 30, 1918, owing to the fact that several divisions of the Army in the active combat section could not distribute

FREE LIST SUSPENDED.

Hereafter no copies of the Official U. S. Bulletin will be furnished free except to executive officers of the United States Government, and to diplomatic representatives of all foreign Governments.

FULL TEXT OF THE CIRCULAR ISSUED BY GEN. GOETHALS EXPLAINING PROCEDURE FOR CANCELING WAR CONTRACTS

INSTRUCTIONS GIVEN TO SUPPLY BUREAUS

Provision Made for the Protection and Compensation of Contractors Where Claims Are Justified—No Allowance to Be Made For Prospective Profits. U. S. to Take Over Partly Finished Products in Certain Cases Under Prescribed Conditions.

The War Department authorizes the following:

A circular dealing with the termination of contracts and orders in the public interest has been issued by Maj. Gen. George W. Goethals, director of purchase, storage and traffic. The circular, which outlined the procedure to be followed by the various supply bureaus of the Army in this connection, is as follows:

Whenever the appropriate officers of the Government determine that it is necessary in the public interest to terminate in whole or in part a contract or a purchase or procurement order for materials or supplies, such termination shall be effected as herein directed.

Whenever such contract or order expressly provides that it may be terminated in the public interest, termination may be effected only in accordance with such provisions, unless it shall be in the public interest to terminate it in accordance with the provisions of this circular, and the parties shall agree thereto.

Whenever such contract or order does not expressly provide that it may be terminated in the public interest, the contractor, if the public interest so requires, shall be requested to suspend work thereunder, in whole or in part, and to supply promptly a report, under oath, showing in detail the following information in so far as applicable:

(1) Raw materials on hand.—Cost plus inward handling charges plus such

portion of overhead as is directly applicable.

(2) Partly finished products on hand.—Cost of raw material and labor, plus such portion of overhead as is directly applicable.

(3) Finished products on hand.—Contract price, less freight charges if the contract or order specifies delivery at point other than factory.

(4) Special facilities.—Cost of facilities specially provided and paid for by the contractor for the performance of the contract, the necessity of which was contemplated at the time the bargain was made and the cost of which was included in the contractor's original estimate. From the cost of such facilities, deduct their fair value at the time the contract or order is terminated and state such portion of the remainder as is represented by the ratio of the uncompleted portion to the whole contract or order.

(5) Commitments.—The contractor's commitments to suppliers, subcontractors, and others for contributing materials or work, to be determined, in so far as applicable, in the same manner as indicated in (1), (2), (3), and (4).

If the contractor claims additional compensation by reason of any other item or items, he may add such item or items, together with a detailed statement of the facts on which his claim is based.

Unless otherwise directed by the chief of the bureau, the contractor shall be requested to suspend work and shall not be given notice of cancellation. If a notice of cancellation is given, the contracting officer of the Government loses his power to enter into a supplemental agreement with the contractor.

No allowance will be made for prospective profits: Provided, however, That with the consent of the chief of the bureau an allowance of not more than 10 per cent of the cost of partly finished products on hand may be allowed.

If agreement is reached on a just and reasonable compensation to be paid to the contractor by reason of the suspension and termination of the contract order, such agreement shall be embodied in a supplemental contract which shall set forth the agreed compensation and shall provide in specific terms that it constitutes full and final settlement of all questions and claims growing out of the original contract or order. Such supplemental contract shall also provide that all raw materials, partly finished products, and finished products on hand shall become the property of the United States unless and to the extent that the parties agree that such materials and products shall remain the property of the contractor, in which event the Government shall be credited with the agreed value of the same.

Each such supplement contract shall provide that it shall not become a valid and binding obligation of the United States until it has first been approved by the board of contract review of the supply bureau affected.

The chief of the bureau may direct that no such supplemental contract, or no such supplemental contract providing for payment in excess of a specified sum, shall be executed by the contracting officer unless first approved by the chief of the bureau.

Attention is directed to General Order No. 103, November 6, 1918, creating the board of contract adjustment, and em-

ALL-WHEAT BREAD NOW LAWFUL

(Continued from page 1.)

5 per cent of other cereals with their wheat flour, and gradually increased this to 20 per cent by February 24. Bread containing 20 per cent of wheat substitutes was given the name of Victory bread. To assist further in conservation, Monday and Wednesday of each week were designated as wheatless days and one meal each day as a wheatless meal.

In April, the wheat shortage had become so acute that the bakers were compelled still further to increase the use of substitutes, using 25 per cent of non-wheat cereals by April 14. These baking regulations, as well as the 50-50 rule, remained in force until August 28, when the 50-50 rule was changed to 80-20, and only 1 pound of substitutes had to be purchased with each 4 pounds of wheat flour. At the same time, bakers were allowed to make a bread containing only 20 per cent of wheat substitutes. Both of these rulings remained effective until to-day.

TIME EXTENDED FOR MAILING CHRISTMAS PARCELS OVERSEAS

(Continued from page 1.)

and dispatch the Christmas parcel labels until the last week of October.

Postmasters are advised, therefore, that Christmas parcels for all members of the American Expeditionary Forces in Europe, including persons serving in the American Red Cross, Young Men's Christian Association, Knights of Columbus, Salvation Army, and other organizations connected with those forces, presented in accordance with the conditions set forth in the circulars of this office of October 5 and November 4, 1918, shall be accepted for mailing up to and including November 30, 1918.

However, in order to avoid congestion persons receiving Christmas parcel labels should mail their parcels at the earliest possible moment.

A. M. DOCKERY,

Third Assistant Postmaster General.

powering such board to hear and determine all claims, doubts, and disputes, including all questions of performance and nonperformance, which may arise under any contract made by the War Department in instances in which the contractor and the contracting officer have been unable to agree.

This circular applies solely to the termination of contracts or orders, in whole or in part, in the public interest, and does not affect the right of the Government to cancel a contract or order by reason of the contractor's default, which subject is left to be determined by the provisions, if any, of the contract or order and the principles of law applicable thereto.

STATES FINISH DRAFT WORK.

Five States are now shown on the State master chart at the office of Provost Marshal General Crowder as having completed 90 per cent of the physical examination of September draft registrants, class 1, between the ages of 19 and 36, inclusive. They are, in the order of their having finished this work, Utah, Nevada, Wisconsin, Iowa, and Arkansas.

FIRST INDUSTRIAL CONFERENCE SINCE ARMISTICE WAS SIGNED HELD WITH INDUSTRIES BOARD IRON AND STEEL COMMITTEE MEETS

Informal Discussion Had on General Lines Regarding National and International Trade and the Preserving of Industrial Stability.

B. M. Baruch, chairman of the War Industries Board, authorizes the following:

The first industrial conference to be held since the armistice was signed took place November 13, when the general committee of the American Iron and Steel Institute met the War Industries Board here in Washington. The meeting was presided over by Bernard M. Baruch, chairman of the War Industries Board, and was attended by J. Leonard Replogle, Hugh Frayne, George N. Peck, Judge Edwin B. Parker, Robert S. Brookings, Herbert Bayard Swope, T. C. Powell, Frank Purnell, Judge Albert C. Ritchie, D. R. McLennan, Mr. Clark, and H. P. Ingals, members of that organization.

The Iron and Steel Institute's committee was headed by Judge E. H. Gary, and in the delegation were the following gentlemen: James A. Farrell, E. A. S. Clarke, A. C. Dinkey, Willis L. King, L. E. Block, J. A. Campbell, E. G. Grace, John A. Topping, A. F. Huston, H. G. Dalton, James B. Bonner, and J. A. Burden.

Purpose of the Meeting.

The discussion followed general lines regarding trade conditions both of national and international nature and with the main purpose of preserving industrial stability.

The iron and steel institute committee, in the course of its suggestions, made emphasis upon the point that a continuation of governmental supervision of industry for the present was highly desirable. It was agreed that many changes in operating conditions of the steel mills will be necessary in the transition from war to a peace basis. Some cancellations and adjustments in war contracts will follow, but owing to the removal of many restrictions imposed on nonwar industries and the immediate demands of such industries and a probable resumption of Federal, State, and municipal improvements which had been temporarily suspended, and the demands from abroad for foreign construction which are already taking definite shape, it is believed that the transition can be accomplished in an orderly and systematic way.

Discussion Was Informal.

The discussion was entirely informal, and was characterized chiefly by a spirit of cooperation between the board and the industry that was as strong as that which existed during the war pressure.

Further data and information is to be gathered and collated for the use of the War Industries Board for its further conferences with this and other industries.

WAR INDUSTRIES BOARD PLAN FOR LIFTING OF RESTRICTIONS IS ILLUSTRATED BY TELEGRAM

MESSAGE TO NEW YORK MAYOR

Invited by Chairman Baruch to Forward Application for Permit to Go Ahead with School Construction—Loyal Cooperation Appreciated.

B. M. Baruch, chairman of the War Industries Board, authorizes the following:

As an illustration of the way the War Industries Board is proceeding under its formula for gradually reducing curtailments necessitated by the war program, Chairman Bernard M. Baruch of the War Industries Board makes public the following telegram which he sent to Mayor John F. Hylan, of New York City:

NOVEMBER 12, 1918.

The Honorable, the Mayor of New York, City Hall, New York City.

My Dear Mr. Mayor:

The heavy restrictions placed on all nonwar activities may now be lessened since the armistice has ended the severe pressure under which American industry was compelled to devote practically all of its energy to the military program.

The drastic curtailment of all building operations, due to the drain caused upon the very heart of our war enterprise, is to be gradually reduced under a formula adopted by the nonwar construction section of the War Industries Board. Having in mind the representation of New York's urgent need of new school buildings, set forth in your letter of September 6 and again on September 21, I regard it as a pleasing duty to inform you that the obstacles in the way of the school project have been removed to the extent that it gives me the right to say to you that this board will be glad to have New York City's application placed before it so that consideration may be given the release of the materials necessary to the construction.

To that end I suggest that the school board, or such other agency as is charged with the responsibility, submit to the mayor's committee on national defense of New York City, which is the representative of the nonwar construction section, the detailed plans of the operation. They will then be forwarded to this board for final action, which I hope, and see no reason to doubt, will be favorable.

Let me say in conclusion that the War Industries Board appreciates the spirit of cooperation that animated New York. It was the same spirit which animated the entire Nation in its devotion to the one great cause now achieved—that of winning the war.

I am, with respect,

Sincerely,

BERNARD M. BARUCH,
Chairman War Industries Board.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

FORBIDS SPECULATIVE SHORT SELLING ON COTTON EXCHANGES

The committee on cotton distribution authorizes the following:

The committee on cotton distribution this morning in a telegram directed to the presidents of the New York and the New Orleans cotton futures exchanges prohibited speculative short selling of cotton in those markets. Asked as to the reason for this prohibition, Charles J. Brand, chairman of the committee, said:

"The signing of the armistice brings us suddenly to the threshold of the reconstruction era. Pending developments are of the utmost importance to the entire cotton world.

"The consequences of unfounded rumors that tend to promote vicious speculative activity and cause unjustified demoralization must be avoided as far as possible. In order that harmful, violent price fluctuations may be checked, the committee on cotton distribution has ordered all speculative short selling on the New York and New Orleans Cotton Exchanges stopped, and to make this order thoroughly effective has required that no selling orders except in liquidation of long contracts be executed from any foreign country.

"The stoppage of sinkings by U-boats, the monthly increase in new ship tonnage, and the releasing of ships now engaged in supplying the fleets of the Allies, together with the freeing of space previously used in sending munitions to Europe, will mean a large increase in available tonnage for cotton exports.

"The world's requirements of cotton to meet its increasing demands for clothing will henceforth be on a continuously ascending scale. Based on reports to this committee from the various foreign countries, we estimate their requirements and probable imports of cotton under present conditions to be over 2,000,000 bales in excess of last season's takings.

"Europe is almost denuded of cotton and cotton goods. The potential buying power of the world which will be aided and hastened by the establishment of the necessary credits will quickly assert itself."

Text of Telegram.

The text of the telegram referred to is as follows:

"Please read from the rostrum of your exchange before the opening Wednesday morning, post on the bulletin board, and send immediately to each member firm carrying contracts, the following notice. In order to curb undue speculative activity it becomes necessary at this time to prohibit further speculative short-selling on the New York and New Orleans cotton exchanges and the members of these exchanges are hereby notified that all further speculative short sales are prohibited. Hedge sales may be made on condition that an affidavit from the seller will follow that the sale is a bona fide hedge sale against the purchase of cotton. No selling orders from foreign countries except in liquidation of long contracts are to be executed."

CHANGE IN UNIFORM ORDERED FOR STAFF OFFICERS OF NAVY

Foul Anchor Included Among Insignia Made Compulsory After Nov. 12, 1919.

Secretary Daniels has directed certain changes in the uniform of staff officers of the Navy as contemplated in a recent general order.

The new order provides for distinguishing devices which are distinctively naval and at the same time it maintains the insignia now used to identify the several Staff Corps. Heretofore staff officers wore corps devices generally well understood and recognized within the service; but by the public at large the officers were not all identified as a part of the Navy.

The foul anchor generally recognized as the distinguishing Navy device was not worn by staff officers. Under the changes provided for the devices for staff officers will hereafter consist of the present Navy foul anchor surcharged with the present corps device in miniature, and in place of the corps colors worn with the gold stripes there will be a small corps device placed above the stripes.

Just as the general order regarding titles in August made the titles for line and staff officers alike and the uniform for regulars and reserves alike, the present order will further remove the unnecessary distinctions in uniforms mentioned above as well as provide for the same caps for all.

Text of the Order.

The order, which is effective November 12, 1918, and compulsory 12 months later, is as follows:

"Visors of service caps for staff commanders and above to be the same as for line officers of corresponding rank (as is already the case with the full-dress hat). The necessary distinguishing corps device on blue service coat, on epaulettes, and on shoulder marks of staff officers of flag rank to be of a silver foul anchor with present corps device, appropriately reduced, surcharged in gold (as is already the case with the Coast Guard and the Navy Nurse Corps); a smaller corps device of present design in gold to be placed above outer edge of upper gold stripe on sleeves and shoulder marks to indicate corps (as the gold star already indicates the line)—cloth stripes to be dispensed with."

RATES FOR GOVERNMENT MARINE WAR-RISK INSURANCE REDUCED

Secretary McAdoo announces very marked reductions in the rates charged for war-risk insurance for hulls and cargoes between all points, and similar reductions on seamen's compensation insurance for masters, officers, and crews of vessels.

The rate for trans-Atlantic voyages on vessels and cargoes was reduced from 2 per cent to one-half of 1 per cent, and the other reductions affected by the new schedules are quite as large in proportion.

This action was taken in view of the signing of the armistice providing for cessation of hostilities.

Official U. S. Bulletin

Published Every Week Day, Except Legal Holidays, Under Order of the President of the United States and by Authority of Congress.

Dr. Claxton Asks that Lincoln's Gettysburg Address Be Read in the Schools on November 19

Emergency notice from the Commissioner of Education to the schools of America:

That the world might be made safe for democracy and that all peoples might be free; that government of the people, by the people, for the people might be extended to all the earth, the United States 20 months ago entered the great world war with a unanimity, devotion, and energy unprecedented. The war has just ended with victory for freedom, democracy, and the rights of the people.

Fifty-five years ago on November 19, President Lincoln read at the dedication of the battle field of Gettysburg the address which has since become known to the world as one of the finest expressions of the American ideal, which is now extending to all the world.

It would be specially fitting that on the anniversary of this occasion Lincoln's Gettysburg Address be read in all the schools of the United States. I therefore recommend that it be read in the schools at the morning hour, with such explanation as will enable the children to understand as nearly as possible its full meaning.

(Signed) P. P. CLAXTON,
Commissioner of Education.

INDUSTRIES BOARD RESCINDS ORDER CUTTING SOFT DRINKS

Action Does Not Affect Food Administration Rules Governing Use of Sugar.

B. M. Baruch, chairman of the War Industries Board, authorizes the following:

The War Industries Board announces that by reason of the signing of the armistice, relieving to a great extent the necessity for saving man power, transportation, etc., the order recently put into effect curtailing the production of soft drinks and mineral waters has been rescinded.

This does not rescind the Food Administration's regulations governing the use of sugar by soft-drink manufacturers.

The priorities division of the War Industries Board announced September 26 the following curtailment order:

Soft drinks and mineral waters.—Effective November 1, the production of nonalcoholic beverages (other than near beers which have been prohibited after December 1) including the manufacture of fruit juices, water, concentrated extracts, sirups, and carbonic-acid gas, curtailed on the basis of 50 per cent per annum based on the production for the calendar year of 1917; that is, no month's production shall exceed 50 per cent of the production of the corresponding month of the previous year. Grape juice, cider, and loganberry juice products of this year's harvest may be produced, but the restriction must apply to the year of 1919.

RELEASING GOVERNMENT WOOL FOR CIVILIAN MANUFACTURE

The War Department authorizes the following:

Brig. Gen. R. E. Wood, acting quartermaster general and director of purchase and storage, has sent the following telegram to the various manufacturers' associations throughout the country:

"Pending the announcement by the War Industries Board of a definite plan for disposing of the wool stocks belonging to the United States Army, in order that there may be no cessation of manufacturing due to lack of raw wool, the Government wool distributor has been instructed to release to the manufacturers for civilian use limited amounts of such wools as may be available. The price will be the present Government issue price. Terms of sale, cash on presentation of documents. Please notify your members."

RESTRICTIONS REMOVED ON TIN USED FOR FOOD CONTAINERS

Restrictions placed on the use of tin plate in the manufacture of food containers have been removed by joint agreement between the War Industries Board and the Food Administration. In view of the signing of the armistice by Germany, it was felt that these rigid rules, which became effective October 1, could be relaxed.

The various trades affected by the removal of these restrictions are: Manufacturers and packers of baking powder, ground spices, powdered cocoa, chocolate,

BUILDING PROJECTS RELEASED AMOUNTING TO \$20,000,000

Prompt Action by War Industries Board Following Signing of Armistice Terms.

B. M. Baruch, chairman of the War Industries Board, authorizes the following:

Deferred building projects amounting to more than \$20,000,000 were released immediately, November 12, according to the statement of D. R. McLennan, chief, nonwar construction section of the War Industries Board. This action followed promptly the modification on Monday by the War Industries Board of restrictions on nonwar construction which had been made necessary by the material and labor requirements of the war program.

Particular effort was made to give release as quickly and as widely as possible to building operations that had been restricted.

The projects for which releases were issued November 12 comprise a very large number of buildings of comparatively small size.

This means a wide distribution of work all over the country from coast to coast. The action will be beneficial particularly therefore to the small-building contractors.

Included among the projects released for construction are large numbers of dwellings, farm buildings, small school houses, irrigation enterprises, municipal improvements, and buildings for the production and storage of food supply.

FUEL ADMINISTRATION RULES TO CONTINUE IN FULL FORCE

Not Affected by Signing of Armistice Terms, Administrator Garfield Announces.

In order that no confusion or misunderstanding resulting from the signing of the armistice might ensue, United States Fuel Administrator Harry A. Garfield gave notice to-day (Nov. 14) that the rules and regulations and the supervision of the Fuel Administration now in force would continue until the promulgation of the treaty of peace.

The statement was as follows:

"In order that there may be no confusion or misunderstanding, the United States Fuel Administrator wishes it understood that the signing of an armistice in no way alters the rules and regulations or the supervision now in force. By act of Congress the Fuel Administration continues until the promulgation of the treaty of peace, and its powers extend to the production, distribution, and conservation of fuel, including fuel oil and natural gas.

"Due notice will be given to any cancellation or changes in orders and regulations by the duly authorized officials of the Fuel Administration in Washington."

candy, coffee, coffee substitutes, tea, spaghetti, pickles, condensed milk, salt, lard and lard substitutes, macaroni, sirups, and molasses.

WORK OF CONGRESS BRIEFLY TOLD

At its session yesterday the Finance Committee of the Senate, considering the war-revenue bill, discussed conditions as they have been changed by the practical end of the war, but took no action on any of the sections. It was agreed that no further definite action would be taken until Secretary McAdoo had submitted his estimate of the needs of the Government under the new situation.

Announcement was made yesterday that hearings would begin before the Senate Judiciary Subcommittee, charged with investigating the activities of brewers, next Tuesday. Chairman Overman, of the Senate committee, announced that the committee has decided to enlarge the scope of the inquiry, so as to make a general and thorough investigation of the whole subject. Witnesses summoned to appear before the committee next Tuesday are all officials of various brewers' organizations.

A meeting of the Senate Elections Committee has been called for to-morrow, when another effort will be made to dispose of the resolution introduced by Senator Pomerene for an inquiry into the primary campaign expenditures of Truman H. Newberry, recently elected to the Senate from Michigan.

Dr. Vosnjak, a member of the Jugoslav committee of London, yesterday filed with the Senate Foreign Relations Committee a memorandum urging the United States to work out the political destiny of the inhabitants of Trieste and the surrounding country occupied by Italy.

Neither the House nor any of its committees was in session yesterday.

APPEAL TO DEFENSE COUNCILS.

Acting Director Clarkson Asks Earnest Support of United War Work Drive.

WASHINGTON, D. C.,
November 10, 1918.

I earnestly ask the great Council of Defense system to use all of its vigor throughout its more than 180,000 units in almost every community of the Nation in support of the united war-work campaign. In these tremendous days, when out of the ashes of empire new aspirations and hopes are arising for all civilized peoples, we who have stayed at home have an unanswerable and unavoidable obligation to preserve the welfare of the men who have crossed half a world to fight for us. These men are part of the promise of the coming years of America. Anything that we can do to maintain their usefulness to their native land, to show our gratitude for what they have offered to lay down for us and for the decent principles of mankind, we are in simple honor bound to do. America's task in the war is not done until her men come home again. When you give to the united war-work campaign you give to your own flesh and blood, you are strengthening the pulse beats of the national heart. Therefore carry on and do your utmost to make this wise and noble campaign an overwhelming success.

GROSVENOR CLARKSON,
Acting Director Council
of National Defense.

BETTER LOCAL AGENCY ORGANIZATION URGED BY SECRETARY OF AGRICULTURE FOR THE 1919 FARM CROP PRODUCTION

David F. Houston, Secretary of Agriculture, in a statement urges that steps be taken to secure the better organization of the agricultural forces of the country, especially of the local farm bureaus, in preparation for the execution of the necessary production program for 1919. The fall planting program is completed. Informal indications coming to the department are that the farmers planted this fall a considerably larger acreage in winter wheat than that of a year ago, which was 42,170,000, the second largest planting in the history of the Nation. A large acreage of rye also has been planted.

Too Early to Forecast Crops.

It is too early, the Secretary said, to forecast how these crops will come through the winter and what suggestion should be made as to the spring wheat planting. It is also too early to formulate and announce the details of the general spring planting program. Conditions are changing very rapidly and the requisite information is not now at hand. After full conference, suggestions will be made sufficiently in advance of the planting season.

The Secretary, however, pointed out especially the need for an increased production of beef and fats. It seems clear, he said, that for a considerable period the world will demand particularly a larger supply than normal of live stock, and especially of beef and fats. American farmers should not fail to adopt every feasible means of economically increasing live-stock products.

Further Cooperation of Agencies.

Further organization of all agricultural agencies to carry out a carefully considered agricultural program for 1919 is necessary, the Secretary said. Not only should there be the best possible organization and cooperation of the Federal Department of Agriculture, the agricultural colleges, the State departments of agriculture, and farmers' associations, but the local farm bureaus and other organizations which support the extension forces should be strengthened. The perfecting of this organization is highly desirable not only during the continuance of the present abnormal conditions but also for the future.

Agricultural Commission Returns.

An agricultural commission, headed by Dr. W. O. Thompson, president of the Ohio State University, and comprising trained agriculturists from a number of the State agricultural colleges and the United States Department of Agriculture, has just returned from Europe, where it made a thorough investigation of the agricultural conditions of the allied countries. The information it brings will be considered in formulating the agricultural production program for 1919.

The Secretary's statement, addressed to "the farmers and the agricultural forces of the United States," is as follows:

"We may depend upon our Army and Navy, in cooperation with the armies and navies of the powers with which we are

cooperating, to do all that force and strategy can do to make our victory on the battle fields complete, and we may trust the President and the heads of these other powers to secure a just peace when the proper time comes. Our part is to maintain the agriculture of the Nation on a sound basis, to secure sufficient foods and feeds for ourselves, and to meet the demands of the foreign nations, and to strengthen the foundations of agriculture for the future.

Farmers Respond Magnificently.

"During the period since we entered the war, the farmers of the Nation have responded magnificently to the appeals for increased production and all the people have complied with the urgent requests for fuller conservation. During this present fall season, our farmers have planted an increased wheat acreage and a large acreage in rye. It is too early now to make detailed suggestions for the spring planting season. We do not know how the fall grains will come through the winter and we are not now able to forecast the demands and the conditions which will prevail after the first of the year.

"This department, the agricultural colleges, and other organizations will continue to give definite thought to all the problems, and, at the proper time, will lay the situation before you.

"Two things seem to be clear:

"One is that, for a considerable period, the world will have need particularly of a larger supply than normal of live stock, and especially of beef and fats. We should not fail, therefore, to adopt every feasible means of economically increasing our live-stock products. As a part of our program, we should give due thought to the securing of an adequate supply of feedstuffs and to the eradication and control of all forms of animal disease.

Need to Perfect Organization.

"The other is the need of perfecting the organization of our agricultural agencies for the purpose of intelligently executing such a program as may seem wise. We should not only have the best possible organization and cooperation of the Department of Agriculture, the agricultural colleges, the State departments of agriculture, and farmers' associations, but we should especially strengthen the local farm bureaus and other organizations which support so effectively the extension forces and assist them in their activities. The perfecting of this organization is highly desirable not only during the continuance of the present abnormal conditions but also for the future. The local as well as the State and Federal agencies are of supreme importance to the Nation in all its activities designed to make rural life more profitable, healthful, and attractive, and, therefore, to secure adequate economic production, efficient distribution, and necessary conservation.

"The main purpose of this appeal is to direct attention to the necessity of continuing our state of preparedness and of strengthening the foundations of our agriculture."

WORLD HAS NEW FOOD PROBLEM WITH THE ENDING OF THE WAR, MR. HOOVER WARNS IN SPEECH

DEMAND WILL GROW AS FIGHTING STOPS

Conditions in Europe and Elsewhere Reviewed by Administrator in Address To Federal Administrators—Work of Regulation Must Be Continued to Meet Changes Both in United States and Elsewhere — Survey of Prospective Tax Upon This Country and the Visible Supply.

Addressing the conference of Federal Food Administrators in Washington on Tuesday, November 12, Food Administrator Hoover said, in part:

We have now to consider a new world situation in food. We have to frankly survey Europe—Europe of which a large part is either in ruins or in social conflagration; a Europe with degenerated soils and depleted herds; a Europe with the whole of its population on rations of varying degrees of privation and large numbers who have been under the German heel actually starving. The group of gamblers in human life who have done this thing are now in cowardly flight, leaving anarchy and famine to millions of helpless people. We have also to survey the situation in the exporting nations of the world, to see what can be done to redeem this mass of humanity back to health and to social order.

Dependent Upon North America.

Up to the collapse of the Germans the world that is allied against Germany has depended upon the North American Continent for the margins of food that maintain their strength against the common enemy. The loss of shipping and the increased demands for transportation of our ever growing Army had isolated the stores of food in the Southern Hemisphere and the Far East. Within 30 or 60 days the world should begin to release cargo ships from military duty and to send them further afield for food, and before the next harvest arrives the entire world's food supply should be accessible. On the other hand, the cessation of hostilities will create an enormously increased demand for food and we must be deeply concerned that the starving millions who have been liberated from the German yoke shall have such supplies as will enable them to return to health and prosperity.

All these considerations must change our domestic food policies and open to us as a Nation an obligation and an opportunity of service.

We must now take an account of the whole food resources of the world and we must take an account of the total demands. We must consider carefully how this situation reacts upon our people. We must consider our national duty in the matter and we must make such changes in our policies as are fitting to the new situation. We have thus a new orientation of the whole food problem, and it is an orientation that affects every one of the great groups of commodities in a different manner.

It has been part of the duty of the Food Administration to keep informed as to the situation in world supplies. I will not trouble you with the details country by country, nor commodity by commodity. The matter of prime interest to us is how much of each commodity the exporting countries can furnish between now and next harvest and how much is necessary to the importing countries in which we have a vital interest, in order to maintain health and public order in the world.

Table of Estimates.

We have computed the export countries' supplies on the basis of the avoidance of waste and we have assumed for the importing countries stringent war consumptions, with additions such as we consider will preserve health and order. In these circumstances we make the world's balance sheet in the different great groups of commodities approximately as follows until next harvest:

Wheat and rye.—Sufficient supplies with economy in consumption.

High protein feeds (for dairy animals).—A shortage of about 3,000,000 tons.

Other feeds.—Sufficient supplies with economy in consumption.

Beans, peas, and rice.—Sufficient supplies with economy in consumption.

Pork products, dairy products, vegetable oils.—A shortage of about 3,000,000,000 pounds.

Beef.—Sufficient supplies to load all refrigerating ships' capacity.

Sugar.—Sufficient supplies for our normal consumption if other nations retain their present short rations. A shortage if they increase their rations.

Coffee.—A surplus.

Tonnage from United States.

Of all these foods, except possibly protein feeds, we have a sufficiency for our own people and in many of them large surpluses. Of the world total to produce the above results, we are estimating North America will furnish rather more than 60 per cent, and that the United States, including the West Indies, will be in position to furnish a total of about 20,000,000 tons of food of all kinds for export against our pre-European war exports of, say, 6,000,000 tons.

Wheat and Rye.

In the matter of wheat and rye, the large supplies that have accumulated in the Argentine, Australia, and other inaccessible markets appear to us to supplement the stores of clear wheat bread

for the world. It will, however, require a continued high percentage of milling, with continuous economy in consumption and the elimination of waste. Here directly arises a change in our policies, for we are able from now on to abandon the use of substitutes in our wheat loaf. The world's supply of wheat at this juncture is a priceless blessing, for, while bread comprises but 25 per cent of our national diet, the food of Europe is from 50 to 60 per cent sheer bread. The large harvest that we have here this year is to a large degree the result of the guaranteed price, and we may rightly be proud that our production and conservation policies have provided the necessary margins to the world of its daily bread.

The shortage in protein feeds directly contributes to the world's shortage in the supply of fats. If we examine the position of the dairy products, the pork products, and the vegetable oils, we find that in every item there is a shortage in the needed supplies for the whole world, although we are estimating with economy the export possibilities of the United States in all these products at over 4,000,000,000 pounds, of which from 3,000,000,000 to 3,500,000,000 comprise pork products.

Yet, with all our supplies, the world will be far deficient in its normal supply of fats for two or three years at least. Our internal policy with regard to this group of commodities must therefore be one toward the most intense economy in consumption, if we are to carry out our high purpose of furnishing food to a famine-stricken world.

World's Supply of Beef.

In the matter of beef, the world's supplies are limited to the capacity of the available refrigerating ships. The supplies of beef in Australia, the Argentine and the United States are sufficient to load these ships. There will be a shortage in the importing countries, but we can not hope to expand exports materially for the next months, in view of the bottle neck in transportation.

It is very difficult to forecast with any degree of accuracy the position in sugar. At the present moment all Europe and North America are living on much restricted allowance.

Price of Sugar.

The Food Administration has protected the fundamental supply to the American people by purchasing, in conjunction with the allies, the next Cuban sugar crop. We have made such arrangements with the various refiners and producers in the United States and with the producers as will assure a price of 9 cents a pound wholesale for sugar during the next 12 months. This price compares with from 12 to 20 cents a pound in the other sugar-importing countries.

As the result of these arrangements and the fact that eastern sugars will be available, we will need little or perhaps no restraint on consumption after the new Cuban crop is available, unless, as I have said, the other Governments in the world decide to considerably increase their present rations.

Prime Changes Possible.

This being the new world situation in food, created by the collapse of the war, the prime changes in our policies on today's outlook can be summarized:

(Continued on page 7.)

WORKING CONDITIONS SERVICE IN RECONSTRUCTION PERIOD

The Department of Labor authorizes the following:

The working conditions service of the Department of Labor is one of the agencies of Government that will play a conspicuous role during the reconstruction period. Responsibility for determining standards of working conditions has been vested in the working conditions service. No more important field of activity for the reconstruction period exists than that of the working conditions service, which deals with the health and safety of producing workers and their relationships with employers, with the exception of controversial wage questions, with which this service will not engage.

Statement by Director Hamilton.

In discussing reconstruction, Grant Hamilton, director general of the working conditions service, said:

"When war was declared the whole American Nation mobilized for service—military and industrial. Federal administrative agencies were created to direct production and to establish most efficient standards for production. The national emergency made it dangerous to trust results to competition and individual control. There had to be control based upon knowledge of national needs and all factors that constituted the industrial situation.

"Out of the war necessity there came a new application of efficiency in dealing with national affairs. As we now face

another transitional period—the period of demobilization and reconstruction—we must as a Nation prepare to meet its problems in the same intelligent manner in which we dealt with mobilization. We shall need Federal administrative agencies to plan industrial return from a war to a peace basis to direct the order and the progress of the transition.

Bearing on the Future.

"The way in which we meet this problem will determine our progress in the years to come. Great economic advantage awaits the Nation that can quickly enter the world's markets with the products of normal commerce.

"The nation that succeeds will be the nation that wisely directs return to peace production and that avoids friction between labor and capital. Friction can be minimized by providing such standards of working conditions as will insure understanding and cooperation between all persons concerned in the processes of production."

Oil Stove Conservation Schedule Not in Effect

B. M. Baruch, chairman of the War Industries Board, authorizes the following:

Oil-stove manufacturers were advised on November 12 by the War Industries Board that the tentative schedule for conservation in that industry issued by the conservation division on September 26 will not be put into effect.

Export Conservation List Additions and Removals

The War Trade Board announces, in a new ruling (W. T. B. R. 311), the addition of the following commodity to the Export Conservation List, effective November 11, 1918:

Instruments, as follows:
Chronometers.

The removals from the Export Conservation List, as shown below, have been adopted, also effective November 11, 1918:

Ax handles made from ash wood, birch wood, hickory wood, and oak wood, X-2.
Handles, ax, hoe, pick, rake, sledge, shovel, spade, made from ash wood, birch wood, hickory wood, and oak wood, X-2.
Hoe handles made from ash wood, birch wood, hickory wood, and oak wood, X-2.
Pick handles made from ash wood, birch wood, hickory wood, and oak wood, X-2.
Rake handles made from ash wood, birch wood, hickory wood, and oak wood, X-2.
Shovel handles made from ash wood, birch wood, hickory wood, and oak wood, X-2.
Sledge handles made from ash wood, birch wood, hickory wood, and oak wood, X-2.
Spade handles made from ash wood, birch wood, hickory wood, and oak wood, X-2.

The Purchase Information Office, Room 2426, Munitions Building, Nineteenth and B Streets, Washington, gives information to persons desiring to sell material or supplies to the War Department and advises bidders concerning bids and awards.

(Continued from page 6.)

That we may now advantageously abandon the use of substitutes in our wheat bread; that we will still require economy and elimination of waste in its consumption; that for the present we need conservation in butter and condensed milk; that ultimately we must extend this to all the fats. We can contemplate, at the most, maintaining fully 3 pounds per month of sugar per person of household sugar and on the present outlook, and we can by the availability of Java sugars to Europe begin at once to relax more restraints on sugar pending some change in European policies.

Future of the Administration.

I now come to the question of the future of the Food Administration as an administration.

That portion of our work under the Lever Act revolves largely around the curtailment of speculation and profiteering. This act expires at the signing of peace with Germany, and as it represents a type of legislation only justified under war conditions, I do not expect to see its renewal. It has proved of vital importance under the economic currents and psychology of war. I do not consider it as of such usefulness in the economic currents and psychology of peace.

The law has well justified itself under war conditions. The investigations of our economic division clearly demonstrate that during the first year of the Food Administration farm prices steadily increased by 15 to 20 per cent on various computations, while wholesale prices de-

creased from 3 to 10 per cent, according to the basis of calculation. Thus middlemen's costs and profits were greatly reduced. This was due to the large suppression of profiteering and speculation, and to the more orderly trade practices introduced under the law.

It is my desire that we should all recognize that we have passed a great milestone in the signing of the armistice; that we must get upon the path of peace; that therefore we should begin at once to relax the regulation and control measures of the Food Administration at every point where they do not open a possibility of profiteering and speculation. This we can not and will not permit, so far as our abilities extend until the last day that we have authority under the law.

While the expiration of the Lever law can be faced without anxiety the other functions of Food Administration must continue. Some organization must be continued or some organization must be set up to guide our distribution of food abroad, if it shall reach the most deserving and the most necessitous.

Someone must coordinate the internal transportation of these large exports with our domestic distribution if we are not to entangle our domestic supplies and are to have effective handling in our ports. Someone must cooperate with the Shipping Board in the provisions of overseas tonnage. Someone must organize our own needed imports of sugar, coffee, and vegetable oils. Someone must stimulate and guide our people in their desire to help in this war against famine. It is in these directions that the future of some kind of

food administration lies. An organization is now called upon to fight against famine. Fortunately, I believe this new war on privation finds its own peace at next harvest. What the constitution of this organization is to be, must be developed with thought and care. In any event the Government must have the continued service and help of you who are tried and experienced.

Asks Continued Support.

I am desirous that in all these enlarged activities I should have the continued service and support of you gentlemen who have contributed so much to solve our war problems.

I am also leaving for Europe for a conference over another situation equally enlarged. From our findings there must arise details in organization to meet a much wider situation. There must be a feeding of the people who have been liberated from the German yoke. That feeding must be organized, and in order that we may get effective and prompt action from the United States, the War Department has yesterday undertaken, at our suggestion, to largely divert their military tonnage to the transportation of food and the enlargement of the quartermaster's stores in Europe that we may have them immediately available.

It will be months until formal peace; in the meantime the organization must remain intact if we are to serve the high purposes that I have outlined. And after that we can decide our courses upon the basis of our national duty.

Revised Schedule of Wages Announced In the Anthracite Coal Mining Industry As Ordered by U. S. Fuel Administrator

A readjustment of wages in the anthracite coal industry in order to stabilize them with reference to the bituminous and other related industries was ordered October 31 by the United States Fuel Administrator, Harry A. Garfield.

The readjustment is made effective November 1 and in general terms provides for an average wage increase of \$1 a day. The order embodies without change recommendations for wage stabilization agreed upon by miners and mine operators after several conferences, and submitted by them for the information of the conference of national labor adjusting agencies. This conference after considering the information submitted in the light of data on other industries approved the schedule and referred it to Secretary of Labor Wilson, who in turn transmitted it to Mr. Garfield.

The New Schedule.

The new wage schedule will be as follows:

(a) Contract hand and machine miners shall be paid an advance of 40 per cent on their gross earnings.

(b) Consideration miners shall be paid an advance of 25 per cent plus \$1 per day for each day worked.

(c) Contract miners laborers shall be paid an advance of 40 per cent on their earnings. As this increase of 10 per cent over the agreement of November 17, 1917, is less than \$1 per basic shift, the difference between said increase of 10 per cent in the rate and \$1 per basic shift shall be assumed by the operator.

(d) Consideration miners laborers shall be paid an advance of 25 per cent plus \$1 per day for each day worked.

(e) Day machine miners laborers who received not less than \$2.72 per day shall be paid an advance of 25 per cent plus \$1 per day for each day worked.

(f) Outside blacksmiths, carpenters, electricians, machinists, firemen, hoisting engineers on shafts and slopes where employment is limited by law or by the award of the Anthracite Coal Strike Commission to 8 hours per day, and engineers working on a 12-hour shift basis, shall be paid an advance of \$2 per day for each day worked. All other outside company men who received \$1.54 or more per day shall be paid an advance of \$1.80 per day each day worked.

(g) Inside engineers and pumpmen working on a 12-hour shift basis shall be paid an advance of \$2.20 per day for each day worked. All other inside company men who received \$1.54 or more per day shall be paid an advance of \$2 per day for each day worked.

(h) All employees paid by the day who received less than \$1.54 per day shall be paid an advance of \$1.20 per day for each day worked.

(i) Monthly men coming under the agreement of May 5, 1916, shall receive an advance per day for each day worked, equivalent to that provided for their respective occupations under paragraphs (f) and (g).

(j) The advances of \$2.20 per day, \$2 per day, \$1.80 per day, \$1.20 per day, and

25 per cent plus \$1 per day provided above, are to be applied to a day, whether 8 hours or more, as established under the agreement of May 5, 1916; any proportionate part of a day to be paid a proportionate part of the advances herein provided.

(k) The employees of stripping contractors, paid by the day, working on the basis of a 9-hour or 10-hour shift, shall be paid the same increase per hour for each hour worked that is provided for outside company men working on an 8-hour basis.

Occupation.	Base, per hour.		Adjustment, per hour.	Rate, per hour.	
OUTSIDE.					
Blacksmith.....	\$0.32	\$0.35	\$0.25	\$0.57	\$0.60
Carpenter.....	.32	.35	.25	.57	.60
Shaft engineers.....	.36	.40	.25	.61	.65
Firemen.....	.23	.28	.25	.48	.53
Machinery repairmen.....	.30	.32	.25	.55	.57
Laborers.....	.195	.235	.225	.42	.46
INSIDE.					
Contract miners, average per start, Aug. 18.....	\$5.63		\$1.00	\$6.63	
Contract laborers.....	.26		\$0.40 30%+1.00	1 3.70	3.16
Consideration miners.....	.40		.45 25%+1.00	1 5.00	5.50
Company miners.....	.32		.35	.57	.60
Inside laborers.....	.26		.29	.51	.54

¹Per day.

Wages of the anthracite miners, according to the findings of the conference, have been on a basis which tended to encourage the movement of miners to other occu-

The increases are based on the wage scale of May 5, 1916, which is the contract under which miners and mine operators are operating, and which was modified May 17, and December 17, 1917, on account of war conditions.

Wages in various mines are not identical to the cent, and an absolute interpretation of the scale in dollars and cents as to every mine worker is therefore impossible. A memorandum was submitted to the conference of national labor adjusting agencies, as being fairly typical of the general situation.

Wages by Occupations.

In some instances the wage increase received will be materially less, and in some instances materially more, than the tabulation, which is as follows:

pations. The report of the conference, of which Dr. Felix Frankfurter is the head, to Secretary Wilson was made public last Monday.

LIBERTY BONDS AND SAVINGS STAMPS TAKEN OUT OF U. S.

The Treasury Department issues the following customs decision:

(T. D. 37798.)

TREASURY DEPARTMENT,
October 26, 1918.

To collectors of customs and others concerned:

Customs officers are hereby authorized to allow bona fide travelers to take out of the country Liberty bonds not exceeding \$1,000 in value and war-savings stamps not exceeding \$1,000 in value when in their judgment they are justified in doing so.

If a traveler has in his possession Liberty bonds exceeding \$1,000 in value or

war-savings stamps exceeding \$1,000 in value, and a Federal reserve bank is situated in the city of embarkation, and the customs officer is satisfied that it is entirely compatible with the interest of the United States to allow such Liberty bonds or war-savings stamps to be taken out of the country by the owner, such customs officer should communicate the facts over the telephone to an officer of the Federal reserve bank, and if the said Federal reserve bank officer shall give his permission by telephone, authorizing the said bonds or stamps to be taken out of the country, the customs officer will allow the traveler to take the bonds or stamps with him.

T. D. 37782 of September 30, 1918, and T. D. 37788 of October 14, 1918, are hereby amended accordingly.

(106801.)

L. S. ROWE,
Assistant Secretary.

Early Copy of Government Contracts Desired

Purchasing Agents of all Government departments are requested to continue sending to this office at the earliest possible moment all lists of contract purchases, bids, proposals, etc., intended for publication in the OFFICIAL U. S. BULLETIN. It is necessary that this copy be handled promptly in order to insure publication in its proper place and sequence, and this can only be accomplished through the earnest cooperation of all those who are charged with responsibility.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

SECTION 1, NOVEMBER 14, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	178
Wounded severely	28
Wounded (degree undetermined)	150
Wounded slightly	31
Missing in action	166
Total	553

Killed in Action.

CAPTAIN.

CONRAD, Robert Y. Mrs. Helen Wylie Conrad, North Market Street, Winchester, Va.

LEUTENANTS.

KIRK, Andrew T. Albert Burr Kirk, Conway Springs, Kans.
 MACDONALD, Donald M. Mrs. Jessie MacDonald, Holbrook, Nebr.
 O'FLAHERTY, Colman E. Miss Mary O'Flaherty, 321 Third Avenue, Mitchell, S. Dak.
 ROSE, Philip L. Mrs. L. S. Miller, 105 East Fifty-third Street, New York, N. Y.
 TRACY, Francis M. Mrs. Gertrude C. Tracy, Second National Bank Building, Washington, D. C.
 HUNTEMANN, Charles F. Henry C. Huntemann, Thirty-second and Elm Streets, Mount Rainier, Md.
 PRESCOTT, Oliver W. Mr. or Mrs. M. C. Prescott, 1626 North Sixth Street, Sheboygan, Wis.

BATTALION SERGEANT MAJOR.

McSHANE, John J. Patrick J. McShane, R. F. D. 2, Pauls Valley, Okla.

SERGEANTS.

FLANAGAN, James. Lee Staley, R. F. D. 5, Elk City, Okla.
 HAY, Archibald L. John W. Hay, 502 B Street, Rock Springs, Wyo.
 JONES, Carl Castleman. Mrs. Ada L. Jones, 50 Lake Avenue, Oakland, Cal.
 NORTON, George T. Miss Margaret Schultz, 1011 Chenavert Street, Houston, Tex.
 O'DEA, John F. John O'Dea, 1631 Brooklyn Avenue, Brooklyn, N. Y.
 PARSON, Ernest C. Loren J. Parson, R. F. D. 2, Brockwayville, Pa.
 YOST, James A. Mrs. Aleha Yost, White Deer, Pa.
 ADAMS, John T. John T. Adams, Ware Shoals, S. C.
 BRADSHAW, Albert J. John H. Bradshaw, 712 Western Avenue, Peoria, Ill.
 CLARK, Don W. William W. Collins, Bordeaux, Wash.
 DEMING, Hardeman D. James H. Deming, R. F. D. 2, Montezuma, Tenn.
 HARMONY, George. Lizzie Secifer, 1280 Delaware Avenue, South Bethlehem, Pa.
 KILLY, James A. Mrs. Margaret Miller, 340 Ritner Street, Philadelphia, Pa.
 LANE, Leo L. James W. Lane, Medley, Tex.
 LECKROM, Earl F. Mrs. Mary E. Leckrom, State Line, Pa.
 LEW, Ellsworth J. Mrs. Joseph Lew, 2043 Brownsville Road, Carick, Pa.

CORPORALS.

ACKERMAN, Edward Henry. Mrs. Alice Ackerman, 242 Northampton Street, Heliertown, Pa.
 ADAMS, Lloyd L. Mrs. Alice Adams, 3840 East Fifteenth Street, Kansas City, Mo.
 AGGELER, Jerrold J. Joseph A. Aggeler, Box 24, Stockton, Cal.
 CAHOON, Arthur L. Mrs. Vernell Cahoon, Deseret, Utah.
 ENMAN, Guy O. David A. Enman, Deer Park, Wash.
 ERVIN, Ross D. Mrs. Florence M. Ervin, 446 East Fourth Street, Bloomsburg, Pa.
 GOLDEN, Frank M. William Cummings, 263 A. Princeton Avenue, Jersey City, N. J.
 HENDERSON, Raymond W. Mrs. Mary Buchanan, 5414 Cornal Street, Pittsburgh, Pa.
 MCCARROLL, William Edward. James E. McCarroll, 505 Fortieth Street, Brooklyn, N. Y.
 McWILLIAMS, Clark R. Mrs. Annie McWilliams, 229 Franklin Street, Hanover, Pa.

OSSWALT, John H. Mrs. Anna M. Osswalt, 420 Kosciusko Street, Brooklyn, N. Y.
 PINCKNEY, Alto C. Mrs. Cora Pinckney, Romulus, N. Y.
 POLTON, Charley. Mrs. J. P. Bernicker, Nevada, Iowa.
 SMITH, Isaac R. Mrs. Cynthia Smith, Orange, Tex.

 ANDERSON, Julios O., private. Mrs. Tina Peterson, sister, Opstead, Minn.

RESERVE HOSPITAL 2, SAARBRUCKEN.
 HIGGINS, John J., private. Mrs. Anna Higgins, mother, 1135 South Sixteenth Street, Philadelphia, Pa.
 PAWLIK, John, private. Mrs. Mary Pawlik, mother, 31 Grote Street, Buffalo, N. Y.

The following is a paraphrase of a cablegram received from the military attaché, The Hague, Netherlands:

"It is reported by a prisoner of war recently arrived from Germany that an American aviator, Lieut. Mooney, was taken to a hospital at Coblenz on October 4. He was forced to the ground while bombing Baden. It is not indicated by the report that his wound is serious." (This report is believed to refer to Lieut. Raymond T. Mooney, who gives as his emergency address Mrs. W. H. Mooney, 6900 Chappel Avenue, Chicago, Ill.)

Topical Index for the Official U. S. Bulletin

For the Month of October, 1918.

List of U. S. Naval Training Stations And Various Special Navy Schools

Following is the list of naval training stations and various special schools where men of the Navy are being trained:

- FIRST NAVAL DISTRICT.**
- Portsmouth, N. H.: Navy yard camp.
- Boston, Mass.: Bunker Island training camp. Hingham training camp. Aviation Ground School (Massachusetts Institute of Technology). Commissary schools—receiving ship (Commonwealth Pier). Deer Island training camp. Communication Officer School.
- Cambridge: Navy Radio School. Harvard University—Officers' Material School.
- Readville, Mass.: Meteorological School.
- Quincy, Mass.: Fuel Oil School—Fore River Shipbuilding Co.
- Wakefield, Mass.: Navy rifle range.
- SECOND NAVAL DISTRICT.**
- Newport, R. I.: Naval training station. Officers' Material School, Cloyne School-house. Torpedo station.
- New London, Conn.: Submarine base. Naval district base—Listeners' School—Diving School—Radio Telephone School.
- THIRD NAVAL DISTRICT.**
- New Haven, Conn.: Section base.
- New York, N. Y.: Navy yard (armed guard). Columbia University Gas Engine School.

- New York, N. Y.—Continued.
- Cooks' School, 126 East Fifty-ninth Street.
- Naval training camp, Pelham Bay Park.
- Bensonhurst, L. I.: Training camp.
- Bay Shore, L. I.: Aviation ground school.
- Rockaway, L. I.: Aviation mechanics' school.
- Keyport, N. J.: Aviation mechanics' school.
- Hoboken, N. J.: Officers' material school—N. A. R. Engineers.
- Jersey City, N. J.: Oxyacetylene welders' school.
- FOURTH NAVAL DISTRICT.**
- Philadelphia, Pa.: Aviation mechanics' school. Receiving ship. Quartermasters' school. Fuel-oil school. Cooks' school—Naval Home. Radio school. Officers' material school.
- Cape May, N. J.: Naval Reserve training camp.
- Cape May, N. J.: Section base.
- Princeton, N. J.: Officers' material school for the Pay Corp.
- FIFTH NAVAL DISTRICT.**
- Norfolk, Va.: Naval training station.
- Hampton Roads, Va.: Naval training station.
- United States Naval Academy: Reserve officers' school.
- Washington, D. C.: Navy yard—optical repair school and seaman gun school. Division of Operations—communication officers' school.
- Radio, Va.: Radio school (high power).
- SIXTH NAVAL DISTRICT.**
- Charleston, S. C.: Naval training camp.
- Mount Pleasant, S. C.: Rifle range.
- SEVENTH NAVAL DISTRICT.**
- Key West, Fla.: Naval training camp.
- Miami, Fla.: Aviation mechanical school.

- EIGHTH NAVAL DISTRICT.**
- New Orleans, La.: Naval training camp.
- West End Park, New Orleans, La.: Naval training camp.
- Gulfport, Miss.: Naval training camp.
- Pensacola, Fla.: Aviation mechanics' school.
- NINTH, TENTH, AND ELEVENTH NAVAL DISTRICTS.**
- Great Lakes, Ill.: Naval training station. Aviation mechanical schools. Armorers' school.
- Zion City, Ill.: Naval rifle range.
- Chicago, Ill.: Officers' material school, N. A. R. (deck), Municipal Pier.
- Minneapolis, Minn.: Aviation mechanics' school. Dunwoody Institute training school.
- Detroit, Mich.: Liberty motor school—Packard Motor Co. Naval training camp (Ford boats).
- Cleveland, Ohio: N. A. R. school.
- Akron, Ohio: Kite balloon school.
- Buffalo, N. Y.: Curtiss aeroplane works.
- TWELFTH NAVAL DISTRICT.**
- San Francisco, Cal.: Navy yard camp (Mare Island). Naval training station.
- San Diego, Cal.: Naval training camp. Aviation mechanical schools (North Island).
- San Pedro, Cal.: Naval training camp. Submarine base.
- THIRTEENTH NAVAL DISTRICT.**
- Bremerton, Wash.: Navy yard camp.
- Seattle, Wash.: University of Washington—district officers' material school. Naval training camp. Aviation ground school.
- Keyport, Wash.: Diving school. Torpedo class.
- FOURTEENTH NAVAL DISTRICT.**
- Honolulu, Hawaii, T. Hawaii: Naval station.
- FIFTEENTH NAVAL DISTRICT.**
- Coco Solo, Canal Zone: Submarine base.

RECENT ORDERS BY FUEL ADMINISTRATOR CONCERNING COAL PRICES AND ZONES

The United States Fuel Administration issues the following orders:

OCTOBER 25, 1918.

Application having been made for a further revision of the prices of bituminous coal mined in Knox and Whitley Counties, in the State of Kentucky, by producers who are members of the Tri-county Blue Gem Operators' Association, the United States Fuel Administrator, after due consideration of such application, acting under authority of an Executive Order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined in Knox and Whitley Counties, in the State of Kentucky, by producers who are members of the Tri-county Blue Gem Operators' Association, may be sold at prices f. o. b. cars at the mine, not to exceed the following per net ton, viz: for run of mine, \$2.55; for prepared sizes, \$3.70; for slack or screenings, \$2.30. To these prices may be added the 45-cent allowance for wage increase, if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to be effective at 7 a. m., October 28, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

OCTOBER 25, 1918.

Application having been made to the United States Fuel Administrator for a further revision of the prices of bituminous coal mined in Campbell County, in the State of Tennessee, by operators who are members of the Tri-County Blue Gem Operators' Association, the United States Fuel Administrator, after due consideration of such application, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917:

Hereby orders and directs that bituminous coal mined in Campbell County, in the State of Tennessee, by operators who are members of the Tri-County Blue Gem Operators' Association may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton, viz: For run of mine, \$2.55; for prepared sizes, \$3.70; for slack or screenings, \$2.30. To the foregoing prices may be added the 45-cent allowance for wage increase, if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., October 28, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Applications having been made to the United States Fuel Administrator for a further revision of the prices of bituminous coal mined in Wise County, in the State of Virginia, by the operators hereinafter mentioned, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined in Wise County, Va., by Clinchfield Coal Corporation, Camper Coal Co., Kiltgore Coal Co., Stonegap Colliery Co., J. A. Esser Coal Co., Yellow Creek Coal & Coke Co., Gladeville Coal Co., Wise Coal & Coke Co., Norton Coal Co., Blackwood Coal & Coke Co., or Stonegap Coal & Coke Co., may be sold at prices f. o. b. cars at the mine not to exceed \$2.15 per net ton for run of mine, \$2.40 per net ton for prepared sizes, \$1.85 per net ton for slack or screenings. To these prices may be added the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., October 28, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Applications having been made to the United States Fuel Administrator for further revision of the prices of bituminous coal mined in Harlan County, in the State of Kentucky, by the operators hereinafter named, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917:

Hereby orders and directs that bituminous coal mined in Harlan County, in the State of Kentucky, by Clover Fork Coal Co., Golden Ash Coal Co., King Harlan Coal Co., Lick Branch Coal Co., Wilson Berger Coal Co., East Harlan Coal Co., R. C. Tway Coal Co., White Star Coal Co., Harlan Fox Coal Co., Wallins Creek Coal Co., Harlan Gas Coal Co., Creach Coal Co., Banner Fork Coal Co., McComb Coal Co., Bear Branch Coal Co., Kentucky Harlan Coal Co., Middleton Coal Co., or Kentucky King Coal Co., may be sold at prices f. o. b. cars at the mine, not to exceed \$2.15 per net ton for run of mine, \$2.40 per net ton for prepared sizes, \$1.85 per net ton for slack or screenings. To these prices may be added the 45 cents allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., October 28, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Application having been made to the United States Fuel Administrator for further revision of the prices of bituminous coal mined in Wise County, in the State of Virginia, by Roberts Coal Co., the United States Fuel Administrator, after due consideration of such application, acting under the authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said Fuel Administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that bituminous coal mined in Wise County, in the State of Virginia, by Roberts Coal Co., may be sold at prices f. o. b. cars at the mine not to exceed \$2.60 per net ton for run of mine, \$2.85 per net ton for prepared sizes, \$2.30 per net ton for slack or screenings. To these prices may be added the 45-cent allowance for wage increase if the producing company is entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., October 28, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

Applications having been made to the United States Fuel Administrator for further revision of the prices of bituminous coal mined in Bell County, in the State of Kentucky, by the operators hereinafter named, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said fuel administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined in Bell County, in the State of Kentucky, by Climax Coal Co., Low Ash Mining Co., Southern Mining Co., Varilla Mining Co., Winona Coal Co., or Yellow Creek Coal Co. may be sold at prices f. o. b. cars at the mine not to exceed \$2.60 per net ton for run of mine, \$2.85 per net ton for prepared sizes, \$2.30 per net ton for slack or screenings. To these prices may be added the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., October 28, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

UNITED STATES FUEL ADMINISTRATION,
Washington, D. C., November 2, 1918.

The United States Fuel Administrator having, by a regulation promulgated July 31, 1918,

established maximum prices for gas coke, and having provided in and by said regulation for a revision of said prices as to gas coke produced in any district where the prices established by said regulation for such coke should appear to be unreasonable on account of local conditions, and it appearing to said administrator that by reason of local conditions the prices established as aforesaid are unreasonable for gas coke produced at Evansville, Ind., the United States Fuel Administrator, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that coke produced in gas retorts at Evansville, in the State of Indiana, may be sold at prices per ton of 2,000 pounds, f. o. b. cars at the plant at which such coke is produced, not to exceed the following, viz:

For run of retort-----	\$7.45
For run of retort, screened over three-fourths-inch screen-----	7.95
For prepared sizes, above three-fourths-inch screen-----	8.45
For prepared sizes, below three-fourths-inch screen-----	6.45

This order shall be effective November 4, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

UNITED STATES FUEL ADMINISTRATION,
Washington, D. C., November 5, 1918.

Application having been made to the United States Fuel Administration for a revision of the prices of bituminous coal mined by the Montevallo Straven Coal Co. in the State of Alabama, the United States Fuel Administrator, after due consideration of such application, acting under authority of an Executive order of the President of the United States, dated August 23, 1917, appointing said administrator, and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917,

Hereby orders and directs that bituminous coal mined by the Montevallo Straven Coal Co., in the State of Alabama, may be sold at prices f. o. b. cars at the mine not to exceed the following per net ton, viz: For run of mine, \$3.65; for prepared sizes, \$2.65. To the foregoing prices may be added the 45-cent allowance for wage increase, if the producing company is entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., November 6, 1918.

H. A. GARFIELD,
United States Fuel Administrator.

UNITED STATES FUEL ADMINISTRATION,
Washington, D. C., October 26, 1918.

Applications having been made to the United States Fuel Administrator for further revision of prices of bituminous coal mined in Lee County, in the State of Virginia, by the operators hereinafter named, the United States Fuel Administrator, after due consideration of such applications, acting under the authority of an Executive order of the President of the United States dated August 23, 1917, appointing said Fuel Administrator and of subsequent Executive orders, and in furtherance of the purpose of said orders and of the act of Congress therein referred to and approved August 10, 1917, hereby orders and directs that bituminous coal mined in Lee County, in the State of Virginia, by Black Mountain Mining Co., Benedict Coal Co., Bondurant Coal Co., Darby Coal Co., United Collieries Co., or Old Virginia Coal Co. may be sold at prices f. o. b. cars at the mine not to exceed \$2.60 per net ton for run of mine, \$2.85 per net ton for prepared sizes, \$2.30 per net ton for slack or screenings. To these prices may be added the 45-cent allowance for wage increase if the producing companies are entitled to add such allowance under the President's order of October 27, 1917.

This order to become effective at 7 a. m., October 28, 1918.
