ORDER ON WEARING OF UNIFORM BY SOLDIERS AFTER DISCHARGE

Enlisted Man Can Wear It Home But Must Return It within Four Months.

The War Department publishes the following circular:

WAR DEPARTMENT,
Washington, January 25, 1919.

Circular No. 43.

WEARING OF UNIFORM BY DISCHARGED SOLDIER.

Present law authorizes a discharged officer or soldier to wear his uniform from the place of discharge to his home, within three months of the date of his discharge from the service. Thereafter the officer may wear his uniform only upon occasions of ceremony.

The enlisted man must return his uniform within four months of date of discharge; but can wear it only as stated above.

An act is now before Congress, which if passed, will authorize enlisted men to keep the uniform which they are permitted to wear home, and to wear that particular uniform only, provided some distinctive mark or insignia, to be issued by the War Department, shall be worn.

It will thus be clearly seen that neither under existing or proposed law will a discharged soldier be permitted to wear uniforms made by civilian or other tailors. They may legally wear only the particular uniform which they have been permitted to retain.

Commanding officers of camps, posts, and stations will give the widest publicity to this information, both among the soldiers of their commands and in the local press. No person will be permitted to solicit orders for, or deliver uniforms to soldiers about to be discharged. Persons or concerns persisting in selling uniforms to such soldiers, after having been warned not to do so, will not be permitted to come on or do business on the reservation.

By Orler of THE SECRETARY OF WAR:
PEYTON C. MARCH,
General, Chief of Staff.

Official:
P. C. HARRIS, *The Adjutant General.*

DANISH AMBASSADOR TO GERMANY.

A dispatch to the State Department from Copenhagen, Denmark, states that Baron Konstantin Von Neurath has been selected as the new Danish Minister to Germany. Baron Neurath was formerly vice consul at London and at the outbreak of the World War was counselor of the Embassy at Constantinople. The Politiken, however, states that due to formalities and because the German Republic has as yet not been recognized by Denmark, the appointment will not take place immediately.

Rifle Strength of Allied And German Armies From April 1 to November 1, 1918

The War Department authorizes the following statement:

Figures reported by the Statistics Branch, General Staff, A. E. F., give the rifle strength of the Allied and the German Armies on the western front from April 1 to November 1, 1918, by months, as follows:

	Allies.	German.
Apr. 1	1,245,000	1,569,000
May 1	1,343,000	1,600,000
June 1	1,496,000	1,639,000
July 1	1,556,000	1,412,000
Aug. 1	1,672,000	1,395,000
Sept. 1	1,682,000	1,339,000
Oct. 1	1,594,000	1,223,000
Nov. 1	1,485,000	866,000

By "rifle strength" is meant the "number of men standing in the trench ready to go over with the bayonet." There are 12,250 rifles in an American division.

RESUMPTION OF SHIPMENTS TO FINLAND EXPECTED SOON

The War Trade Board announces, in a new ruling (W. T. B. R. 577), that arrangements are now being made whereby it is hoped shipments to Finland may very shortly be resumed.

It is probable that there will be an interallied committee sitting at Helsingfors, which will pass upon all requests for importations into that market from the associated governments. Exporters in the United States who are interested in trade with Finland should, therefore, communicate, as soon as possible, with their correspondents in Finland and request them to get in touch with the American consul at Helsingfors. The consul will be in close touch with the new arrangements and will be able to advise the prospective importer as to what he should do, and will arrange for the taking of the necessary guarantees against reexportation, etc. The War Trade Board hopes to be able to announce within a few days the exact procedure to be followed, but in the meantime prospective exporters will save time by instructing their correspondents to get in touch with the consul.

BACK PAYMENT OF SOLDIERS WHERE CLEAR CLAIMS EXIST FACILITATED BY DECISION OF TREASURY COMPTROLLER

RULING AFFECTS 8,000 CASES NOW ON FILE

Director of Finance of the War Department Authorized to Adjust Pending Claims When Soldier's Right Is Clearly Established — Delay of Four Months in Some Instances Under Old Procedure.

The Comptroller of the Treasury makes public the following:

THE AUDITOR FOR THE WAR DEPARTMENT.

SIR: I have your letter of the 29th instant, as follows:

"I have the honor to inclose herewith a communication received by this office from the Director of Finance of the War Department, asking if this office will make objection to his office issuing duplicate final statements and paying soldiers who have been discharged from the Army arrears of pay that may be due them in cases which do not involve a construction of the law and in which the soldier's right is clearly defined. In the letter several different kinds of short payments are described, in which they wish to make final payment.

Sees No Objection.

"It is the idea of this office to return the communication with an indorsement to this effect:

"'This office sees no objection to the issuing of duplicate final statements by the Director of Finance in cases of soldiers who have been discharged from the service, and the payment thereon of all arrears of pay, together with any short payments due for their services; also payments to discharged officers on supplemental vouchers of all items of pay short paid, either as officers or enlisted men, where service has been continuous. This applies only to payments wherein no construction of law is involved.

"'It is further provided that notation is to be made on the voucher, paid at date of discharge, of the supplemental payment and notation also made on the supplemental voucher of the payment on discharge.'

"France Still Stands at Frontier" Backed by Civilization's Forces, And Facing Threatening Questions, President Wilson Tells Deputies

President Wilson at the Chamber of Deputies, Paris, on Monday, February 3, spoke as follows:

"I am keenly aware of the unusual and distinguished honor you are paying me by permitting me to meet you in this place and address you from this historic platform. Indeed, sir, as day and week has followed day and week in this hospitable land of France, I have felt the sense of comradeship ever become more and more intimate, and it has seemed to me that the making of history was being singularly cleared. We knew before this war began that France and America were united in affection. We knew the occasions which drew the two nations together in those years, which now seem so far away, when the world was first beginning to thrill with the impulse of human liberty, when soldiers of France came to help the struggling little Republic of America to get upon its feet and proclaim one of the first victories of freedom.

"We had never forgotten that, but we did not see the full meaning of it. A hundred years and more went by and the spindles were slowly weaving the web of history. We did not see it to be complete, the whole of the design to be, made plain. Now, look what has happened. In that far off day, when France came to the assistance of America, America was fighting Great Britain, and now she is linked as closely to Great Britain as she is to France. We see now how those apparently diverging lines of history are coming together. The nations which once stood in battle array against one another are now shoulder and shoulder fighting a common enemy. It was a long time before we saw that, and in the last four years something has happened that is unprecedented in the history of mankind. It is nothing less than this, that bodies of men on both sides of the sea and in all parts of the world have come to realize their comradeship in freedom.

"France, in the meantime, as we have so often said, stood at the frontier of freedom. Her lines lay along the very lines that divided the home of freedom from the home of milltary despotism. Hers was the immediate peril. Hers was the constant dread. Hers was the most pressing necessity of preparation; and she had constantly to ask herself this question, 'if the blow falls, who will come to our assistance?' And the question was answered in the most unexpected way; her allies came to her assistance; but many more than her allies. The free people of the world came to her assistance. And thus America paid her debt of gratitude to France by sending her sons to fight upon the soil of France. She did more.

"She assisted in drawing the forces of the world together in order that France might never again feel her isolation, in order that France might never feel that hers was a lonely peril, would never again have to ask the question, Who would come to her assistance?

"For the alternative is a terrible alternative for France. I do not need to point out to you that east of you in Europe the future is full of question. Beyond the Rhine, across Germany, across Poland, across Russia, across Asia, there are questions unanswered, and they may be for the present unanswerable. France still stands at the frontier. France still stands in the presence of those threatening and unanswered questions, threatening because unanswered, stands waiting for the solution of matters which touch her directly and intimately and constantly, and, if she must stand alone, what must she do? She must put upon her people a constant burden of taxation. She must undergo a sacrifice that may become intolerable. And not only she, but the other nations of the world, must do the like. They must stand cap-a-pie. They must be ready for any terrible incident of injustice. The thing is not conceivable. I visited the other day a portion of the devastated region of France. I saw the noble city of Rheims in ruin, and I could not help saying to myself, 'Here is where the blow fell, because the rulers of the world did not sooner see how to prevent it.' The rulers of the world have been thinking of the relations of governments and forgetting the relations of peoples. They have been thinking of the maneuvers of international dealings, when what they ought to have been thinking of was the fortunes of men and women and the safety of home, and the fear that they should take that their peoples should be happy because they were safe. They know that the only way to do it is to make it certain that the same thing will happen always that happened this time, that there never shall be any doubt or waiting or surmise, but that whenever France or any other free people is threatened the whole world will be ready to vindicate its liberty.

"It is for that reason, I take it, that I find such a warm and intelligent enthusiasm in France for the society of nations. France, with her keen vision, France, with her prophetic vision. It seems to be not only the need of France, but the need of mankind. And she sees that the sacrifices which are necessary for the establishment of the society of the nations are not to be compared with the sacrifices that will be compared with the constant dread of another catastrophe should have fallen on the fair cities and areas of France. There was no more beautiful country. There was no more prosperous country. There was no more free-spirited people in it. All the world had admired France, and none of the world grudged France her greatness and her prosperity except those who grudged her liberty. And it profited us, terrible as the cost has been, to witness what has happened—to see with the physical eye what has happened because injustice was wrought. The President of the Chamber has pictured as I can not picture the appalling sufferings, the terrible tragedy of France, but it is a tragedy which could not be repeated. As the pattern of history has disclosed itself, it has disclosed the hearts of men drawing toward one another. Comradeships have become vivid. The purpose of association has become evident. The nations of the world are about to consummate a brotherhood which will make it unnecessary in the future to maintain those crushing armaments which make the peoples suffer almost as much in peace as they suffered in war.

"When then soldiers of America crossed the ocean, they did not bring with them merely their arms. They brought with them a very vivid conception of France. They landed upon the soil of France with quickened pulses. They knew that they had come to do a thing which the heart of America had long wished to do. When Gen. Pershing stood at the tomb of Lafayette and said, 'Lafayette, we are here,' it was as if he said, 'Lafayette, here is the completion of the great story whose first chapter you assisted to write.' The world has seen the great plot worked out, and now the people of France may rest assured that their prosperity is secure, because their homes are secure; and men everywhere not only wish her safety and prosperity, but are ready to assure her that with all the force and wealth at their command they will guarantee her security and safety. So, as we sit from day to day at the Qual d'Orsay I think to myself, we might, if we could gain audience of the free peoples of the world, adopt the language of Gen. Pershing and say, 'Friends, men, humble women, little children, we are here, we are here as your friends, as your champions, as your representatives. We have come to work out with you a world which is fit to live in and in which all countries can enjoy the heritage of liberty for which France and America and England and Italy have paid so dear.'"

SURVEY OF CITIZENS WHO VOTE, NATIVE AND FOREIGN BORN

The Bureau of Naturalization, Department of Labor, has received reports of surveys in a number of large cities to determine to what extent native and foreign-born citizens are exercising the rights of citizenship.

In one large city, of the first 7 prominent business men approached in the survey not one had registered to vote, and of 80 preachers questioned only 12 had registered and 6 had voted.

Among the foreign-born citizens and newly naturalized 97 per cent had registered and voted.

The bureau estimates that in the past 75 per cent of the aliens admitted to citizenship have been below the standard of fitness for self-government, which ought to be maintained to mean a real addition to the self-governing power of the Nation, but the recently increased activity of evening classes for foreigners in the schools and the more critical examinations given foreign-born applicants for citizenship are reducing this figure at a rapid rate.

SOLDIERS REVOLT IN PETROGRAD SWEDISH PRESS REPORTS STATE

Helsingfors reports in the Swedish press state that a revolt has broken out in Petrograd among former army soldiers, with considerable machine-gun activities and a bombardment of the city by Cronstadt artillery. Numbers of bodies are reported to litter the streets, according to State Department advices.

Reval reports of the Official Evening Communique announce the capture of Walk in Livonian Russia by Finnish troops. The communique also states that the regent of Finland had been invited by the King of Sweden to be his guest at the Royal Palace at Stockholm for a few days. The regent is to arrive in Stockholm on February 12, accompanied by the Finnish foreign minister.

NEW WAR TRADE BOARD RULING GOVERNING DUNNAGE LICENSES

The War Trade Board announces, in a new ruling (W. T. B. R. 576), that all previous existing regulations respecting the licensing of all kinds of dunnage have been canceled and a new procedure has been adopted. Hereafter all dunnage, whether wood or lumber of any kind, burlap, jute bagging or bags (including bags used as containers of grain or other cargo), will be licensed under bunker licenses in any quantities desired regardless of whether the articles are to be used solely as dunnage or containers aboard the vessel on which it is proposed to be shipped, or as dunnage or containers first and then for commercial use abroad afterwards.

Vessels will not be obligated to retain any of the above-mentioned articles aboard or to return the same to the United States, but are at liberty to dispose of them as and when desired.

The War Trade Board further announces that all obligations or guaranties previously given by any vessel which conflict with the above are canceled and will be considered null and void.

OFFICIAL COMMUNIQUE ON PEACE CONFERENCE

The following official communique was issued at Paris on February 4:

The President of the United States, the prime ministers and ministers of foreign affairs of the United States, British Empire, France, Italy, and Japan met this morning at the Quai D'Orsay from 11 to 1 o'clock.

M. Venizelos made a statement regarding Greek territorial interests in Asia Minor.

The following resolution was approved:

It is agreed, That the questions raised in the statement by M. Venizelos on the Greek territorial interest in the peace settlement shall be referred for examination in the first instance to an expert committee composed of two representatives each of the United States of America, the British Empire, France, and Italy.

It shall be the duty of this committee to reduce the questions for decisions within the narrowest possible limits, and make recommendations for a just settlement.

The committee is authorized to consult representatives of the peoples concerned.

The next meeting will take place to-morrow, Wednesday, February 5, at 3 p. m., when the Czecho-Slovak delegates will be heard.

Text of Report Giving Polish-Czecho-Slovakia Agreement Made at Paris

Following is the report issued at Paris on February 4, and signed by the representatives of the great powers of the Polish-Czecho-Slovakia agreement:

"The representatives of the great powers having been informed of the conflict which has arisen between the Czechs and Poles in the Principality of Teschen in consequence of which the mining district of Ostrawa Karvin and the railway from Oderberg to Teschen and Jablungkau has been occupied by the Czechs, have declared as follows: In the first instance they think it necessary to remind the nationalities who have engaged to submit the territorial questions which concern them to the peace conference that they are bringing its decision to refrain from taking as a pawn or from occupying the territories to which they lay claim.

"The representatives take note of the engagement by which the Czech delegates have declared that they were definitely stopping their troops on the line of the railway which runs from Oderberg to Teschen Jablungkau.

"Pending the decisions of the peace congress as to the definite assignment of the territories that part of the railway line to the north of Teschen and the mining regions will remain in the occupation of Czech troops, while the southern section of the line, starting from and including the town of Teschen down to Jablungkau, will be intrusted to the military supervision of the Poles.

"The undersigned consider it indispensable that a commission of control should be immediately sent to the spot to avoid any conflict between the Czechs and Poles in the region of Teschen. This commission, apart from the measures that it will have to prescribe, will proceed to an inquiry on the basis of which the peace conference may form its decision in fixing definitely the respective frontiers of the Czechs and Poles in the contested zone.

"In order to seal the entente between two friendly nations which should follow a policy in full accord with that of the allied and associated powers, the representatives of the great powers register the promise of the Czech representative that their country will put at the disposition of the Poles all its available resources in war material and will grant to them every facility for the transit of arms and ammunition.

"The exploitation of the mines of the Karwin Ostrawa district will be carried out in such a way as to avoid all infraction of private property while reserving any police measures which the situation may require. The commission of control will be authorized to supervise this and, if necessary, to secure to the Poles that part of the output which may be equitably claimed by them to meet their wants.

"It is understood that the local administration will continue to function in accordance with the conditions of the pact of November, 1918, and that the rights of minorities will be strictly respected

"Pending the decision of the peace congress, political elections and military conscription will be suspended in the principality of Teschen.

"No measure implying annexation of all or a part of the said principality either to the territory of Poland or of Czecho Slovakia taken by interested parties shall have binding force.

"The delegates of the Czech nation engage to release immediately, with their arms and baggage, the Polish prisoners taken during the recent conflict.

PROCEEDINGS OF THE CONGRESS OF THE UNITED STATES BRIEFLY TOLD

SENATE.

The Senate was engaged yesterday ostensibly in consideration of an appropriation bill, but the discussion embraced a number of subjects, such as the peace conference and the proposed league of nations, and included a vigorous criticism of a recent meeting in this city when the soviet government of Russia was upheld and commended. Senator Lodge and others, in opposing the $200,000,000 appropriation for the construction of roads, carried in the Post Office appropriation bill, warned the Senate against extravagance in expenditures and sounded a warning on the need of rigid economy. Several Senators discussed the utterances at a public meeting in Washington Sunday, as a result of which a resolution was unanimously adopted directing the subcommittee of the Judiciary Committee to make an investigation of this subject. Under the terms of the resolution introduced by Senator Walsh, of Montana, the powers of that committee were extended to include authority to investigate any efforts being made to propagate in this country the principles of any party exercising or claiming to exercise authority in Russia, whether such efforts originate in this country or are incited or financed from abroad, and further to inquire into any effort to incite the overthrow of the Government of this country, or all Governments by force, or by the destruction of life or property, or the general cessation of industry.

Senator Poindexter introduced a resolution, which went over, calling upon the Attorney General for information whether he is making an inquiry into the circumstances of the public meeting held in this city and what steps are being taken to enforce law in the District of Columbia. Discussing the proposed league of nations, Chairman Hitchock, of the Foreign Relations Committee, said he felt confident that at the proper time the President would advise the Senate regarding the agreement for such a league. Senator Sherman, of Illinois, made a speech in which he criticized the President for his policies and for his personal participation in the peace conference.

Senator Weeks, of Massachusetts, introduced a resolution calling upon the State Department, if not incompatible with the public interest, for information concerning the recent British embargo against imports from the United States, and what steps, if any, have been taken to obtain a modification of that order. Senator Reed, of Missouri, introduced a bill the purpose of which is to perpetuate the National Guard.

At the session of the German propaganda committee, Chairman Overman informed the committee that the Secretary of War declined to give the committee the papers in the case of the investigation by the War Department of alleged pro-German sentiments of F. J. H. von Engelken, former president of the Federal farm loan bank at Columbia, S. C.

Conferees on the bill to validate informal contracts entered into by the War Department reached a partial agreement by eliminating the Senate amendment providing for an appellate commission to pass upon awards of Government officials. Under the compromise the Court of Claims is given jurisdiction.

Before the Interstate Commerce Committee, Director General Hines, of the Railroad Administration, continued his statement begun on Monday and explained his suggestions for a reorganization of the roads into a few regional corporations operating privately but under close Federal supervision.

On Monday Senators Hale, of Maine, and Moses, of New Hampshire, Republicans, discussed the proceedings of the peace conference. Senator Hale asserted the belief that the ideals of the President were not the ideals of the great majority of the American people, and added that they went to war only because their country was menaced. He said he gave the President credit for absolute sincerity of motives in all that he has done and said. Senator Moses expressed doubt as to any lasting confederation of States growing out of the conference. An amendment was written into the legislative bill making it mandatory that upon application all former employees of any of the civil departments upon their discharge from the military service shall be reinstated in their former positions. A resolution offered by Senator Calder, of New York, was adopted. It directs the Commerce Committee to investigate the difference in cost of operation of American vessels in foreign service with those of foreign countries and report the causes. A resolution by Senator Jones, of Washington, was adopted asking the State Department to either supply the Senate with information concerning what treaties have been or are expected to be abrogated, or give reasons why it can not be furnished. From the Committee on Commerce a bill was favorably reported making it unnecessary for American shipbuilders to obtain permits from the Shipping Board to undertake construction of ships for foreign account.

After many protracted sessions the conferees on the oil-leasing bill reached a final agreement. The bill creates a policy under which the natural resources of many of the Western States will be opened up to development, especially the oil, gas, coal, phosphate, and sodium lands.

Before the Agricultural Committee investigating the packing industry, L. D. H. Weld, representing Swift & Co., said there were 270 independent packers who maintained sharp competition with the so-called "big five" packers. Before the House committee Edward C. Lassater, a member of the executive committee of the National Live Stock Association, asserted that the Food Administration and Department of Agriculture aided the five leading packers in obtaining monopolistic control of the packing industry. Director General Hines, of the Railroad Administration, insisted before the Interstate Commerce Committee that Government operation of the roads should be continued for a period of five years in order to have sufficient time for careful consideration of the railroad situation, or that they should be turned back to private management before the 21-month period expires.

Following a special meeting of the Suffrage Committee, Chairman Jones announced in the Senate that on Monday next he would move to proceed with the consideration of the pending suffrage resolution for a constitutional amendment, and expressed the hope that it might be permitted to come to a vote.

HOUSE.

The House yesterday passed and sent to the Senate a bill designed to provide for the development of Rocky Mountain National Park. Secretary Baker transmitted a bill under which enlisted men of the Army discharged to accept temporary commissions in the National Army shall receive retired pay and allotments of master signal electricians when mustered out of the service. The House passed a Senate bill under which 90,000 acres of land would be added to the national forest in Wyoming under proclamation of the President.

Bills were introduced yesterday as follows: A resolution by Mr. Siegel, of New York, for the investigation by a special committee, to be appointed by the Speaker, of charges made in debate regarding discrimination against general officers in orders issued by the War Department. By Mr. Hawley, of Oregon, a bill under which The Adjutant General of the Army and the Secretary of the Navy would be required to furnish the adjutant general of each State with the names and records of men from that State who served in the Army, Navy, or Marine Corps.

Debate began in the House on Monday on the naval appropriation bill, carrying appropriations of $750,000,000 and a three-year building program. Chairman Padgett told the House that the President in a cable message to Secretary Daniels had urged the approval of the new three-year building program. Representative Caraway, of Arkansas, introduced a resolution for an investigation of the New York and New Orleans cotton exchanges. During debate Minority Leader Mann announced that leaders of both parties have been discussing the advisability of establishing the budget system in appropriating for the expenditures of the Government, and that a nonpartisan commission to study and report on such a system would be provided for in legislation to be submitted to the House.

Grain merchants and representatives of grain exchanges before the Agricultural Committee gave widely diverging views on the plan for carrying out the Government guarantee of $2.26 a bushel for wheat of the 1919 crop. Edward C. Lasater, representing the National Live Stock Association, testified before the Interstate Commerce Committee, which is investigating the packing industry. He charged that the Food Administration had acted with the five big packers in exploiting live-stock producers. Frank Morrison, secretary of the American Federation of Labor, before the Rules Committee, urged favorable action on a rule to give early consideration to the McKellar-Keating civil-service retirement bill. Representatives Austin, of Tennessee, and Keating, of Colorado, authors of the measure, also urged favorable action on the request for a rule.

Back Pay Claims of U. S. Soldiers Facilitated by Decision

(Continued from page 1.)

"When a claim is made to this office by a discharged soldier for short payments during service, there is generally a delay, of, at least, four months until the voucher on which the soldier was paid at discharge is received in this office, and a further delay is caused by the time required to obtain the necessary evidence from the War Department. It has been the custom of the War Department to refer all claims of soldiers, who have been discharged, to this office for consideration, but there is no law or Army regulation requiring this method of procedure.

"It would seem that the plan proposed by the Director of Finance would result in discharged soldiers receiving their short payments much earlier than they would by settlement of the claims in this office, which is a consummation greatly to be desired. We have filed in this office probably 8,000 claims of discharged soldiers for short payments during service. Some of these were filed as early as September, 1918, and, because the vouchers on which the soldiers received their final payments have not been received in this office, and also because we have not yet been able to obtain the necessary information from the War Department, these claims have not been settled.

"It is desired to obtain from yon your opinion as to the indorsement proposed by this office in the answer to the communication of the Director of Finance, and also your opinion as to whether the 8,000 claims, already filed in this office, can be referred to the Director of Finance for payment in accordance with the foregoing. You will understand that this procedure is understood only to cover the period from April 6, 1917, until the demobilization of the Army, or until such time as the present emergency for immediate payment of short payments during service to discharged soldiers is past."

Finance Director's Letter.

The communication addressed to you by the Director of Finance of the War Department is worded as follows:

"1. As a result of the intensive campaign in which the Army has been engaged since the beginning of the war, thousands of wounded and other soldiers have returned from abroad without service records or other official papers on which proper payment to them could be based. These men have in many cases been discharged and final statements issued to them which covered travel pay or partial pay only. Many of them have pay due for months. This office is especially desirous of lending its aid in every way possible to hasten the payment to this class of soldiers, and in a great many cases which do not involve construction of law and in which the soldier's right is clearly defined, it is believed that the Government's interest would be amply protected if settlement was made to these soldiers on supplemental final statements cross referenced to the original voucher on which the final pay was made.

Payment on Supplemental Finals.

"2. This office is ready and willing to use all the facilities at its disposal to make up supplemental final statements and to have payment made on these supplemental finals. With this in view information is requested whether you will offer any objection to this office effecting settlement in the following class of cases, viz:

"(a) Pay for one or more calendar months or fraction thereof, where not received on regular voucher, and refundments on account of erroneous deductions of amounts as due the United States.

"(b) Aviation and flying pay to officers, cadets, and enlisted men, except claims for difference between $75 and $100 per month presented after discharge.

"(c) Travel pay short paid due to erroneous statement as to place of enlistment or induction.

"(d) Deposits not repaid.

"(e) Balance due for clothing accrued on July 14, 1917, and deposits on collections on account of clothing erroneously charged.

"(f) Reimbursement cost of travel performed under proper orders.

"(g) Any bonus that may hereafter be authorized by Congress.

"2. It is understood that this has application in those cases only which have arisen by reason of service since April 6, 1917, and that this office will in each case cross reference the original and supplemental voucher or take any other action that may be desired by you, such as furnishing you with a written statement of all settlements which may be issued."

Advances of Public Money.

The Revised Statutes in section 3648 authorize advances of public money to be made to disbursing officers generally; by section 3620 and the various acts of Congress amendatory thereof they are authorized to make certain payments "in pursuance of law;" by section 3643 they are reqnired "to keep an accurate entry of each sum received and of each payment;" and section 5496 recognizes the fact that they must take and transmit to the Treasury Department receipts and vouchers from creditors of the United States whom they have paid.

The accounts of such payments made by disbursing officers of the Army are received, examined, and adjusted by the Auditor for the War Department. Where it appears that the expenditure was not authorized by law the payment is disallowed in the audit of the account. To protect the Treasury and disbursing officers from loss, Congress, in section 8 of the act of July 31, 1894 (28 Stat., 208), provided:

"Disbursing officers, or the head of any executive department, or other establishment not under any of the executive departments, may apply for and the Comptroller of the Treasury shall render his decision upon any question involving a payment to be made by them or under them, which decision, when rendered, shall govern the Auditor and the Comptroller of the Treasury in passing upon the account containing said disbursement."

Payment Before Auditing.

It thus appears that there are certain demands against the United States which the law authorizes disbursing officers to pay before such demands are audited. But these demands are restricted to a particular class. Section 236 of the Revised Statutes provides:

"All claims and demands whatever by the United States or against them, and all accounts whatever in which the United States are concerned, either as debtors or as creditors shall be settled and adjusted in the Department of the Treasury."

In 4 Comp. Dec., 336, 337, it is said:

"Whatever authority to make payments has been conferred upon disbursing officers by implication must be regarded as a partial exception and be construed strictly. The purpose of such exception is clearly to expedite payments in certain cases, by dispensing with the necessity of awaiting the result of the audit and certification by the auditor. * * *, where the amounts are fixed and the law is plain, it is a manifest convenience and saving of time to make prompt payment; * * *. But an exception, made by implication, however, clear, and for convenience only, should not be extended beyond the necessity for its exercise. To apply the authority of disbursing officers to the payment of claims depending upon doubtful or conflicting evidence, or upon the application of general principles of law, would be to transcend the necessity and the reason for the exception. * * *. Reading all these statutes together I am of the opinion that the authority of disbursing officers of the Executive Departments to make payments is restricted to the payment of fixed salaries, * * *, and other similar demands which do not require for the ascertainment of their validity the exercise of judicial functions in weighing evidence or in the application of general principles of law."

Regulations to Be Observed.

One of the Regulations for the Army which the President of the United States directs shall "be strictly observed" is in paragraph 151, as follows:

"Discharge certificates will not be made in duplicate."

The views of this matter as stated in your letter and in the communication from the Director of Finance are approved. Payment should not be made in any case where the soldier assigned his final statements and the assignee received payment thereon. Much care must be exercised in each case to cross-reference the original and the supplemental voucher. In each case the final statement to be issued should bear a clear reference to the original. This is necessary to avoid erroneous payments hereafter. The 8,000 claims described in your letter may be referred to the Director of Finance for payment in accordance with the proposed plan. Nothing herein contained must be construed to modify the decision of this office, dated November 13, 1918 (25 Comp. Dec., 373), relating to cases where the soldier has not been given a discharge certificate or has lost the discharge certificate given him.

Respectfully,

W. W. WARWICK,
Comptroller.

FIVE BUSINESS CARS FOR SALE BY INTERSTATE COMMISSION

The Interstate Commerce Commission issues the following:

The Interstate Commerce Commission has for sale five business cars with their contents.

These cars were purchased from the Pullman Co. in 1914 and 1915, and were standard Pullman cars of wooden construction, overhauled and refitted to serve the purpose of office or business cars for use of field parties in our Bureau of Valuation.

Sealed proposals for the purchase of these cars f. o. b. as they stand, at locations shown below, will be received at the office of the chief clerk and purchasing agent of the Interstate Commerce Commission, Washington, D. C., room 203, and there opened at 10 a. m. on Tuesday, February 25, 1919. The terms of the sale will be cash upon making the award. The Interstate Commerce Commission reserves the right to reject any or all bids, or to make the award to the highest bidder or otherwise, as the best interests of the Government may appear.

The cars to be sold, their location, and the person to be called upon if it is desired to inspect the car before bidding, are as follows:

Car initia. and No.	Location.	Person in charge	Address

Further particulars will be promptly furnished upon application to W. M. Lockwood, chief clerk and purchasing agent, Interstate Commerce Commission, Washington, D. C.

COAL OUTPUT AND SHIPMENTS FOR WEEK ENDING JANUARY 25

The United States Geological Survey issues the following report on the production and shipments of bituminous coal and shipments of anthracite coal:

A considerable decrease occurred in production of bituminous coal during the week ended January 25, the output declining to the low level of 9,159,000 net tons. This production, which falls approximately three-quarters of a million net tons below the preceding week and approximately one million net tons below the corresponding week of last year, is at the rate of 475,000,000 net tons per annum and is considerably below present consumption. Many consumers are now using coal accumulated during last summer and the present good weather enables certain consumers to await the outcome of the raising of the zone and price restrictions by the United States Fuel Administration before placing their orders.

The daily production of bituminous coal during the current week, estimated at 1,526,000 net tons, is 19 per cent below the daily average for the coal year to date and 13 per cent behind the daily average for the same period of last year. The total production for the period April 1 to January 25 is now estimated at 485,656,000 net tons and is 34,855,000 net tons or 7.7 per cent in excess of last year's production for the same period of time.

The production of anthracite increased considerably during the week ended January 25, and was slightly in excess of the average weekly production for the coal year to date. Preliminary estimates place production of anthracite for the current week at 1,886,000 net tons as against 1,786,000 net tons during the week of January 18, and as against 1,719,000 net tons during the week of January 25, 1918. The daily average during the current week, estimated at 314,000 net tons, is a slight increase over the daily average for the coal year to date, and but 3,000 net tons or 1 per cent behind the daily average for a similar period of last year.
