Thanksgiving Proclamation

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA.

A PROCLAMATION.

It has long been our custom to turn in the autumn of the year in praise and thanksgiving to Almighty God for His many blessings and mercies to us as a Nation. This year we have special and moving cause to be grateful and to rejoice. God has in His good pleasure given us peace. It has not come as a mere cessation of arms, a mere relief from the strain and tragedy of war. It has come as a great triumph of right. Complete victory has brought us, not peace alone, but the confident promise of a new day as well, in which justice shall replace force and jealous intrigue among the nations. Our gallant armies have participated in a triumph which is not marred or stained by any purpose of selfish aggression. In a righteous cause they have won immortal glory and have nobly served their nation in serving mankind. God has indeed been gracious. We have cause for such rejoicing as revives and strengthens in us all the best traditions of our national history. A new day shines about us, in which our hearts take new courage and look forward with new hope to new and greater duties.

While we render thanks for these things, let us not forget to seek the Divine guidance in the performance of those duties, and Divine mercy and forgiveness for all errors of act or purpose, and pray that in all that we do we shall strengthen the ties of friendship and mutual respect upon which we must assist to build the new structure of peace and good will among the nations.

Wherefore, I, Woodrow Wilson, President of the United States of America, do hereby designate Thursday, the twenty-eighth day of November next as a day of thanksgiving and prayer, and invite the people throughout the land to cease upon that day from their ordinary occupations and in their several homes and places of worship to render thanks to God, the ruler of nations.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia this sixteenth day of November in the year of our Lord one thousand nine hundred and eighteen and of the independence of the United States of America the one hundred and forty-third.

WOODROW WILSON.

By the President:
ROBERT LANSING,
Secretary of State.

SECRETARY BAKER ISSUES GENERAL ORDER TO ARMY CALLING ON MEN IN U. S. TO CONTINUE DISCIPLINE

“ARMISTICE IS NOT FORMAL END OF WAR”

Necessary to Keep Substantial Army Until Certain What Military Needs Will Be—Demobilization to Be as Rapid as Is Consistent. Those Not Permitted to Go Abroad Equally Entitled to Nation's Thanks.

The following general order has been issued to the Army:

The signing of the military armistice enables us to suspend the intensive military preparation in which the country was engaged. It does not, however, signify the formal end of the war and it will, therefore, be necessary for us to keep under arms a substantial army until we are certain just what the military needs of the country will be. The men in service in the United States will be demobilized as rapidly as is consistent with the needs of the Government and the War Department is working with the other agencies of the Government toward a rapid reestablishment of normal business conditions and the restoration of the soldiers to their homes and occupations. In the meantime, I desire to express to the officers and soldiers under arms in the United States the appreciation of the department for their patriotic zeal and service. That they were not called upon to go abroad and not permitted to participate in the historic struggle in France leaves them none the less a part of the great Army of our Nation and entitled to the thanks of the Nation for their readiness to serve. All officers and men can rely upon the sympathy and activity of the department in their early return home. Both officers and men will realize that it is their duty to continue with the training and work, and to maintain in the highest degree the discipline and soldierly bearing which is the great glory of the Army, of which they are a part.

NEWTON D. BAKER,
Secretary of War.

(3874, A. G. O.)

By order of the Secretary of War:

PEYTON C. MARCH,
General, Chief of Staff.

May Use Gold and Silver For Industrial Purposes

E. H. Baruch, chairman of the War Industries Board, authorizes the following:

The War Industries Board announces that the restriction heretofore imposed on the domestic uses of gold and silver for industrial purposes has been terminated.

All Censorships Have Not Been Discontinued

With reference to erroneous statements which have appeared in various newspapers, giving the impression that all censorships have ceased, the Censorship Board announces that as a matter of fact only the press censorships have been discontinued. Other censorships remain in force.

AMERICAN RAILWAY EXPRESS COMPANY PLACED UNDER CONTROL OF DIRECTOR GENERAL OF RAILROADS BY PRESIDENT

IS EFFECTIVE TO-DAY

Proclamation Issued Saturday Taking Over Express System — Officers and Employees to Continue Operation of It Until Mr. McAdoo May Otherwise Provide.

The President on Saturday signed a proclamation taking under Federal control the American Railway Express Co. and placing it under the jurisdiction of Director General McAdoo. The proclamation became effective at noon to-day, Monday, November 18. It is as follows:

BY THE PRESIDENT OF THE UNITED STATES
OF AMERICA.

A Proclamation.

POSSESSION AND CONTROL OF A CERTAIN
TRANSPORTATION SYSTEM.

Whereas the organizations for the conduct of the express business over numerous systems of transportation which have been duly placed under Federal control, and pertaining to such systems of transportation, have been consolidated into the American Railway Express Co., which has been made the sole agent of the Government for conducting the express business, with the result that the entire transportation system of said express company has been necessarily in substance and effect placed under Federal control, and

Whereas it is desirable, in order to administer to the best advantage the transportation business and operations of the American Railway Express System to make it specifically clear by this proclamation that the President has the possession, use, control, and operation of the entire transportation system of the American Railway Express Co.

Now, therefore, I, Woodrow Wilson, President of the United States, under and by virtue of the powers vested in me by law, do hereby, through Newton D. Baker, Secretary of War, take possession and assume control at 12 o'clock noon on the 18th day of November, 1918, of that certain system of transportation called the American Railway Express Co. and all of its appurtenances and property of every kind or nature, directly or indirectly, owned, leased, chartered, controlled, or used in the conduct of, or in connection with, its express business.

It is hereby further directed that the possession, control, operation, and utilization of said express transportation system hereby by me undertaken shall be exercised by and through William G. McAdoo, heretofore appointed Director General of Railroads, with all the powers conferred upon him by the said proclamations of December 26, 1917, and March 29, 1918, respectively, together with all

and singular the powers conferred upon the President by the act of Congress entitled, "An act to provide for the operation of transportation systems while under Federal control, for the just compensation of their owners, and for other purposes," approved March 21, 1918.

The said Director General of Railroads may perform the duties hereby imposed upon him, so long and to such an extent as he shall determine, through the board of directors, officers, and employees of the said American Railway Express Co., under the contract already made, and dated the 26th day of June, 1918, between the said Director General of Railroads and said American Railway Express Co., and until and except so far as said Director General shall from time to time by general or special orders otherwise provide, the board of directors, officers, and employees of said company shall continue the operation thereof in the usual and ordinary course under such contract.

From and after 12 o'clock noon on said 18th November, 1918, the said transportation system shall conclusively be deemed within the possession and control of said Director General without further act or notice.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done by the President, through Newton D. Baker, Secretary of War, in the District of Columbia, this 16th day of November, in the year of our Lord, 1918, and of the independence of the United States the 142d.

WOODROW WILSON.

STOPS DRAFT CLASSIFICATION AND PHYSICAL EXAMINATION

Definite direction was given Saturday, November 16, from the office of Provost Marshal Gen. Crowder to all State headquarters for the immediate cessation of all physical examination of draft registrants. At the same time all State headquarters were informed that district boards will discontinue all work of classification and of appeals at once.

The district boards will at once proceed to complete all their records, in so far as the records are now deficient as to men already classified by the district boards or whose appeals have been heard and determined are concerned. Warning is issued that the utmost care be used in protecting and preserving all records of district boards which are to await further orders regarding the ultimate custody and accounting for these records. Records belonging permanently in the files of local boards are to be immediately returned to the proper local board.

While the direction to discontinue physical examinations is issued, at the same time direction for earliest possible completion of occupational and dependency classification of the 19 to 36 and 18-year old groups is reiterated in the order from Gen. Crowder.

U. S. TO PRESENT GERMAN PLEA CONCERNING TURKEY'S STATUS TO THE SUPREME WAR COUNCIL

MESSAGE THROUGH SWITZERLAND

*Berlin Advised to Cease Addressing
President or U. S. Government
Alone — Also to Communicate
Through Established Diplomatic
Channels.*

The Secretary of State makes public the following:

DEPARTMENT OF STATE,
November 15, 1918.

SIR: I should be gratified if you would be good enough to convey the following communication to the Secretary of Foreign Affairs of the German Government:

"The Government of the United States has received the radio messages addressed to the President of the United States by the German Government, relative to relief from certain requirements imposed in the armistice with the Ottoman Government and the armistice with the German Government.

"The communications which have been received will be forthwith communicated to the other Governments with which the Government of the United States is associated and also to the Supreme War Council in Paris.

"The Government of the United States takes this opportunity to suggest to the German Government that communications of this nature, which pertain to the terms of the armistice or to matters in which all the Associated Governments are interested, should be sent to all the Governments and not addressed alone to the President or Government of the United States.

"The Government of the United States also desires to call the attention of the German Government to the fact that these communications should be presented through established diplomatic channels rather than by direct radio communication."

Accept, sir, the renewed assurances of my highest consideration.

ROBERT LANSING.

MR. HANS SULZER,
Minister of Switzerland,
In charge of German Interests in the
United States.

REMOVES DUTY ON POTATOES.

Consul General Foster, Ottawa, telegraphs that the import duty on potatoes, both fresh and dried, desiccated, or otherwise prepared has been removed. This order in council gives to Canadian importers the benefit of paragraph 581 of the United States Customs Tariff Act which provides that these products shall be admitted free from duty when imported from a country that places no import duty upon like commodities coming from the United States. There was some discussion of granting this concession to potatoes and potato products when the duty was removed for wheat, flour, and semolina in April, 1917.

DIRECTOR GENERAL M'ADOO ANNOUNCES WAGE INCREASE FOR TELEGRAPH OPERATORS ON ALL FEDERAL RAILROADS

**AFFECTS MORE THAN
60,000 EMPLOYEES**

Agent Telephoners, Towermen, and Levermen Included in Award Granting Minimum of 48 Cents Per Hour — Eight Hours to Constitute a Day's Work, With Time and One-Half For Extra Duty—Increase For Nontelegrapher Agents Under Consideration.

The United States Railroad Administration issues the following:

WASHINGTON, November 16, 1918.

Director General McAdoo to-day announced his award, effective October 1, 1918, with respect to telegraphers, telephone operators, excepting switchboard operators, agent-telegraphers, agent-telephoners, towermen, lever men, tower and train directors, block operators, and staffmen. The award affects between sixty and seventy thousand railroad employees, and involves increases approximating \$30,000,000 per annum.

Method of Fixing Rates.

All rates of wages paid as of January 1, 1918, prior to the application of General Order No. 27, and exclusive of all compensation for extra services, are first reduced to an hourly basis, which is arrived at in case of monthly paid employees by dividing the annual compensation by the number of regularly assigned working days for the year 1918, and then dividing the daily rate thus obtained by the regularly assigned or established number of hours constituting a day's work, exclusive of the meal hour. The hourly rate for weekly and daily paid employees is arrived at similarly.

Rates thus obtained, where less, are first advanced to a basic minimum of 35 cents per hour, and to this basic minimum and to hourly rates which are above the minimum 13 cents per hour is added.

Eight Hours a Day's Work.

Eight consecutive hours, exclusive of the meal hour, constitutes a day's work, and overtime will be paid at the rate of time and one-half. There has been no consistent practice on the several railroads with respect to this item. On the majority of railroads there has been in effect, however, varying rates for overtime, some of which were less, and in instances more, than the time and one-half rate.

The award does not apply to cases where individuals are paid \$30 per month

"CANNOT INTIMIDATE THE U. S." M'ADOO ANSWERS STRIKE THREAT

Director General of Railroads McAdoo to-day made public the following correspondence:

"St. Louis, Mo., Nov. 16.

"W. G. McADOO,

"Director General of Railroads,
Washington, D. C.

"The telegraphers, train dispatchers, train directors, and levermen employed on the Terminal Railroad Association of St. Louis and affiliated lines will cease work 7 o'clock Monday morning, November 18, unless award has been made by you on wage and working condition, case which you have been considering for several weeks.

"J. F. SIEBERT,
General Chairman."

WASHINGTON, D. C., Nov. 16, 1918.

"J. F. SIEBERT,

"General Chairman, Terminal Railroad Association of St. Louis, St. Louis, Mo.:

"Your telegram 16th threatening a strike at St. Louis unless my decision as to the wages of telegraphers is rendered before Monday morning, November 18, at 7 o'clock, received. It so happens that the order recommended by the board of railroad wages and working conditions was signed by me before receipt of your telegram. If the decision had not thus been made before your threat of a strike was received the order would have been withheld until this threat had been eliminated. You must understand that the United States Government can not be intimidated and that it is highly improper to attempt to do so.

"W. G. McADOO."

\$7,000,000 to the Czecho-Slovaks Among Credits Extended on Saturday

The Treasury Department on Saturday extended credits as follows: Szecho-Slovak National Council, \$7,000,000; Belgium, \$9,000,000, making a total of \$192,520,000; Great Britain, \$200,000,000, making total of \$3,945,000,000; Italy, \$50,000,000, making total of \$1,210,000,000; grand total to all cobelligerents of the United States to date, \$8,178,976,666.

or less for special service which only takes a portion of their time from outside employment or business, and in the case of employees who are paid upon a commission basis or upon a combination of salary and commission, not including express or outside commissions, the Board of Railroad Wages and Working Conditions are instructed to make individual recommendations when properly presented.

Appeal for Individual Grievances.

Appeal is provided for in case of individual grievance.

The Director General has for consideration, and will announce some time next week, an award covering compensation for exclusive agents who are not telegraphers.

PLANS BEING FORMULATED FOR RELIEVING STUDENTS FROM FURTHER SERVICE IN THE ARMY TRAINING CORPS

**DESIRE TO RESTORE
COLLEGES TO NORMAL**

Secretary Baker, in Press Interview, Outlines Demobilization Methods Under Consideration — Limited Service Men and the Regular Army — Abandonment of Canvas Camps. Probable Use for Cantonnments — Casualty Lists Not Being Held Back.

Press interview, the Secretary of War, November 16, 1918:

A study of the Students' Army Training Corps is being made by Dr. Mann and Dean Snyder, who are the principal representatives here, with the thought in mind that members of the corps who have left businesses to which they desire to return or who desire to switch over into a regular academic course or who have any other reason personal to themselves for desiring to leave the corps, will be permitted to leave. We are trying to do this in a way that will enable the colleges to go back as rapidly as they can to their normal academic pursuits, so that whenever a college has a sufficient student body to enable it to reestablish a regular academic course we will relieve it from its obligations in the Students' Army Training Corps, and wherever a college has so far turned its facilities over to us so that it is without other bodies of students and no resources we will continue the work with it for the present so as to enable it to turn back to its academic course.

Publication of Casualties.

The War Department has been accused of holding back casualties. We have never held back one, and the War Department is not now holding back casualties. We instructed Gen. Pershing to send in every casualty instantly, and they are coming as fast as cables will hold them. There are 800 clerks in the Adjutant General's office now—we started out with 100—who are tallying and preparing and dealing with the casualty lists as fast as they can.

Limited Service Men.

There is no general policy—United States guards are to be demobilized early—very largely limited service men, but there are others who have been inducted for special duties of one kind or another whose services will be required. These limited service men will be held as long as needed. Will be discharged automatically by classes.

APPOINTMENT OF ENLISTED MEN TO STAFF CORPS SUSPENDED

War Department Circular Says No More Applications Will Be Considered.

The War Department has issued the following:

Circular No. 70.

WAR DEPARTMENT,
Washington, November 15, 1918.

RESCISSON OF CIRCULAR No. 34—APPLICATIONS OF ENLISTED MEN FOR COMMISSIONS IN STAFF CORPS.

Circular No. 34, War Department, 1918, relating to applications of enlisted men for commissions in Staff Corps, is rescinded. No further applications will be forwarded under the provisions of that circular.

All enlisted men who have submitted such applications will be informed by their commanding officers that no further appointments will be made and that no action will be taken on their applications, all appointments having been suspended. (210.1 A. G. O.)

By order of the Secretary of War:
PEYTON C. MARCH,
General, Chief of Staff.

Official:

P. C. HARRIS,
The Adjutant General.

WAR TRADE BOARD RESCINDS DECK CARGO RESTRICTIONS

The War Trade Board announces, in a new ruling (W. T. B. R. 327), that they have rescinded War Trade Board Ruling 220, issued on September 10, 1918, with respect to certain restrictions on deck cargoes on unarmed vessels proceeding without convoy from Atlantic and Gulf ports, and certain classes of cargo carried by sailing vessels.

The restrictions heretofore imposed upon certain classes of cargo carried by auxiliary motor vessels have also been rescinded.

Influenza Deaths in America Far Outnumber War's Casualties Among U. S. Troops Abroad

The Bureau of the Census, Department of Commerce, issues the following:

The influenza epidemic has thus far taken a much heavier toll of American life than has the great war. The total loss of life throughout the country is not known, but the Bureau of the Census has been publishing, for 46 large cities having a combined population estimated at 23,000,000, weekly reports showing the mortality from influenza and pneumonia. These reports, which cover the period from September 8 to November 9, inclusive, show a total of 82,306 deaths from these causes. It is estimated that during a similar period of time the normal number of deaths due to influenza and pneumonia in the same cities would be about 4,000, leaving approximately 78,000 as the number properly chargeable to the epidemic.

Estimate of War Losses.

The total casualties in the American Expeditionary Forces have recently been unofficially estimated at 100,000. On the basis of the number thus far reported, it may be assumed that the deaths from all causes, including disease and accidents, are probably less than 45 per cent and may not be more than 40 per cent of the total casualties. On this assumption, the loss of life in the American Expeditionary Forces to date is about 40,000 or 45,000.

Thus, in 46 American cities having a combined population of only a little more than one-fifth the total for the country, the mortality resulting from the influenza epidemic during the nine-weeks' period ended November 9, was nearly double that in the American Expeditionary

Forces from the time the first contingent landed in France until the cessation of hostilities.

Height of Epidemic.

For the 46 cities taken as a group, the epidemic reached its height during the two weeks ended October 26, for which period 40,782 deaths were reported—19,938 for the week ended October 19 and 20,844 for the following week. Since October 26, however, the decline has been pronounced. During the week ended November 2, 14,857 deaths occurred, and during the following week only 7,793. The only city in which the number of deaths reported for the week ended November 9 exceeded the number occurring during the previous week was Spokane, Wash.

In general, the epidemic traversed the country from east to west. In a number of eastern cities—notably Boston, where the greatest mortality occurred during the week ended October 5—the largest numbers of deaths were reported for earlier periods than that which covered the height of the epidemic for the 46 cities taken as a group. On the other hand, in New Haven, New York, Pittsburgh, and Rochester the maximum mortality occurred somewhat later than in eastern cities generally. In Baltimore, Buffalo, and Philadelphia the two-weeks' period ended October 26 showed the greatest number of deaths. For the entire nine-weeks' period, the greatest mortality due to the epidemic, in proportion to population—7.4 per one thousand—occurred in Philadelphia; and the next greatest—6.7 per 1,000—was reported for Baltimore.

STANDARD TOBACCO HOGSHEADS TO INCREASE CAPACITY OF CARS

The United States railroad administration announces the following:

In order to permit the full utilization of equipment in the shipment of tobacco, a plan for the adoption of a so-called "standard hogshead" which will allow double tiering in freight cars used for this purpose is being worked out by Director General McAdoo in conjunction with the War Industries Board.

Under the proposed arrangement instead of requiring 50,000 cars to move 1,000,000,000 pounds of tobacco, probably the same amount can be transported in 32,000 cars by use of the "standard containers."

Under the present system tobacco to be used in the manufacture of cigarettes, chewing and smoking tobacco, moves in hogsheads 48 by 52 inches, 48 by 56 inches, or 48 by 60 inches, which does not permit of full utilization of equipment. An effort is now being made to have adopted a standard hogshead 46 by 48 inches.

Better than money because they earn money; buy a WAR-SAVINGS STAMP TO-DAY.

MAXIMUM PRICES ARE FIXED ON "STEAM SIZES" OF COAL

Prices of the so-called "steam sizes" of anthracite coal will not be allowed to rise to the level of domestic sizes of anthracite, under an order issued by the United States Fuel Administration. The order, which was made effective at once, specifically fixes the maximum prices of No. 1 buckwheat and other sizes of anthracite coal smaller than "pea." It provides that the maximum price for these grades shall not be in excess of the maximum for "pea" coal, less 50 cents, a gross ton of 2,240 pounds.

Text of the Order.

The order states:

"On and after the effective date of this order the maximum prices for the different sizes of anthracite coal below and smaller than the size commonly known as 'pea' size, f. o. b. mines, shall not be in excess of the maximum prices established and in force on the effective date of this order, by Executive orders of the President and orders of the United States Fuel Administrator for that size of anthracite coal commonly known as 'pea' size, less 50 cents per gross ton of 2,240 pounds."

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

At its session Saturday the Finance Committee formally accepted the recommendation of Secretary McAdoo that the total of the pending war-revenue bill be reduced to not to exceed \$6,000,000,000, instead of the \$8,000,000,000 as the measure passed the House. Experts of the department were requested to make estimates of prospective revenue to be derived from schedules that already have been modified and as soon as these figures are available the committee will proceed with the remainder of the bill. It was stated by members of the committee that probably many, if not all, of the so-called luxury taxes would be eliminated.

Saturday the committee tentatively reversed its previous decision to include individuals and copartnerships in the same class as corporations under the excess profits schedule. The new plan is to make the excess profits tax apply to copartnerships, but not to individuals. The committee did not consider at Saturday's session the secretary's recommendations to have the pending bill establish the policy for the taxes of 1920 or to eliminate the excess profits taxes after 1919 and raise the individual income rates.

The subcommittee of the judiciary committee of which Senator Overman is chairman, held a brief session Saturday afternoon and began consideration of the bill introduced by the North Carolina Senator for the creation and establishment of a Federal Commission on Reconstruction. Another meeting will be held early this week to consider this measure. The Overman bill provides for the creation of a commission to consist of five commissioners to be appointed by the President, with the approval of the Senate, not more than three of whom shall be members of the same political party. It is made the duty of this commission to examine into the problems and conditions arising out of the war and that may arise out of the transition of the economic industrial and social life of the Nation from a state of war to a state of peace; and with a view of meeting, so far as possible, such problems and conditions before their solution is actually forced upon the Government, the commission to report to Congress from time to time the results of such investigations with recommendations for new and additional legislation.

Republican leaders have submitted a counter proposal to that of Senator Overman, through the select committee of three appointed by a Republican conference some weeks ago. The main feature of the Republican plan is to keep control in Congress of all reconstruction problems and have several joint Congressional committees that would be created, deal with the whole subject. There would be six of these joint Congressional committees under the Republican plan, each to be composed of five Senators and five members of the House, each assigned to a specific line of work in drafting reconstruction legislation and in studying problems growing out of the war.

HOUSE.

The naval estimates for 1920 were submitted to the Naval Committee by Secre-

tary Daniels Saturday afternoon. They call for a total of \$2,441,900,000. As they were prepared with a view to the continuance of the war this great total will be materially reduced by the committee with the approval of the Navy Department. Consideration of the estimates will be begun in committee to-morrow. The estimates provide for the new three-year building program of 156 vessels. This will include 10 superdreadnoughts, 6 battle cruisers, and 140 smaller craft. An item of \$233,985,000 for completing the first three-year program is included. The total expenditures under the building program is estimated at \$600,000,000, to be appropriated one-third annually. The cost of the Marine Corps is estimated at \$155,286,900, being \$12,000,000 over the appropriations for this purpose under the existing law. Among the more important items are the following: Pay of the Navy, \$579,946,071; aviation, \$225,000,000; ammunition, \$125,000,000; new ship batteries, \$115,000,000; fuel, \$98,000,000; repair of vessels, \$75,000,000; ordnance and ordnance stores, \$75,000,000; reserve ordnance supplies, \$77,600,000; medical department, \$15,200,000. Improvements in important yards and stations estimated for include: Buying and developing land at the New York Yard, \$2,500,000; completing dry dock, building new shop and power plant at the Philadelphia Yard, \$5,150,000; improvement of water front, new shops and other works at Norfolk, Va., \$3,300,000; improvements at Hampton Roads operating base, \$3,000,000; building waterworks system and submarine base at Key West, \$2,525,000; shops at Mare Island, Cal., \$1,600,000; improvement work at Puget Sound Yard, \$775,000.

TO RELIEVE STUDENT-SOLDIERS

(Continued from page 3.)

Under the Regular Army legislation as it was prior to the emergency legislation of this war, there is authority under the Chamberlain bill to draw together some divisions of the Regular Army and have them as a nucleus to be used as the basis of any subsequent Army that the Congress may authorize.

Camps.

Some of the camps will undoubtedly be abandoned speedily. The first ones to be discontinued will be certain of the canvas camps. The thought will be that we will preserve a large number of camps and cantonments as the place of residence during the demobilization of units returning from abroad, but we will not need them all, and as soon as we determine how many we need we will pick out the most available and accessible and discontinue the less available and accessible.

JOINS INDUSTRY SERVICE.

The United States Department of Labor announces, through Miss Mary Van Kleeck, director of the Woman in Industry Service, the appointment of Mrs. Helen B. Irvin as special assistant of the Woman in Industry Service on economic problems of Negro women wage earners.

DIRECTOR GIFFORD RESIGNS AS DEFENSE COUNCIL HEAD

The Council of National Defense authorizes the following statement:

Walter S. Gifford, Director of the Council of National Defense and of its advisory commission, has resigned to return to the American Telephone & Telegraph Co. as comptroller of that organization, his services having been loaned to the Government throughout the war period. Grosvenor B. Clarkson, secretary of the council and of the advisory commission during the past 21 months, is acting director of both bodies.

In accepting Mr. Gifford's resignation Secretary of War Baker, as chairman of the Council of National Defense, made the following expression:

"MY DEAR MR. GIFFORD: The termination of your activity as director of the council gives me an opportunity to express the grateful appreciation of the council for the energy, loyalty, and the success with which you have acted as the executive officer since the foundation of the council. The work entrusted to us and to you was difficult, urgent, and of great importance; to its successful performance you have contributed at every point, and it will always be a satisfaction to you to know that the members of the council feel that the conversion of America from a country at peace to a country prepared for war and waging war successfully was the work in which you had borne a helpful and considerable part."

Constitution of the Council.

The Council of National Defense now consists of the Field Division, which guides and coordinates the activities of the 48 State councils of defense, the council of defense system now comprehending 184,000 units throughout the State, county, municipal, and community defense organizations; the Highways Transport Committee, which has an extensive regional organization; the Medical Section and General Medical Board, with some 30 subcommittees; the Committee on Labor, headed by Samuel Gompers; the Committee on Engineering and Education; the National Research Council, acting as the department of science and research of the Council of National Defense; the Woman's Committee, of which the chairman is Dr. Anna Howard Shaw; and the Naval Consulting Board, acting as the council's bureau of inventions. The council has also for some time been making a survey and intensive study of the work being done by the Federal and civil agencies with regard to postwar problems.

EXECUTIVE ORDER.

By virtue of the power and authority vested in me by the act of Congress providing further for the national security and defense by encouraging the production, conserving the supply, and controlling the distribution of certain ores, metals, and minerals, approved October 5, 1918, I hereby direct that the Secretary of the Interior shall exercise the powers and authority given under the act to the President, except those relating to duties upon imports.

WOODROW WILSON.

THE WHITE HOUSE,

November 11, 1918.

MUNITIONS DIRECTOR CROWELL DISCUSSES WAR DEPARTMENT'S PLAN TO EASE PRODUCTION

INSTRUCTIONS TO ALL BUREAUS

No Order Being Canceled Without Consideration of Nature of Work, Says Assistant Secretary—Getting Back to Normal by Degrees.

The following statement is issued by Assistant Secretary of War Benedict Crowell as Director of Munitions. Mr. Crowell is specially charged with the industrial aspects of demobilization:

With the signing of the armistice the War Department is faced with an intricate problem and great responsibilities. The industries of the country, which have responded whole-heartedly to the call of the Government for increased production and which were going at a rate never before attained, must be diverted from war-time production to their normal occupations in times of peace.

The First Consideration.

The first and primary consideration in getting back to this normal basis is to make this readjustment with as little inconvenience as possible and with a continuous employment of labor.

It is also essential that the production of material for war, which means now a waste of material which could be used for civilian population both here and for the purposes of reconstruction in Europe, should be stopped as speedily as is consistent with the primary consideration of labor and the industries.

Instructions have therefore been issued to all bureaus of the War Department governing the methods of slowing down of production so that as far as possible there should be a tapering off of war work, giving time for industrial readjustment and for the industry to take up civilian work.

So that manufacturers might as rapidly as possible get into work on civilian needs, at our request the War Industries Board have withdrawn all priority ratings on Army work.

Fullest Consideration Given.

No order is being suspended or canceled by the War Department without consideration of the nature of the work or the locality in which the work is being performed, labor, and the reemployment of labor at such places in other industries, and without conference and consultation with the War Industries Board, which has been constantly in touch with the industries of this country, and with the Department of Labor, which is in intimate touch with the conditions of employment in all parts of the United States.

Overtime, holiday, and Sunday work has been stopped, and as rapidly as possible and as rapidly as the labor can be used in normal day shifts night shifts will be discontinued.

It is often the case that in a certain locality where labor is working on a war project this work may be stopped and the same labor utilized on other work in the same locality.

BOOT AND SHOE CONSERVATION PROGRAM WILL BE CONTINUED; CLASSIFICATION PLAN DROPPED

E. M. Baruch, chairman of the War Industries Board, authorizes the following:

After careful consideration and full discussion with the War Industries Board of new conditions in the boot and shoe industry which have arisen with the signing of the armistice, the war service committee representing the allied boot and shoe industries has suggested:

That conservation restrictions on styles and standards in boots and shoes, as prepared by the War Industries Board in agreement with the industry, should be continued until June 1, next.

That the plan for classification by grade and serial stamping of boots and shoes prepared by the industry and approved by the War Industries Board should be discontinued.

The War Industries Board has accepted these suggestions with the assurance from the industry that the conservation program will prevent waste of materials, labor, and capital; that the removal of classification restrictions will give opportunity for the use of raw materials released from the Government war program, and that the conservation program, with increased production and competition, will adequately serve to regulate price levels, thereby giving the public the same, beneficial results as were sought under the previous plan.

Official U. S. Bulletin Index

An index for the Official U. S. Bulletin for the first six months of 1918 may be had on application to this office at 5 cents per copy. An index for each month is printed in an early issue of the Bulletin after the close of that month.

During the war production has been largely diverted from articles called for in times of peace to war necessities, and civilian needs have been curtailed and nonessentials largely eliminated. With the assistance of the War Industries Board the articles for war necessities are being rapidly curtailed and the industries proportionally freed to work on civilian needs. Industries which have been largely concentrated in certain areas, with resultant congestion of transportation, with a great influx of labor in this area, with inadequate facilities for housing, etc., are being taken into consideration in this readjustment.

The two standards which the War Department has set up for itself are that these contract readjustments must be made equitably in regard to the industry and labor, and promptly to safeguard the financial elements of the problem.

HOLD ON TO WAR INSURANCE, SECRETARY M'ADOO ADVISES ALL SOLDIERS AND SAILORS

GOOD AFTER LEAVING THE SERVICE

Convertible Into One of the Several Forms Usual in Civil Life Insurance After Five Years and Without Medical Examination.

Statement by Secretary McAdoo:-

I desire to remind all America's soldiers and sailors that it is their opportunity and their privilege to keep up their insurance with the United States Government after the war has officially terminated and even after they have returned to civil life.

More than 4,000,000 officers and men of the Army and Navy are now insured with the United States Government through the Bureau of War Risk Insurance of the Treasury Department. The grand total of insurance is more than \$30,000,000,000.

Annual Term Insurance.

In its present form this insurance is annual renewable term insurance at net peace rates, issued against death and total permanent disability. Under the provisions of the war-risk insurance act every person holding this insurance may keep it up in this form even after he leaves the service for a period of five years. All that is necessary is the regular payment of premiums.

Moreover, the law provides that not later than 5 years after the termination of the war as declared by Presidential proclamation, the term insurance shall be converted, without medical examination, into such form or forms of insurance as may be prescribed by regulations and as the insured may request.

Conversion of Form.

In accordance with the provisions of the law, these regulations will provide for the right to convert into ordinary life, 20-payment life, endowment maturing at age 62, and into other usual forms of insurance. This insurance will continue to be Government insurance. The various forms of policies which the Bureau of War Risk Insurance will write are now being prepared.

Every person in the military or naval service owes it to himself and to his family to hold on to Uncle Sam's insurance. It is the strongest, safest, and cheapest life insurance ever written. Just as this insurance relieved our soldiers and sailors of anxiety and misgivings for the welfare of their loved ones and protected them against the hazards of war, so it will continue to protect them through the days of readjustment and reconstruction and in time of peace.

Advantages are Emphasized.

The advantages of keeping this insurance in force can not be emphasized too strongly. The right to continue it is a valuable right given by the Government to our fighting part of the men as compensation for their services. If this right is lost by allowing insurance to lapse

(Continued on page 8.)

Plan of Adjustment with Casualty Companies Is Announced By War Department on Premium Rates on Cantonment Risks

The War Department authorizes the following:

At the beginning of the war a sharp difference of opinion developed between the department and the casualty insurance companies as to the proper rates for premiums on the extensive cantonment construction work which the department was undertaking, and the department paid the rates fixed with a statement that in the event that experience proved the correctness of its views it would ask for an adjustment.

Recently a number of stock casualty companies have voluntarily formulated a plan in conference with the department for such an adjustment by which the cost to the Government of its casualty insurance shall be based upon experience. This plan has been adopted by the department and is open for acceptance by all companies. The plan is as follows:

Purpose.

1. It is the purpose of the plan to provide that the amount of premiums earned by any company (referred to herein as the adjusted premium) shall be dependent upon that company's claim experience, and shall be determined only after the completion of the war period construction work—the payment of initial premiums (as hereinafter defined) notwithstanding.

Scope of Plan.

2. The plan shall include all premiums on policies of workmen's compensation and/or employers' liability insurance on war period construction work for the War Department undertaken upon the basis commonly known as "Cost plus percentage or fee."

Plan.

3. The rates upon which the initial premiums shall be determined, subject to the final adjustment, shall be those rates as now or hereafter established for the War Department or the basic manual rates applicable to the given hazard. These rates shall not be increased on business of the War Department, except either with the authorization of the proper State authorities where such are constituted, or with the approval of the Secretary of War.

4. An accounting shall be made by each company during the month of November of each year. The risks to be embraced in the first accounting shall be those actually insured and expired prior to May 1, 1918. The risks to be embraced in each succeeding accounting shall be those actually insured and expired during the year ending May 1 immediately preceding the accounting. The accounting shall be in such form as may be mutually agreed upon, and shall be based on the following data:

(a) Sworn copy of payroll audit statement of the company showing total payroll expenditure for the term of insurance and premium derived at the rate expressed in the policy.

(b) Sworn statement of amounts paid for claims which have been fully liquidated.

(c) Sworn statement of amounts paid and amounts due to be paid for claims which are not liquidated at time of state-

ment. This statement to show specific amounts for each claimant. The reserves for unliquidated claims at the time of each accounting shall be made by the respective companies; in case of disagreement between any company and the War Department as to the amount of reserves necessary at the time of the final accounting, the matter shall be submitted to a committee consisting of a representative of the company concerned, an official to be designated by the War Department, and a representative of the State Insurance Department having jurisdiction over the territory in which the head office of the company is located.

5. For the purpose of obtaining uniformity the allowance for the expenses of the companies, other than claim payments and reserves for unpaid claims, shall be established at the following percentages:

Fixed Charges.	
	Per cent of initial premium.
Safety inspection and accident prevention	4
Claims administration	7
Taxes (other than Federal taxes)	2
Normal profit	1 1/2
Total	14 1/2

Expenses.	
	Per cent of adjusted premium.
Field service charge	7 1/2
Home office administration	7 1/2
Total	15

But in calculating the allowance for expenses of field service and home office administration it shall be assumed that the total claim cost of each company is not less than 25 per cent of the initial premium.

Contingent Profit.

6. In addition to the normal profit of 1 1/2 per cent provided in paragraph 5, each company shall be entitled to earn a contingent profit which shall be dependent upon the loss ratio developed under that company's policies—a low loss cost (involving a proportionately large return of unexhausted premium to the War Department) carrying the higher rate of contingent profit. Such contingent profit shall not in any case exceed 3 1/2 per cent of the initial premium. A loss of 25 per cent or less of the initial premium shall entitle the company to the maximum rate (3 1/2 per cent) of contingent profit, but no contingent profit shall accrue if the loss cost reaches 70 1/2 per cent of the initial premium. Between those two extremes of loss cost, 25 per cent and 70 1/2 per cent, the rate of contingent profit shall vary proportionately from 3 1/2 per cent to zero.

Federal Taxes.

7. No provision for any Federal taxes is included in the allowance for expenses detailed above, and the companies shall be entitled to charge in the accounting all Federal taxes of any kind paid or payable on the business covered by this plan, except any income or profits tax levied upon any net profit that may be derived from this business and retained by the companies.

8. In the application of the plan to all risks insured prior to the date of the ac-

ceptance of this plan, there shall be deducted and retained by the companies from the initial premiums on such risks an amount to represent the difference between the actual commissions for field service charges paid by the companies and the allowance therefor provided by the plan.

Unexhausted Premium Fund.

9. If the first accounting by any company shall show that there remains an unexhausted balance of initial premium after providing for the claims paid and outstanding, the allowances for fixed charges, expenses and profits herein established, and the Federal taxes above referred to, such company will immediately transfer such balance to a separate fund—to be known as the unexhausted premium fund—and deposit the same in a bank or trust company approved by the War Department, and hold the same on account of any insufficiency of claim reserves in such accounting and any net losses which may be disclosed by subsequent accountings. The interest earned on such fund shall be added to the fund. All the funds deposited in such account shall be held by the company for the specific purposes of this plan.

In the event that any State insurance department should demand that the company should carry a reserve in respect to any part of the unexhausted premium fund, the company shall be entitled to withdraw from such fund the amount of such reserve and shall return the same to the fund when such reserve is no longer required.

If such reserve, or any part thereof, is not released until after the final accounting provided for herein, such reserve shall upon its release be returned to the Government.

At the second and later accountings, a similar transfer shall be made of any unexhausted balance disclosed thereby, and at the final accounting which shall be not later than 1 year after the completion of the war period construction work included in this plan, a final and complete adjustment shall be made by each company, covering all its transactions under this plan over the entire period of war construction work.

At each accounting, the fund shall be available to the company to the extent necessary to offset the debt balances of any years in which the initial premiums may prove to have been insufficient to meet the total cost of those years, it being the intention of the parties to this plan that all accountings other than the final accounting shall be tentative, and that all the transactions with any one company shall be eventually regarded as a whole and adjusted equitably in the final accounting.

Return of Unexhausted Premium.

10. Any balance of unexhausted premium disclosed by such final accounting shall be returned to the Government.

Net Loss to Be Borne by Company.

11. If a net loss is developed on the entire series of policies issued throughout

(Continued on page 8)

Outlines Steps Taken by U. S. Section Of the International High Commission To Provide Ships for Latin America

Secretary McAdoo, as chairman of the United States section of the International High Commission, stated to-day:

In accordance with a resolution of the United States section of the International High Commission, I have taken up with the Shipping Board the question of providing adequate transportation facilities between Latin America and the United States.

Personally Examined Situation.

The shipping situation, acute in increasing measure since the outbreak of the European war, was a subject of predominant interest at the meeting of the Pan-American Financial Conference in May, 1915. I had an opportunity on my visit to Buenos Aires in the spring of 1916 personally to examine and appraise the gravity of the situation. The countries of South America stood in dire need of certain commodities and could not secure them from any country other than the United States. In many instances long delay in delivery occurred because of inadequate shipping facilities.

On every occasion, the official and commercial interests of Latin America have emphasized the urgent necessity of better transportation facilities with the United States as a basis for closer commercial and financial relations.

Suggestions to Shipping Board.

The United States Section of the International High Commission has ventured to make to the Shipping Board a number of suggestions, some general and some specific, relating to the further prosecution of its constructive plans, as well as to the disposition of ships now in its control during their further operation by the board and otherwise. These suggestions include the immediate availability of ships for both the east and west coast of South America and the careful planning of freight allocation so as to avoid empty cargo space on southbound trips. It will furthermore be necessary to develop a broad policy to meet the requirements of different industries and sections of both North and South America, in order that no undue hardship may be placed on any given industry or on any one section. Improvement of service for the West Indies and the avoidance of confusion and crowding of schedules by a careful adjustment of calling dates are also matters which have been submitted for the consideration of the Shipping Board.

Desire of Every Agency to Help.

On July 19, 1915, I addressed a communication to the delegates assembled at the First Pan American Financial Conference, emphasizing the necessity of united effort to provide adequately for the needs of their commerce and to enable them to avail themselves of the markets of the United States. Much has intervened since 1915 to delay and in many respects to make more difficult the fulfillment of the task, but there is, however, a strong desire on the part of every agency of this Government to contribute, within

the measure of its power, toward giving to our Latin American commerce the most adequate facilities.

Text of the Resolution.

The resolution adopted at the recent meeting of the United States Section of the International High Commission reads as follows:

The United States Section of the International High Commission, considering the vital importance of transportation by sea in the relations between the United States and the countries of Central and South America, resolves:

I. That the United States Shipping Board be requested to permit vessels now engaged in the transportation of persons and goods between the United States and those countries to continue in such employment, except so far as the emergencies of war may render their diversion therefrom a public necessity.

II. That the board be urgently requested to provide in its shipbuilding program for meeting the demands for transportation in the future development of the commercial, financial, and social intercourse between the United States and the other American countries.

PLAN OF ADJUSTMENT WITH CASUALTY COMPANIES

(Continued from page 7.)

the entire period by any company, such loss shall be borne by the company concerned without reimbursement by the Government.

12. This plan is limited in its application to the War Department, but if the same plan shall be adopted by other governmental departments, it shall be understood that each company shall in its final accounting combine the unexhausted premium funds of all subscribing governmental departments and make such refund, if any, as shall be determined by its experience of all such departments combined.

Definitions.

13. The term "Initial premium" shall mean the premium arrived at by the application of the rates specified in the policy contracts.

14. The terms "Adjusted premium" shall mean the sum of the claim payments, the estimates for outstanding claims, the allowance for fixed charges, Federal taxes, and the allowances for expense and contingent profit.

15. The term "Claims" shall mean all payments made or to be made for compensation or damages, all medical and surgical aid expenses, and legal and other expenses definitely allocated to specific accidents.

Safety Inspection and Accident Prevention.

The allowance for this item is fixed with the intention of providing funds for effective accident prevention service, and it is expected that subscribing companies will use the allowance for this purpose.

NEW RULING ON SHIPMENTS OF RAW COTTON TO SPAIN

The War Trade Board announces in a new ruling (W. T. B. R. 319) that the representative of the board in Spain will confer with, and obtain from, the appropriate Spanish officials and committees a statement of the quantity of raw cotton which each spinner or consumer in Spain is to receive of the 105,000 bales to be licensed by the United States for the three months commencing September 1, 1918, and during each three months' period thereafter.

The War Trade Board representative in Spain will thereupon write a serially numbered letter to each spinner or consumer, stating that the United States is prepared to grant licenses to exporters in the United States, acceptable to the War Trade Board, for the exportation from the United States of a given quantity of raw cotton to be used by the person named in such letter.

The spinner or consumer whose imports have been determined and certified to in the above manner may purchase the cotton either directly from the exporter in the United States or through the importing merchant in Spain. In either case, the serial number of the letter and the name of the spinner or consumer shall be furnished to the exporter in the United States, with whom the contract is made for the sale of the cotton, and such number and name must appear on the application for export license.

Such exporters in the United States may apply for export licenses on Form X. No supplementary sheet is required. The applicant must indorse on such application a statement to the effect that the applicant has entered into a contract for the sale to such spinner or consumer of the quantity of cotton specified in the application, and he must furnish the serial number of the letter issued by the War Trade Board representative in Spain.

Attention is directed to War Trade Board Ruling No. 265, and exporters are requested to make their applications conform thereto.

HOLD ON TO WAR INSURANCE

(Continued from page 6.)

it can never be regained. When Government insurance is allowed to lapse the holder can not again obtain insurance except from private companies at a considerable increase in cost. Moreover, many of the men may have become uninsurable as a result of the war through physical impairment, and if these allow their insurance to lapse they will lose the last opportunity for their families to have the protection of life insurance.

The economic value of life insurance to society is so well recognized as to need no argument. The Government now has in force upon the lives of 4,000,000 American citizens who have fought its battles a life insurance group larger than all others combined. Therefore, it is manifestly of the highest importance, not only to the fighting men and their dependents but to all the people, that the largest possible percentage of this insurance shall be continued in force after its holders shall be returned to civil life.

LIST OF CASUALTIES REPORTED AMONG THE UNITED STATES FORCES OVERSEAS

NOVEMBER 17, 1918.

The following casualties are reported by the commanding general of the American Expeditionary Forces:

Killed in action	277
Died of wounds	169
Died of accident and other causes	13
Died of airplane accident	2
Died of disease	47
Wounded severely	98
Wounded (degree undetermined)	210
Wounded slightly	18
Missing in action	151
Total	985

Killed in Action.

LIEUTENANT COLONEL.

WILLIAMS, Allen Reed. Reed S. Williams, 450 Main Street, Amesbury, Mass.

CAPTAINS.

CHRISTENSEN, Parley B. Mrs. Parley B. Christensen, Ephraim, Utah.

WADE, John D. Mrs. Louisa G. R. Wade, R. F. D. 4, Gaithersburg, Md.

Early Copy of Government Contracts Desired

Purchasing Agents of all Government departments are requested to continue sending to this office at the earliest possible moment all lists of contract purchases, bids, proposals, etc., intended for publication in the OFFICIAL U. S. BULLETIN. It is necessary that this copy be handled promptly in order to insure publication in its proper place and sequence, and this can only be accomplished through the earnest cooperation of all those who are charged with responsibility.
