

WAR INDUSTRIES BOARD IS PREPARING TO HELP TURN NATION'S RESOURCES BACK INTO CHANNELS OF PEACE

PLANS EXPLAINED

BY MR. BARUCH

Facilities Section to Act as Clearing House of All Information Relative to Contract Adjustment—Not Responsible for Financial Arrangements Between Contractors and Government.

B. M. Baruch, chairman of the War Industries Board, authorizes the following:

By agreement with all the war-making agencies of the Government the War Industries Board is to be promptly advised of revisions and adjustments of all war contracts of the Government in excess of \$100,000.

Under this arrangement the War Industries Board is to be the bridge whereby the industrial resources of the United States, which have been tied up in the war program of the Nation, are to be carried back to a peace basis and rapidly diverted to the normal needs of industry and trade.

While it has never been the function of the War Industries Board to make contracts, and while, therefore, the War Industries Board can not assume responsibility for any of the financial adjustments with contractors incidental to cancellations, the board will undertake by advice and recommendation to so control the situation as to stabilize the flow of materials, labor, and plant facilities back to peace channels.

Will Act as Clearing House.

To this end, the facilities section of the War Industries Board will act as the clearing house of all information relating to contract adjustment. It will receive information concerning contracts to be canceled from the various departments of the Government, and, through the various commodity sections of the board, keep in constant contact with the various industries. At all times will there be contact maintained with the Labor Department also, so that as labor is released from the war industries by contract cancellations immediate demand for its services can be located elsewhere. WAR REVENUE BILL REVISION URGED BY SECRETARY M'ADOO TO MEET CHANGED CONDITIONS

LETTER TO SENATE

FINANCE CHAIRMAN

House Measure More Stringent, He Says, than New Situation Justifies—Asks \$6,000,000,000 for Fiscal Year 1919 and \$4,000,000,000 for 1920—New Income and Excess Profits Regulations Suggested—Further Loans to Allies to Maintain Industrial Stability in the United States.

Secretary McAdoo yesterday sent to Chairman Simmons, of the Senate Finance Committee, the following letter bearing upon the needs of the Government under conditions changed by the signing of the armistice and submitting certain recommendations in connection with the pending war revenue bill:

WASHINGTON, D. C.,
November 14, 1918.

MY DEAR SENATOR:

The collapse of our enemies necessitates instant reconsideration of the financial problems before the Government, the most immediate of which is that presented by the new revenue bill now before the Finance Committee of the Senate. The prompt enactment of a revenue bill is imperative. The existing law is not satisfactory to the country nor to the Treasury. On the other hand, the revenue bill which passed the House is more stringent than the changed situation will justify.

The Estimates Last June.

In June, in preparing for a long war and an increasing military program, I estimated the expenditures for the fiscal year ending June 30, 1919, at \$24,000,000,000. The expenditures for the first four months of the fiscal year 1919—that is, for the months of July, August, September, and October—aggregated, according to the Treasury daily statement, \$6,635,922,423.72, or within \$365,000,000 of the amount which I anticipated for that period. The saving was apparent rather than real—due to the fact that the improved arrangements which the Treasury was able to make for meeting

Pride in Gen. Pershing's Leadership and in Army Expressed by Mr. Baker

The following is the text of a cablegram sent to Gen. Pershing by the Secretary of War:

Pershing, American Expeditionary Forces, France:

The signing of the armistice and the cessation of hostilities bring to an end a great and heroic military adventure in which the Army under your command has played a part distinguished by gallantry and success. It gives me pleasure to express to you the confidence and appreciation of the War Department and to those who have labored with you to make this result possible, this appreciation of their zeal, courage, and strength both of purpose of achievement. The entire country is filled with pride in your fine leadership and in the soldierly qualities shown by your army. Now that a respite has come in a solemn task to which the Army devoted itself, the War Department will do all in its power to expedite the early return of the Expeditionary Force to the United States in order that the country may welcome its soldiers home, and in order that these soldiers may be restored to the opportunities of civil life as speedily as the military situation will permit. I extend to you as commanding general of the American Expeditionary Force my hearty congratulations and this expression of high esteem, and I beg you to make known to the officers and men of your command the fact that their conduct as soldiers and as men has stirred the pride of their fellow-countrymen, and that their military success has contributed to the great victory for the forces of civilization and humanity.

Newton D. Baker,
Secretary of War.

Press Censorship Ends

The Censorship Board announces that press censorship in connection with cable, postal, and land lines censorships, has been discontinued under order effective this day.

PROCEDURE FOR CLOSING CENTRAL OFFICERS' SCHOOLS

The Secretary of War directs that measures, as stated below, be taken in connection with the closing of central officers' training schools:

1. No more candidates will be admitted. Candidates now in attendance will be allowed to complete the course, or will be discharged immediately from the Army, or at any time prior to the completion of the course of instruction which they are taking, at their option. Candidates who were transferred from the Student Army Training Corps will be allowed the further option of transfer back to that organization, provided they return to college immediately. Those candidates who successfully complete the course will receive certificates of graduation, will be commissioned in the Officers' Reserve Corps, under the provisions of section 37, act of June 3, 1916, and will be placed immediately on inactive status.

2. These provisions will apply to all officers' training schools for the line, or staff corps and departments of the Army.

in mind the fact that for some time to come there must be continued those parts of the war program necessary to maintain the existing military establishment here and abroad, it will likewise be a function of the facilities section to divert, where possible, the materials, labor, and facilities released by one department to the requirements of another department.

Text of Memorandum.

The interior machinery set up by the War Industries Board for this purpose is explained in the following memorandum sent out to all section chiefs of the board by George N. Peek, acting vice chairman of the board:

1. Herewith attached, marked "A," copy of the procedure that has been agreed upon with the Army on the above subject.

2. You will note it is clearly the intention that the commodity sections shall continue to be the point of contact with organized industry. The recommendation of the commodity section is required before the Government purchasing agency proceeds with final negotiations for reducing requirements, in order to insure the best method of handling the reductions, considering the stability of all industries and localities.

3. It must be borne in mind that although the commodity sections will in every way assist by making recommendations, as explained in the preceding paragraph, *it is not proposed that the War Industries Board participate in negotiations or share in the responsibility for the details of the financial adjustment with contractors in such matters as disposition of raw materials on hand, damages, depreciation, etc.* (For your information, however, we attach, marked "B," memo-

724 Sick and Wounded Landed in U. S. During Week Ending November 8, 1918

The War Department authorizes the following statement from the Office of the Surgeon General:

The total number of sick and wounded men landed in the United States from the American Expeditionary Forces for the week ended November 8 was 724. These men have been sent to Army reconstruction hospitals where facilities for their physical reconstruction have been provided.

4. Notwithstanding the definite distinction that has been made between the cancellations that require the concurrence of the War Industries Board and those that do not require such concurrence, it is not the intention to preclude the possibility of the Government procurement departments obtaining assistance of the War Industries Board commodity sections whenever they can be of service, as explained in paragraph 2.

5. The section chiefs will be charged with the responsibility of notifying other sections of the War Industries Board of recommendations that may involve other contracts for component parts, and also of furnishing the executive secretary of the requirements division with proper data in order that the necessary records may center in one place.

6. Where there is an opportunity to discriminate between cancellations in various localities the section chief will secure the approval of the director of facilities before finally clearing the reduction or cancellation, in order that each locality may be protected, so far as possible, from an unnecessary number of cancellations at one time. In order that

the director of facilities may have up-to-date information at all times the executive secretary of the requirements division will notify him of all cancellations or reductions in such detail as he may require.

7. Whenever the commodity section, for any reason, deems it desirable that the transaction be considered in conference between the head of the department in which it originates and the chairman of the War Industries Board, the matter will be immediately called to the attention of the chairman.

8. Records of meetings and reports of commodity sections will be rendered as heretofore.

GEORGE N. PEEK,
Acting Vice Chairman,
War Industries Board.

"B" memorandum referred to in the above was one issued by Maj. Gen. George W. Goethals, Director of Purchase, Storage, and Traffic, through the War Industries Board and the Committee on Public Information last week, explaining the method of making adjustments in connection with "termination of contracts in the public interest."

PERMANENT GOVERNMENT ORGANIZATION TO STANDARDIZE AMERICAN INDUSTRIES IS ADVOCATED BY CHAIRMAN BARUCH

The War Industries Board authorizes the following:

Need for a permanent Government organization to project measures of conservation and standardization in connection with American industry was emphasized by Bernard M. Baruch, chairman of the War Industries Board, at his weekly conference with the Washington correspondents on November 14.

At the same time Mr. Baruch announced that an agreement had been reached by the various war-making branches of the Government under which all cancellations of war contracts are to be promptly reported to the War Industries Board, in order that materials, labor, and facilities may be diverted in orderly fashion to the civilian needs.

Ban Lifted on Trade Exhibits.

Other matters touched upon by the chairman included an announcement by him that the board has lifted the ban heretofore imposed on all industrial and trade exhibits, such as automobile shows, furniture exhibits, etc.; the calling of a conference with copper producers; the arrangements of the board to meet the requirements for Belgian reconstruction; and his most recent understanding with the section chiefs of the board as to their continued stay in Washington.

Mr. Baruch, in response to questions, denied absolutely a report to the effect that he would shortly go to Europe. Such a suggestion, he declared, he had never considered.

At a meeting with the section chiefs Chairman Baruch told the correspondents he had advised these men that when, in their judgment, the necessity for their presence here no longer exists, they should communicate with him, permitting him to pass on the question as to whether there was continued need for them. In this connection Mr. Baruch called attention to the fact that there are in the organization of the War Industries Board, exclusive of persons attached to the regional offices and of the members of the Council of National Defense used by the board as field agents, just 251 of the so-called "dollar-a-year men." To the energy and devotion of these men, he declared, was due the fact that in no single instance has the War Industries Board failed to come through on schedule time with the requirements for the war program sought for through this board.

Turning Necessity to Advantage.

Discussing the matter of conservation and standardization, Mr. Baruch called attention to the opportunity which exists for the country to make of a matter of necessity a matter of advantage. The various measures undertaken, he observed, had been projected and carried through under the stress of the war program—each measure taken up with the individual industry involved and no attempt made to establish a general policy. The results achieved even in that way, he declared, justified, in his belief, the suggestion that the whole subject should be transferred to one of the permanent

agencies of the Government. Properly conceived, he declared, a policy of industrial conservation and standardization in time of peace would make for a saving in materials, money, and labor, and a consequent increase in productive capacities. Standardization of types and styles in various classes of commodities, he said, would make for cheaper costs of production and resulting therefrom lower prices to the consuming public. The possibilities from such economies, he remarked, constituted one of the great lessons learned from the war.

Copper Industries Meeting.

At the meeting of the War Industries Board and the representatives of the copper industry, said Mr. Baruch, there would be discussed the whole situation affecting the industry. He recalled that the copper men who would attend were the same who, before the United States entered the war and at the time when the Government was just beginning its military expansion in face of the approaching danger, voluntarily reduced their price on copper to 16½ cents a pound. As to the future ahead of the industry, Mr. Baruch expressed the opinion that the demand for copper would be heavy, and he remarked on the fact that between 75 and 85 per cent of the copper production was in the hands of the American industry. With the refining facilities included, he thought, the proportion controlled by the American producers was nearer 90 per cent.

It was in connection with this and America's war system of economic control that Mr. Baruch quoted from an editorial published in the Frankfurter Zeitung, not long before Germany laid down her arms, lamenting the fact that Germany had not adopted the far-sighted methods of the United States to check abnormal rises in the prices for raw materials needed in the war program. Opposed at first to the price-fixing regulations of the Government, observed Mr. Baruch, the industrial leaders of America had themselves come around to appreciate the wisdom of the President in insisting upon a check on the prices for the basic materials where scarcity stimulated the tendency toward extraordinarily high levels. Had a different policy been pursued, said Mr. Baruch, the steel and iron industry, for example, would be facing a return to peace conditions with

the price for pig iron boosted up to \$150 a ton or more, and other items of their production similarly scaled. It is in appreciation of the value of a restraining influence, he said, that the steel industry and others are asking that Government control be extended over the period of transition from a war to a peace basis.

Praises "Spirit of Service."

At this point the chairman took occasion to pay a warm tribute to the "spirit of service," which, he said, possessed to an unvarying degree by American industry in the period of the war, had made the war industries organization of America greater than that of any other country. Each industry, he said, considered itself to be fighting Germany. He relied on a similar spirit to see the country safely through the period of transition.

On the other hand, the chairman made it plain that the extent to which industry is to be able quickly to take up the reconstruction demands is dependent to a very great degree on the ability to get ships. Without ships, he declared, the War Industries Board would in great measure be powerless. The question remains to be decided as to what branch of the Government will handle the matter of allocating tonnage. The War Trade Board and the Shipping Board, he thought, had the matter now under consideration.

Available for the agencies that will decide these problems, said Mr. Baruch, was the vast reservoir of live statistics, accumulated from all departments and all sources of information, and compiled in orderly and accessible manner under the auspices of the statistical branch of the War Industries Board. There need be on that account no groping in the dark, for the statistics are within a week of actual timeliness.

The Steel Situation.

With regard to the steel situation, again, Chairman Baruch said that the steel manufacturers are anxious that some means be devised whereby the Railroad Administration may be empowered to place orders for cars, rails, and other equipment. This they desire in preference to the system existing whereby even though the Director General of Railroads must pass on all orders for such equipment, the say as to whether the orders shall be placed at all is one for the individual roads to decide. At present, said Mr. Baruch, it is up to the railroads to come forward and place their orders.

Concerning the labor situation, Mr. Baruch declared that he had the utmost confidence that it would be adjusted without difficulty and without loss to the workers. It was his theory that labor would, and should, continue to be well paid, and he expressed the conviction that out of the better understanding existing between capital and labor as a result of the war would come a higher participation by labor in the fruits of its toil.

Mr. Baruch announced that George N. Peek, commissioner of finished products of the War Industries Board, had been delegated to represent the War Industries Board in its dealings with Herbert Hoover in the latter's demands for materials needed for the reconstruction work in Belgium. Mr. Peek's headquarters will continue to be in Washington.

ASKS AMERICAN FARMERS TO SUPPORT WAR-WORK AGENCIES

A message to American farmers asking their support of the united war-work campaign has been issued by David F. Houston, Secretary of Agriculture. The message is as follows:

"Three million American boys on the battle fields in France, in the cantonments on this side, and on our great ships everywhere are fighting the battle for democracy.

Army on the Farms.

"Back of them is another army—the splendid, untiring men and women on the farms of America, who have taken up the additional burden laid upon them by the absence of many of their boys, and by their toil and sacrifice have produced the crops that to-day are helping to feed the allied world. From you, who are the soldiers of that army, every patriotic call has had an unhesitating and united response.

"To-day in the name of the President of the United States another call is sent to you on behalf of your sons and brothers. They are far away from their own homes, yet through the generosity of the American people the influence of the homes which they have left still follows them. Seven great organizations have taken it upon themselves to do for the boys in camp and at the front the things which every parent would wish to do for them if he could.

The Seven Agencies.

"These seven agencies are the Y. M. C. A., Y. W. C. A., National Catholic War Council, Jewish Welfare Board, War Camp Community Service, American Library Association, and the Salvation Army. Together these splendid societies represent every one of the best elements in our American life. Their huts are the soldier's church, his college, his library, his club, his theater, and his gymnasium.

"To provide this comfort, to make the American home follow the American flag requires money in large amounts. These seven agencies will need more than one hundred and seventy millions to push their work forward through the forthcoming months. And because their

German Women in Wireless Message Appeal for Food to Mrs. Wilson

The women of Germany have made use of the Nauen wireless in communicating with the women of America, through Mrs. Wilson. Wireless messages were "picked up" by the new Military Intelligence Station at Haulton, Me., yesterday, showing that this great sending station, which the German military party has been using for years for its propaganda, and which was much employed for the peace parleys, has now been taken in hand by the new republican government.

The first messages were addressed to Mrs. Wilson and Miss Jane Addams. They show that the stories of German famine during the war were really true, in spite of frequent denials.

The messages were made public by the War Department as follows:

BERLIN, November 12, 1918.

To MRS. WOODROW WILSON,
White House,
Washington, D. C.

MADAM: According to the terms of the armistice, Germany has to surrender a very large part of the rolling stock of her railways. At the same time she has to feed the troops of her former enemies in the occupied provinces of Germany. The German women and children have been starving for years. They will die from hunger by the million if the terms of the armistice are not changed. We need the rolling stock of the railways to bring the food from the farms to the cities. It will be impossible to feed the soldiers of the occupying armies if we cannot get large amounts of food from oversea. The women and children all the world over have been the innocent sufferers of this terrible war, but nowhere more than in Germany. Let it be

through you, Madam, to implore our sisters in the United States of America, who are mothers like ourselves, to ask their government and the allied governments to change the terms of the armistice so that the long suffering of the women and children of Germany may not end in unspeakable disaster. For the National Council of Women of Germany.

GERTRUD BAEUMER,
ALICE SALOMON.

POZ, November 13.

To JANE ADDAMS,
Hull House, Chicago.

German women, foreseeing entire famishment and mutiny for their country, urge their American sisters to intercede relief of truce conditions regarding term of demobilization, blockade, wagons, locomotives. We are all free voters of a free republic now, greeting you heartily.

ANITA AUGSPURG.

work is done in the same spirit and for the same great end, they have wisely agreed to make their appeal to the public not separately but together.

"That appeal, which will be made to you in the week of November 11-18, will offer the American people one of the most splendid opportunities of the war to signal across the seas their united support of the boys who are fighting there. The cause is great; the total amount asked for is great; but not greater than the patriotism of the American farmers. Every house that flies a service flag will have a special interest in the success of that campaign. For every dollar means added cheer and comfort to the son of such a house.

"On behalf of the administration I send you this great call. But more particularly on behalf of the boys themselves. In the chill and damp of those French villages they are waiting for your answer—waiting for you to say to them: 'No matter how great the sum, we prom-

ise that you shall have the comforts of life over there. The success of this united war-work campaign is the proof that we are standing shoulder to shoulder behind you.'

"D. F. HOUSTON,
"Secretary of Agriculture."

Plans to Release Youths From Service in the Navy

Secretary Daniels announces that all young men in the Navy desirous of returning to school or college and those whose business interests need them imperatively will be released as "speedily as possible. Application for release should be made by the individual to his commanding officer and each case will be acted upon separately, and they will be released as soon as naval needs permit. Orders to this effect have been sent to commanding officers of all ships and stations.

WORK OF CONGRESS BRIEFLY TOLD

SENATE.

An amendment to the pending war-revenue bill is being prepared by the advocates of child labor legislation that is designed to place a prohibitive tax on the products of child labor. The authors of the proposed amendment are Senators Pomerene of Ohio, Kenyon of Iowa, and Lenroot of Wisconsin. Senators favoring such legislation believe the proposal in the present form will stand the test of the Supreme Court. The tax contemplated would be an additional tax to any and all other taxes imposed.

Chairman Simmons, of the Finance Committee, yesterday afternoon received a letter from Secretary McAdoo setting forth the needs of the Government for the next fiscal year. He estimates that in view of changed conditions the expenditures of the Government will be reduced from the estimated \$24,000,000,000 to about \$18,000,000,000, and suggests that the pending war-revenue bill be so framed as to levy not more than \$6,000,000,000 instead of the full \$8,000,000,000, as provided for in the House bill. After the current fiscal year, he says, the necessities of the Government will require revenues of about \$4,000,000,000 annually.

HOUSE.

Under the terms of a resolution introduced by Representative Fess, of Ohio, an international celebration of the close of the war and the victory of democracy over autocracy would be held in Washington, July 4 of next year, to which the allies would be invited to send representatives to be entertained by the Nation. The resolution specifically names Marshal Foch and Gens. Haig, Petain, Diaz, and Pershing as guests of honor.

Resolutions were introduced by Representatives Vane of Pennsylvania, and Harrison of Mississippi, making November 11, the day the armistice was signed, a national holiday.

War Department Plan in Cases Where Overseas Permits Are Delayed Beyond Nov. 21.

Official announcement is made by the War Department that the date limit of November 20 for mailing Christmas parcels overseas has been extended to November 30, inclusive. This is for the reason that the location of certain of our divisions in Europe has prevented prompt distribution and dispatch of Christmas package labels from members of our forces to their friends or relatives in the United States. The extension of time is made, therefore, in order that those receiving delayed labels or coupons may still send Christmas parcels up to and including the date mentioned.

In order further to insure that no nearest relative of a member of the American Expeditionary Forces may be denied the pleasure of sending a Christmas parcel,

Prices to Government For Crushed Stone

The Price-Fixing Committee authorizes the following:

At a meeting of the Price-Fixing Committee held on Thursday, November 7, a maximum price of \$1.50 per ton (2,000 lbs.) f. o. b. cars plant was fixed for all Government purchases of crushed stone (other than railroad ballast or screenings) for the period ending December 31, 1918, within the metropolitan Philadelphia district, i. e., for the State of New Jersey, south of and including Trenton; the State of Delaware, and the State of Pennsylvania, east of and including Harrisburg.

War Revenue Bill Revision Urged by Secretary McAdoo

(Continued from page 1.)

the requirements of the Army's disbursing officers abroad released funds which had accumulated to their credit and made them available for current expenditures, and also due to certain other adjustments. I have little doubt, therefore, that had the war continued, the expenditures would have reached the amount estimated.

Decrease in Expenditures.

Now, however, there seems every reason to anticipate a large reduction in the Government's expenditures during the balance of the fiscal year. How great that reduction will be, it is impossible at the moment to estimate. Existing contracts will, no doubt, be liquidated to a considerable extent. That process of liquidation might actually result for a time in acceleration of demands upon the Treasury rather than retardation. The pay of the Army and Navy and the expenditures in salaries and wages of the war establishments must continue without material change for months to come. It seems reasonable to suppose that the decrease in the Government's expenditures can not be at a very rapid rate if a wise policy of readjustment and transfer of activities from a war to a peace basis is followed.

Payments By the Allies.

The United States will be the fortunate possessor of foodstuffs, raw materials, and manufactured products of which Europe and the rest of the world are in dire need. Not all of the allies can fully pay us in gold, for some have little and others none to spare; nor in commodities during the period of reconstruction, for some of them will not so soon be able to resume normal activities; and the United States must be prepared to continue, therefore, to enable the Governments of the allies, or some of them, to make purchases on credit. I shall promptly ask the Congress for authority to continue to establish such credits and make loans within reasonable limits to these Governments for purposes growing out of the war.

Minimum Foreign Loans.

It is of the utmost importance that such foreign loans should be held down to a minimum and as soon as may be discontinued, and that every reasonable argument should be pressed upon the Governments of the allies to prepare themselves and their people to make payment for their exports from the United States by imports into the United States; that is, in effect, to make cash payment instead of payment by credit. For the period of reconstruction, however, some of the allies must have working capital in the form of credits to enable them to pay for the imports without which they can not place themselves and their industries on a peace basis. This is not only the policy which is actuated by a proper desire to be helpful to the Governments which, with us, have borne the burden of the war, and to their peoples, but is also the policy of enlightened selfishness. It is to be apprehended that the sudden cessation of the extraordinary demands upon our industry and products, consequent upon the conclusion of the war, may result in sudden reduc-

tion of prices and wages and even in unemployment, if we are not prepared to continue to sell on credit to the extent that may be necessary.

These considerations lead me to believe that the Government's expenditures during the fiscal year ending June 30, 1919, may be in the neighborhood of \$18,000,000,000.

Reduction in House Bill Amount.

I am inclined to recommend a substantial reduction in the amount sought to be raised by the House bill. Changes have been made or are in contemplation by the Senate which, taken together with the anticipated elimination of revenue from liquor taxes, would reduce the amount to be raised by the pending revenue bill from the \$8,000,000,000 or more provided for in the House bill and originally suggested by me to some \$6,300,000,000. Further changes may, I think, with safety be made in the bill with a view to reducing the amount of taxation to \$6,000,000,000, which may be paid in installments during the calendar year 1919. The excess-profits tax rates applicable to the calendar year 1918 should not be greater than those provided for in the existing law of October, 1917, and should be payable only in those cases where such excess-profits tax would yield a larger return than the proposed war-profits tax. The 80 per cent war-profits tax applicable to the calendar year 1918 should be retained. Contracts have been made during past months in the expectation of a heavy war-profits tax. Everyone is agreed that war profits should be taxed. They must be taxed now.

It is time to look ahead to the future of American business and industry. Our tax measures should be so devised as to encourage and stimulate rather than to burden and repress them. I therefore recommend the immediate amendment of the pending bill so as to provide that, with the collection of the taxes levied upon war and excess profits for the calendar year 1918 and payable in the year 1919, the war and excess-profits taxes shall come to an end, except in so far as may be necessary to subject to these taxes profits which, though arising from contracts entered into during the war period, would, under existing regulations, technically be profits of 1919 and not profits of 1918. I can think of nothing which would do more to encourage industry and enterprise than this measure, carrying with it as it would the assurance that with the cessation of war there will come cessation of taxes on so-called war profits and war excess profits.

Revenue from Taxes.

It seems wise to provide, with the elimination for the calendar year 1919 of the war and excess-profits taxes, for a sufficient revenue from corporation and individual income taxes applicable to the calendar year 1919 to make the total revenue payable during the calendar year 1920 not less than \$4,000,000,000. It is impossible at this time to make a forecast of the aggregate amount which the war debt will have reached by the time war contracts have been liquidated and the reduction of our military forces to a peace basis has been completed. What will be

the Government's necessities when the period of readjustment is past and the country has fully reached a peace basis can not now be foretold; but having regard to the interest on the then public debt in excess of the interest to be received from obligations of foreign Governments, the necessity of providing from taxes for the gradual retirement of the war debt, and the certain permanent increase in the expenditures of the Government over prewar expenditures, the figure of \$4,000,000,000 suggested seems a very moderate one.

In connection with the revision downward of the pending revenue bill, I can not too strongly urge upon you the necessity, so far as the war and excess profits tax is concerned, of providing necessary safeguards in the form of adequate provisions for amortization, conservative valuation of inventories, and the ascertainment of the minimum incomes which shall be exempted from the tax on lines which will insure the taxpayer from injustice and avoidable injury. Nor can I overemphasize the importance of determining now the basis of taxation which will apply to the calendar year 1919, as well as to the calendar year 1918. Business and industry and individual initiative and enterprise are entitled to know in advance the basis of taxation upon which all the activities of the Nation must be conducted. Prosperity can not be maintained if business is kept in uncertainty as to taxation. It is always unfortunate to be compelled to enact a tax bill at the end of the calendar year, with retroactive effect, instead of in advance of the calendar year, which would permit contracts and business arrangements generally to be entered into with certainty as to the burden of taxation to be borne. This is a gross injustice to business, and to all forms of enterprise. It is costly also to the people at large, as they are required to pay higher prices for their necessities, because producers, in order to be on the safe side, fix prices on the assumption that taxes may be higher than they subsequently turn out to be. Definiteness and certainty as to the basis of taxation should be given in the pending bill, not alone as to the calendar year 1918, but as to the calendar year 1919. This will enable business and enterprise to proceed with confidence and courage.

Temporary Treasury Borrowing.

Being reasonably assured of a decreasing rather than an increasing scale of expenditure, the Treasury could look forward with composure to the necessity of temporary borrowing against the expected revenue, in addition to such borrowing as may be necessary to meet the excess of current expenditures over revenue. This gives an opportunity in connection with the pending bill to take measures which heretofore have been impossible because of the increasing scale of expenditures, although inherently very desirable, for the spreading of the payments of income and profits taxes over the entire calendar year instead of requiring them to be made in the first six months, and I suggest that these taxes be made payable in four equal installments, say, March 15, June 15, September 15,

and December 15. This will give great additional relief to taxpayers during the period of readjustment now before us and will initiate a policy which should be to the permanent advantage of the Government. For many years to come the Government's expenditure for interest and other purposes will be vastly increased and that expenditure will be spread over the whole year. It is of the utmost importance that the Government should be in receipt of revenues through the calendar year about evenly proportioned so that it will not be under the necessity of accumulating balances beforehand or borrowing against anticipated revenue receipts when we reach again a peace basis.

Summary of Recommendations.

To summarize, I venture to recommend:

1. That the pending revenue bill be revised with a view to yielding \$6,000,000,000, payable during the calendar year 1919, and not less than \$4,000,000,000 during the calendar year 1920.

2. That income and profits taxes be payable in four equal quarterly installments, beginning March 15 in each year.

3. That the excess-profits tax rates in respect to taxes payable in the year 1919 be not higher than those in the existing law.

4. The amelioration of the provisions with reference to the determination of war and excess-profits taxes in respect to the revenue payable in the year 1919 and the elimination of those taxes in respect to revenue payable in 1920, except with respect to profits on contracts negotiated during the war period.

5. That to compensate for any reduction of revenue beyond the desired amounts above indicated there should be an increase in the corporation and individual income-tax levies.

I am sending a copy of this letter to Mr. Kitchin, chairman of the Ways and Means Committee.

Cordially, yours,

W. G. McAdoo.

President's Proclamation Taking Title to Lands for Navy At Great Lakes, Illinois, and Puget Sound, Washington, And Site for a Marine Corps Base at Quantico, Virginia

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA.

A PROCLAMATION.

Whereas the act of Congress approved July 1, 1918 (Public No. 182—65th Congress), making appropriations for the naval service for the fiscal year ending June 30, 1919, and for other purposes, provides that:

"The President is hereby authorized and empowered, within the amounts herein appropriated therefor, to take over immediately by the United States, possession of and title to each and all of the parcels of land, including appurtenances and improvements for the acquisition of which authority is herein granted and for which appropriations are herein made; Provided, That if said lands and appurtenances and improvements shall be taken over as aforesaid, the United States shall make just compensation therefor, to be determined by the President, and if the amount thereof, so determined by the President, is unsatisfactory to the person entitled to receive the same, such person shall be paid seventy-five percentum of the amount so determined by the President and shall be entitled to sue the United States to recover such further sum as added to said seventy-five percentum will make up such amount as will be just compensation therefor, in the manner provided for by section 24, paragraph 20 (and), section 145, of the Judicial Code; Provided further, that upon the taking over of said property by the President as aforesaid, the title to all property so taken over shall immediately vest in the United States;" and

Whereas the act of Congress aforesaid authorizes the acquisition of additional land for naval purposes at the following places, namely:

Naval training station, Great Lakes, Ill.;
Navy yard, Puget Sound, Wash.;
and also authorizes the acquisition of land at Quantico, Va., as a permanent Marine Corps base, and makes appropriations for the acquisition of the land required at the places mentioned; and

Whereas it is a military necessity for the United States to take possession of the tracts of land required for naval purposes at the places aforesaid, together with all improvements, easements, rights of way, riparian and other rights and privileges appurtenant or appertaining in any way to the said tracts of land, and to begin without delay the development of the said tracts of land for the uses and purposes of the naval service of the United States:

Now, therefore, know all men by these presents, that I, Woodrow Wilson, President of the United States of America, by virtue of the power and authority vested in me by the said act of Congress approved July 1, 1918, do hereby, on behalf of the United States, take title to and authorize the Secretary of the Navy to take possession of the following described tracts of land:

TRACT NO. 1.

ADDITIONAL LAND NEEDED FOR THE ENLARGEMENT OF THE NAVAL TRAINING STATION, GREAT LAKES, ILL.

All those three certain parcels of land or interests therein not owned by the United States, situate, lying and being in the county of Lake, State of Illinois, adjacent to or in the vicinity of the naval reservation, naval training station, Great Lakes, Ill., which said three parcels of land are more definitely described as follows:

Parcel No. 1.

All that part of the fractional SE $\frac{1}{4}$ of sec. 33, T. 45 N., R. 12 E., of the 3d P. M., county of Lake, State of Illinois, fronting on Lake Michigan and lying to the southeast of the right of way of the Elgin, Joliet & Eastern R. R., containing in all thirty-six (36) acres, more or less, together with improvements and all riparian rights, privileges, easements and other rights whatsoever, including rights in streets and alleys and public and private ways appurtenant or appertaining in any way to said above-described parcel of land, including also all privately owned rights in the underwater lands of Lake Michigan lying in front of the above-described parcel of land.

Parcel No. 2.

Beginning for the same at a point in the shore line of Lake Michigan, which point is distant six hundred feet, more or less, north of the south line of sec. 4, T. 44 N., R. 12 E. of 3d P. M., and also marks the intersection of the northerly boundary line of the naval reservation, Great Lakes, Ill., with the said shore line of Lake Michigan; thence in a northerly direction following the said shore line of Lake Michigan to a certain point in said shore line, which said point is distant fifteen hundred and one and eighty-two hundredths feet (1,501.82'), more or less, south of the north line of said sec. 4 a distance of thirty-two hundred feet (3,200'), more or less; thence west on a line parallel to the north line of said sec. 4 and distant therefrom fifteen hundred and one and eighty-two hundredths feet (1,501.82'), more or less, to the easterly line of Champlain Street, as said street is shown on a certain plat of the Woodland Bluffs subdivision of a part of the fractional N. E. $\frac{1}{4}$ of said sec. 4, which said plat was recorded July 2, 1896, among the land records of Lake County, Illinois, as Document No. 65331 in book "D" of plats, page 55, a distance of eight hundred and eighty feet (880'), more or less; thence north turning at right angles and following the easterly line of said Champlain Street, a distance of nine hundred and twenty feet (920'), more or less; thence west turning at right angles on a line parallel with the northerly line of Second Avenue, North Chicago, Ill., to a point in the east line of the N. W. $\frac{1}{4}$ of said sec. 4, which point is distant five hundred and ten feet and forty hundredths of a foot, more or less, south of the southerly line of the right of way of the Elgin, Joliet & Eastern R. R., a distance of four hundred and ninety feet (490'), more or less; thence south turning at right angles and following the east line of the N. W. $\frac{1}{4}$ of said sec. 4 to a certain point in said line, which point is distant five hundred and three feet (503'), more or less, north of the northerly line of Second Avenue, North Chicago, Ill., a distance of three hundred and thirty-five feet (335'), more or less; thence west turning at right angles on a line parallel to the northerly line of said Second Avenue and distant therefrom five hundred and three feet (503'), more or less, a distance of one hundred and ninety-eight and seventy-five hundredths feet (198.75'), more or less, to the center of a certain switch track connecting the Elgin, Joliet & Eastern R. R. with the Chicago and Northwestern R. R.; thence southwesterly upon an 18° curve convex to the southeast along the center of said switch track to the easterly line of Marquette Street, a distance of two hundred and eighty feet (280'), more or less; thence in a general southerly direction following the easterly line of Marquette Street to the north line of lot No. 1 of the northwest $\frac{1}{4}$ of said sec. 4 a distance of one hundred and seventy feet (170'), more or less; thence west following the north line of said lot No. 1 to the easterly line of the right of way of the Chicago and Northwestern R. R., as said right of way is shown on a certain plat recorded among the land records of Lake County, Ill., Sept. 28, 1892, as Document 51094 in book "C" of plats, page 37, a distance of five hundred feet (500'), more or less; thence in a southwesterly direction following the easterly line of the right of way of the Chicago and Northwestern R. R., and then following the easterly line of the highway leading from Lake Forest to Waukegan, known as the Waukegan Road, to the north-west corner of the naval reservation, Great Lakes, Ill., a distance of thirty-five hundred and thirty feet (3,530'), more or less; thence easterly following the northerly line of said naval reservation to the point of beginning, a distance of thirty-three hundred and fifty-five feet (3,355'), more or less. Containing in all two hundred and twenty-three and seventy-two hundredths acres (223.72), more or less, together with all improvements, easements, riparian rights, privileges, and other rights whatsoever, including rights in streets and alleys and public and private ways appurtenant or appertaining in any way to said above-described parcel of land, including also all privately owned rights in the underwater lands of Lake Michigan in front of the above-described parcel of land.

Parcel No. 2.

Beginning for the same in the westerly line of the right of way of the Chicago, Lake Shore

& Milwaukee R. R., which point is also the point of intersection of the south line of the NE $\frac{1}{4}$ of the NE $\frac{1}{4}$ of sec. 14, T. 44 N., R. 12 E. of the 3d P. M., county of Lake, State of Illinois, with the westerly line of the said right of way of the Chicago, Lake Shore and Milwaukee R. R. said point being distant seventy-five feet (75') more or less west of the east line of said sec. 17; thence in a northerly direction following the westerly line of said right of way to its point of intersection with the south line of sec. 5, T. 44 N., R. 12 E. of the 3d P. R. so much of the right of way of the North Chicago Switch R. R., and so much of Morrow Ave. as lies within the boundaries thereof.

The three above-described parcels of land being shown on a certain map on file in the office of the solicitor, Department of the Navy, which said map bears the legend, "Map showing property to be acquired adjacent to U. S. Naval Training Station, Great Lakes, Ill., dated Aug. 16, 1918, W. A. Moffett, commandant."

TRACT No. 2.

ADDITIONAL LAND ADJOINING NAVY YARD, PUGET SOUND, WASH.

All those three certain parcels of land or interests therein not owned by the United States, situate, lying, and being in the county of Kitsap, State of Washington, adjacent to the naval reservation, Puget Sound, Bremerton, Wash., which said three parcels of land are more definitely described as follows:

Parcel No. 1.

Beginning for the same at a point in the east boundary line of the naval reservation, Puget Sound, Washington, which point marks the intersection of the dividing line between lots 11 and 12, block 11, of the town of Bremerton, Kitsap County, Washington, according to the original plat of said town, on file in the office of the auditor of Kitsap County, Washington, prolonged in a westerly direction with the said easterly boundary line of said naval reservation; thence in an easterly direction following the said dividing line between the said lots 11 and 12 prolonged across Pacific Avenue in said town to the dividing line between lots 2 and 3, block 10, in said town; thence continuing in an easterly direction with said dividing line between said lots 2 and 3 to the westerly line of the certain fourteen-foot alley in said block 10, a distance of two hundred and eighty-four feet (284') more or less; thence south, turning at right angles and following the westerly line of said alley to its intersection with the northwesterly line of Washington Avenue in said town, a distance of thirteen feet (13') more or less; thence in a southeasterly direction and crossing Washington Avenue in a straight line to a point in the south line of Washington Avenue, which point marks the intersection of the southeasterly line of Washington Avenue with the dividing line between lots 8 and 9, block 1, in said town, a distance of seventy feet (70') more or less; thence continuing in a general southeasterly direction, following the dividing line between lots 8 and 9 as said line is prolonged to its point of intersection with the outer harbor line of the town of Bremerton, as such outer harbor line is now or may hereafter be established, a distance of seven hundred and fifty feet (750') more or less; thence in a southwesterly and then westerly direction, following the said outer harbor line to its point of intersection with the easterly boundary line of the naval reservation aforesaid, prolonged in a southerly direction a distance of seven hundred and ninety-four feet (794') more or less; thence in a northerly direction, following the said easterly boundary line of the naval reservation to the point of beginning, a distance of nine hundred and fifty feet (950') more or less, together with improvements and all riparian rights, privileges, easements, and other rights whatsoever, including rights in streets and alleys and public and private ways appurtenant or appertaining in any way to said above-described parcel of land, including also all privately owned rights in the under-water lands lying between the high-water line of the said above-described parcel of land and the outer harbor line aforesaid, as said line is now or may hereafter be established.

Parcel No. 2.

Beginning for the same at a point in the northeast corner of the boundary line of the naval reservation, Puget Sound, Bremerton, Washington, which point also marks the point of intersection of the southerly line of Burwell Avenue in said town with the westerly line of a certain fifteen foot alley adjoining on the west lot No. 6, block 13 in said town of Bremerton; thence in an easterly direction following the southerly line of said Burwell Avenue to a certain point which marks the intersection of the southerly line of said Burwell Avenue with the dividing line between lots 22 and 23 in block 13 in said town of Bremerton a distance of five hundred and twenty-five feet (525') more or less; thence in a southerly direction turning at right angles and following the dividing line between said lots 22 and 23 a distance of one hundred and twenty-five feet (125') more or less to a certain fourteen-foot alley extending along the southerly side of said block 13; thence in a westerly direction turning at right angles and following the southerly line of lot 22 in said block 13 a distance of fourteen feet (14') more or less; thence in a southerly direction turning at right angles a distance of fourteen feet (14') to a corner in the easterly boundary line of said naval reservation, which corner also marks the point of intersection of the southerly line of a fourteen-foot alley extending along the southerly side of block 13 with the westerly line of a fourteen-foot alley extending along the westerly side of block 12 in said town of Bremerton; thence in a westerly direction following the northerly boundary line of the said naval reservation a distance of five hundred and eleven feet (511') more or less; thence in a northerly direction continuing along the easterly line of the said naval reservation to the point of beginning, a distance of one hundred and thirty-nine feet (139') more or less. Together with improvements, easements, privileges, and other rights whatsoever, including rights in streets and alleys and public and private ways appurtenant or appertaining in any way to the said above-described parcel of land.

Parcel No. 3.

All that certain tract of land at the northwest corner of the naval reservation, Puget Sound, Bremerton, Washington, embraced within the N. W. $\frac{1}{4}$ of the N. W. $\frac{1}{4}$ of the N. W. $\frac{1}{4}$ and the N. E. $\frac{1}{4}$ of the N. W. $\frac{1}{4}$ of the N. W. $\frac{1}{4}$ of sec. 23, T. 24 N., R. 1 E., W. M., in Kitsap County, State of Washington, containing in all twenty (20) acres more or less, together with improvements, easements, privileges, and other rights whatsoever, including rights in streets and alleys and public and private ways appurtenant or appertaining in any way to the said above-described parcel of land.

Said above-described parcels No. 1 and No. 2 being shown on a certain blue print on file in the office of the solicitor, Department of the Navy, which blue print bears the legend, "Navy yard, Puget Sound, Washington, Nov. 17, 1918. Proposed shipbuilding ways and available Bremerton property for yard extension. L. E. Gregory, civil engineer, U. S. N.-7 B-294."

Said above-described parcels No. 1 and No. 2 are shown on a certain blue print on file in the office of the solicitor, Department of the Navy, which said blue print bears the following legend, "Topographical map of the U. S. Marine Corps Reservation, Quantico, Va., by Capt. W. G. Emory, U. S. M. C. * * * by direction Lt. Col. R. H. Dunlap, U. S. M. C., commanding artillery force, Sept., 1917, outlining land proposed to be acquired, accompanying report of board, 1-25-18."

Parcel No. 3 is shown on a certain tracing

on file in the office of the solicitor, Department of the Navy, which tracing bears the legend, "Survey of plot containing Government water plant."

The several tracts of land above described, together with all improvements thereon and all rights and privileges appurtenant or appertaining in any way thereto, are hereby declared to be, and the same are, set apart for use for naval purposes and are placed under the exclusive control of the Secretary of the Navy, who is authorized and directed to take immediate possession thereof in accordance with the terms of said act on behalf of the United States for the purposes aforesaid.

The Secretary of the Navy is authorized and directed to take such steps as may in his judgment be necessary for the purpose of conducting negotiations with the owners of property or rights whatsoever therein within the said above-described tracts of land for the purposes of ascertaining the just compensation to which said owners are entitled in order that compensation therefor may be made in accordance with the provisions of the act aforesaid. All owners of land and improvements, title and possession of which are taken hereunder in accordance with the terms of the act hereunder, and all persons having claims or liens in respect thereto are hereby notified to appear before the board to be appointed by the Secretary of the Navy and present their claims for compensation for consideration by the said board in accordance with the provisions of the act aforesaid.

All persons residing within said above-described tracts of land or owning movable property situate thereon are hereby notified to vacate the said tracts of land and to remove therefrom all movable property within thirty days from the date of this proclamation.

In testimony whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this 4th day of November, in the year of our Lord one thousand nine hundred and eighteen, and of the independence of the United States of America the one hundred and forty-third.

[SEAL] WOODROW WILSON.

By the President:
ROBERT LANSING,
Secretary of State.

WATER SYSTEM IN JERUSALEM BUILT BY BRITISH ENGINEERS

The American Red Cross issues the following:

Red Cross workers recently arrived in Jerusalem are enthusiastic in their praise of the way that ancient city has benefited at the hands of the English. The most remarkable change is the installation of a modern water system, an achievement accomplished by the Royal engineers in the face of tremendous difficulties in about two months. Water carriers, always picturesque to those unacquainted with the fact that their leather bags were the mobilization points for microbes, are no longer seen. The cisterns in each home are no longer insanitary. Neither is it necessary to wait for rain to fill them. There is no limit to the water each citizen may now consume and as a result the ensuing personal cleanliness has made for improved health in the community.

During the 400 years of Turkish domination Jerusalem obtained a meager water supply which had its source in the Spring of Solomon and was carried through an aqueduct built by the Romans in Herod's time. The British engineers located various water sources within a short distance of the town and brought them together in a great reservoir. From this point the water is pumped to the top of the hill on which Jerusalem stands and is piped through the city.
