7,354,000 BATTLE DEATHS FOR ALL NATIONS DURING WAR, GEN. MARCH SAYS OFFICIAL REPORTS INDICATE

1,301,959 OFFICERS AND MEN DISCHARGED

Chief of Staff Gives Figures on Number of Men Sent to France Before Armistice and Nationality of Ships Transporting Them—21,324 Officers Have Accepted Commissions in Reserve Corps.

Press interview by Gen. March, March 1, 1919.

There has been some talk recently again about the transportation of our troops abroad, and in returning them, and I am going to give some figures showing the exact situation. We transported up to the signing of the armistice 2,056,122 men; of those the British carried 1,047,374, American ships 898,449; Italian ships 61,608, and French 48,681. There have been embarked from France up to February 20, for the United States, 352,922 men. In that embarkation—in the return of these men, American ships have carried 245,688 men, or 70 per cent; British 75,174, or 21 per cent; French 16,368, or 5 per cent; Italian 8,773, and all other ships 6,919. These figures show clearly the reversal of the problem; Great Britain's ships are now being used for their own purposes, the transportation and repatriation of their own troops, and are not at our disposal the way they were in sending the men over.

Of those 352,922 there were landed in America up to February 20, 284,919 men, of which 208,996, or 73 per cent, landed in New York. Brest continues to furnish more than one-half of the embarkation; 185,585, or 53 per cent, passed through Brest and the balance at various other ports.

Number of Officers Released.

The number of officers resigned and discharged up to February 28 is 77,452; the number of enlisted men discharged up to to-day, including small returns for last week, 1,224,507; total discharges 1,301,959. You will recall that we had at the time of the armistice a little less

SIX GERMAN SUBMARINES SOON TO BE BROUGHT TO U. S. PORTS

U-Boats Recently Delivered in British Harbors Will Be Exhibited to Public.

Secretary Daniels authorizes the following:

Arrangements have been completed to bring to United States ports, six of the German submarines recently delivered in British harbors. These vessels, selected as representing the different types of the German submarines, will be brought over for exhibition to the public and for study by our engineers, constructors, and submarine officers of the scientific aspects of the machinery, much of which is understood to be very highly developed.

The status of these vessels is in no wise changed and their ultimate disposition remains subject to the decision reached by the peace conference just like that of the others of the German fleet.

RECORD MAIL PLANE FLIGHT FROM THIS CITY TO NEW YORK

The quickest trip between Washington and New York ever made in a Curtiss JN-4 mail plane with a 150-horsepower motor was made February 28, when Aviator Bille took the airplane mail from College Park to Belmont Park, a distance of 218 miles, in 2 hours and 2 minutes flying time. He carried 200 pounds of mail, starting at 11.36 a. m., and arrived at Philadelphia at 12.55 p. m. This lap of 128 miles was covered in 1 hour and 19 minutes. Leaving Bustleton Field, Philadelphia, at 1.12 p. m., he arrived at Belmont Park at 1.55 p. m. This 90 miles was covered in 43 minutes. The speed between Washington and Philadelphia was 97½ miles an hour, and between Philadelphia and New York 125½ miles an hour. The average speed between Washington and New York was 107 miles an hour, which is a record for this type of plane with a full mail load.

Removal of Italian Import Prohibitions Announced

The War Trade Board announces in a new ruling (W. T. B. R. 624), for the information of exporters in the United States, that they have been informed that the prohibition upon the importation of leather and shoes into Italy has been removed, and that such commodities may now be imported into Italy upon obtaining an Italian import license therefor. Such an import license is required for all shipments, including those made by parcel post.

WILL NOT RELINQUISH RAILROADS SUDDENLY OR PRECIPITATELY DIRECTOR GENERAL ANNOUNCES

HAS CONFERENCE WITH PRESIDENT

Mr. Wilson Wishes to See Whether Permanent Program of Legislation Is Likely to Be Considered Promptly, Mr. Hines Says.

The following letter was sent to-day by Walker D. Hines, Director General of Railroads, to Chairmen Smith and Martin of the Senate Committees on Interstate Commerce and Appropriations, and to Representatives Sims and Sherley, chairmen of the House Committees on Interstate and Foreign Commerce and Appropriations:

MY DEAR _____:

As you are aware, there has been some inquiry as to whether there might be an immediate or precipitate return of the railroads to private management. The Railroad Administration has indicated whenever this inquiry has been made that it would not recommend that any such step be taken.

For your further information, I am glad to say that I have now discussed the matter with the President and he has authorized me to state that not only will there be no sudden relinquishment of the railroads, but further that it is not his purpose to relinquish the railroads until there has been an opportunity to see whether a constructive permanent program of legislation is likely to be considered promptly and adopted within a reasonable time.

Very sincerely, yours,
WALKER D. HINES.

SURPLUS STOCKS OF COPPER TO BE SOLD AT MARKET PRICE

The War Department authorizes the following statement from the office of the Director of Sales:

Several articles have appeared in various newspapers to the effect that the War Department would sell its surplus stocks of copper back to the producers at 11 cents to 12 cents per pound. These statements have not been authorized by the War Department and no such arrangement is contemplated. It is the policy of the War Department, acting through the Director of Sales, to sell surplus property at market prices, allowing the trade only the actual cost of handling Government surplus property.

WARNING AGAINST THE USE OF ARMY GAS MASKS ISSUED BY THE DIRECTOR OF MINES

ARE NOT GOOD FOR ALL PURPOSES

*Dangers of Indiscriminate Use
Pointed Out in Statement From
Bureau—Not Absolute Safeguard
Against All Gases.*

A warning against the indiscriminate use of the Army gas mask in the industries and by fire departments, as being dangerous to life was issued yesterday by Van. H. Manning, director of the Bureau of Mines, Department of the Interior.

"Through the fact that the American Army gas mask proved to be most efficient for the purposes intended," said Mr. Manning in his statement, "there has grown up a general belief on the part of the public that this type of mask will protect the wearer under all conditions against any gas whatsoever, even in absolutely irrespirable air, to the exclusion of the more cumbersome mine-rescue oxygen-breathing apparatus.

Erroneous Belief.

"This erroneous belief will no doubt be further confirmed by millions of discharged soldiers, who have been trained in the use of the gas mask and have been taught that it gives them absolute protection against all gases used or likely to be used in warfare. These men will not realize that out in the open air of the battlefield the percentage of gas in the atmosphere can never be anywhere near as large as may occur in the confined space of factory operations. A mask may afford complete protection under out-of-doors conditions, yet break down at once when used indoors where a gas container has burst and filled the room with a greater concentration of gas. It must also be remembered that the absorbents in the Army respirator, which filter out the poison gas, are especially designed for the gases used in warfare, and as a matter of fact do not protect against the most common industrial gases as, for example, illuminating, natural, producer, and blast-furnace gases.

Should Not Be Used in Mines.

"The Army gas mask should never be used in mines, because of the uncertainty that exists as to the amount of gases in the atmosphere and the liability of there being insufficient oxygen to support life. Its use in the mines will lead to serious accidents and fatalities.

"The Army gas mask is by no means the unusual protective appliance that it is popularly believed. It does not afford absolute protection against all gases, nor can it ever be safely used in low-oxygen atmospheres. It furnishes no oxygen to the wearer and only can remove comparatively small percentages of poisonous gas from inhaled air, usually less than 1 or 2 per cent. Higher percentages will immediately penetrate the canister and will gas the wearer.

"The field of usefulness of the Army mask is confined to certain of the chemi-

cal industries, around smelters, and roasters where sulphur fumes are given off, and in the industries using chlorine and bleaching powder. The Army canister also contains cotton filter pads which remove irritating and poisonous dusts, which increases its usefulness around smelters where sulphur and arsenic fumes must be removed.

"The Army mask furnishes no protection whatever against carbon monoxide. This is the poisonous constituent of blast-furnace, producer, and illuminating gases, and of mine gases after fires and explosions in coal mines. Carbon monoxide is also likely to be present in ordinary fire-fighting conditions met by fire departments. Moreover, in all of these cases there is likely to be a deficiency of oxygen. Therefore for adequate protection the oxygen-breathing apparatus must be used, and reliance on the Army mask may be fatal.

Many Factors Involved.

"Owing to the many factors entering into the use of protective respiratory appliances, the importance of competent advice on the selection and use of such appliances can not be overestimated. In connection with the bureau's work in safeguarding the health and safety of miners and workmen in the metallurgical industries, a general investigation of respirators, gas masks, and breathing appliances is to be undertaken at the Pittsburgh experiment station of the bureau. The results of these investigations will be given to the industries promptly."

MESSAGE TO THE PRESIDENT FROM PREMIER OF ITALY ON THE LEAGUE OF NATIONS COVENANT

The President has received the following personal message from Premier Orlando of Italy:

"In Paris, the heart of heroic France, through the high and persevering desire of a great leader of a great people, the nations who have fought together for the liberty and justice of the world, have also determined together in the sanctity of a solemn covenant, and in the name of liberty and justice of all peoples, to establish a peace which shall reign supreme over the future destinies of the world.

"To this covenant, which shall be the intangible charter of humanity, Italy, who in the past and in the present has always championed the cause of right, and proclaimed and consecrated it with her laws and with her blood, brings the contribution of her assent with fervid expression and deep conviction.

"Our hearts, with sincere faith, celebrate this event, which is and will remain one of the most memorable in human history; and it is fitting that the whole Italian people comprehend and acclaim with joy its high value and its everlasting significance."

STATEMENT BY MR. TUMULTY.

Denies Reported Expression By President on Irish Question.

Statement for the press by Joseph P. Tumulty, Secretary to the President:

In the last few days the following quotation has appeared in the press under a Washington date line as part of the newspaper report of the dinner given by the President at the White House, Wednesday evening, February 26, to the members of the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House:

"The President told the committees that the Irish question was a matter between Ireland and England, and that Ireland would not have any voice in the peace conference at present."

The President wishes me to say that this statement has no foundation in fact and is a deliberate falsehood.

SPECIAL EXPORT LICENSE FOR CERTAIN IN-TRANSIT SHIPMENTS

Procedure for Filing Documents with Collectors of Customs Is Outlined

SPECIAL EXPORT LICENSE NO. RAC-42 FOR CERTAIN IN-TRANSIT SHIPMENTS AND PROCEDURE FOR FILING DOCUMENTS WITH COLLECTORS OF CUSTOMS.

The War Trade Board announces in a new ruling (W. T. B. R. 619) the revision of regulations under which shipments of certain origin and destination, the importation of which has been otherwise licensed, may be exported without an individual export license, when the same are conveyed in transit through the territory or via any port of the United States. This regulation, effective March 1, 1919, rescinds W. T. B. R. 544, issued January 28, 1919.

(1) Special Export License RAC-42 has been issued through the customs service and authorizes the exportation of shipments of all commodities of certain origin and destination, as noted below, when the same are conveyed in transit through the territory or via a port of the United States.

(A) Shipments originating in any foreign country and destined to Great Britain, France, Italy, Belgium, or Japan, or their colonies, possessions, or protectorates.

(B) Shipments originating in Great Britain, France, Italy, Belgium, or Japan, or their colonies, possessions, or protectorates destined to any country of the world; *Provided, however*, that no shipment destined to Europe shall be licensed under this paragraph unless such shipment is consigned to Great Britain, France, Italy, or Belgium.

(C) Shipments from one point in Mexico to another point in Mexico, passing through the United States en route.

(2) In-transit shipments arriving at the United States by rail or vessel for reexport under RAC-42 may be consigned to the ultimate consignee at point of destination or to an agent in the United States for reshipment, and if consigned to an agent the railroad waybill or vessel's manifest must bear the name and address of the ultimate consignee at point of destination, and such notations shall be transcribed therefrom to the carrier's customs manifest or copy of vessel's manifest presented to the collector of customs.

(3) Upon arrival of such in-transit shipments at port of entry, the railroad agent or the vessel's agent shall present to the collector of customs a copy of the Carrier's Customs Manifest, Form 7512, or a copy of the ship's manifest or portion thereof, upon which shall be clearly noted the shipments which are in transit. This copy shall bear—

(A) The name and address of the ultimate consignee, in accordance with paragraph (2) herein.

(B) The notation "Special Export License RAC-42."

(C) The number of the import license under which the shipment is to be imported into the United States.

If the shipment is not covered by a

OFFICIAL COMMUNIQUE ON PEACE CONFERENCE

The following official communiques were issued at Paris:

February 27.—The meeting of the ministers and representatives of the allied and associated powers was held to-day at the Quai d'Orsay at 3 p. m. and lasted until 5.30 p. m. Monsieur Clemenceau came to Monsieur Pichon's room to resume contact with the delegates to the conference.

On the motion of the American delegates it was decided to organize a central commission for territorial questions.

Thereupon the Zionist case was presented by Dr. Weismann and M. Sekelow, representing the Zionist organization; M. Sylvain Levi, professor at the College of France and a member of the Palestine committee; M. Andre Spire, representing the French Zionist organization; and M. Szsyahkin, representing the Jews of Russia.

The next meeting will be held Saturday, March 1, at 3 p. m.

Labor Commission.

February 28.—The fifteenth and sixteenth meetings of the Commission on International Labor Legislation took place to-day under the presidency of Mr. Samuel Gompers. The discussion of the conditions required to secure a modification of the constitution of the international labor organization, which it has been proposed to set up, was completed.

The commission then came to an agreement on the clause in the British scheme, which lays down the qualifications necessary for an admission of a colony to a convention arrived at by the proposed labor conference.

The particular case of the admission of a Federal State to an international labor convention was also examined.

Provisional arrangements for the calling of the first meeting of the proposed international labor conference were discussed, and it was decided that it should be held in October, 1919.

The discussion on the constitution of the governing body of the international labor office was begun.

Greek Claims Committee.

February 27.—The committee to consider the Greek territorial claims met Thursday, February 27, at 4 p. m. Representatives of the provisional Albanian Government, of the former provisional Government of the northern Epirus, and representatives from Thrace were heard.

Roumanian Territorial Commission.

February 28.—The commission for the study of Roumanian territorial questions met this morning under the presidency of M. Tardieu, and proceeded to resume the examination of the Roumanian and Serblan claims.

special (PBF) import license, an individual import license is required.

(4) If the shipment is by rail, the collector of customs will, upon giving entry, allow the shipment to proceed to port of exit accompanied by the carrier's manifest.

(5) The collector of customs at port of exit will allow the goods to be exported under RAC-42, and forward the extra copy of form 7512, or the extra copy of the ship's manifest, to the War Trade Board, Washington, D. C.

The attention of shippers is called to the fact that goods given entry into the United States as intransit shipments may not be diverted for domestic consumption or reconsigned to a consignee other than the one named on the entry documents described in paragraph (2), unless authority for so doing has been obtained from the War Trade Board.

The attention of shippers is further called to the fact that RAC-42 is an export license and does not license the entry

of any intransit shipment or authorize any shipment in conflict with the trading-with-the-enemy act.

For the information of shippers, their attention is drawn to W. T. B. R. 540, issued January 23, 1919, announcing the issuance of General Import License PBF No. 31. This general import license covers all intransit shipments of unrestricted commodities where shipment from abroad has been made after January 21, 1919. The removal of the restrictions on commodities now restricted will automatically bring such commodities under the effect of this general license. Reference is made in W. T. B. R. 540, in connection with shipments made after January 21, 1919, that PBF No. 31 will supersede General Import Licenses PBF, No. 12 and PBF No. 25 in so far as it may conflict with such other general licenses.

GEN. CROWDER GOING TO CUBA TO CONSULT WITH OFFICIALS ON CHANGES IN ELECTION LAWS

Daily press interview by the Secretary of War, February 28, 1919.

You may be interested to know, as I am interested to tell you, that I have requested the State Department to notify President Menocal of Cuba that the War Department is very much pleased at the invitation extended by the President of Cuba to Gen. Crowder to come to Cuba and confer and consult with Cuban legal authorities on the subject of modifications of their election legislation, and has arranged to permit Gen. Crowder to go. He will leave shortly.

I would be very glad to have you add to this that the War Department and the Army generally feel that this is a very fine tribute to Gen. Crowder, whose services in Cuba are known to the Cuban people, and evidently have been so highly valued that the President regards the call to Gen. Crowder as a call to a man in whom the Cuban people have the highest confidence. It is a fine exhibition of the possibility of cooperation between the two Republics.

GENERAL SUPPLY COMMITTEE CIRCULAR ON THE PURCHASE OF TYPEWRITING MACHINES

GENERAL SUPPLY COMMITTEE,
THE AUDITOR'S BUILDING,
Washington, D. C., February 25, 1919.

CIRCULAR No. 100.

To purchasing officials of the United States Government and all others concerned:

SECTION A.

With reference to Treasury Department Circular No. 129, dated December 10, 1918, relating to the transfer of material, supplies, and equipment, the question has been raised whether, in case the General Supply Committee has available for transfer serviceable typewriting machines equipped with elite type and has no machines available equipped with pica type, the office desiring the pica-type machines may obtain them from the contractor.

Relative to this matter, the General Supply Committee is of the opinion that it would be exceeding the authority vested in it if it should authorize the purchase of machines equipped with pica type when serviceable machines equipped with elite type are available for transfer, except in cases where the office purchasing the typewriting machines can clearly show that the machines that are available for transfer will not answer the required purpose.

It is suggested that, in connection with any article marked "G. S. C.," which in the opinion of the ordering officer will not answer the required purpose, the request be returned to the committee, setting forth in full the reason why the article will not meet the particular requirement. Unless the purchasing officer can show that the material, supplies, and equipment that are on hand and available for transfer will not meet the required use, the committee is of the opinion that it would be unwarranted to authorize purchase of similar articles from commercial dealers.

SECTION B.

The question has also been raised whether, in cases where the General Supply Committee does not have available for transfer typewriting machines that are serviceable and authorizes purchase thereof from commercial dealers, the ordering officer may obtain the machines in question from the contractor by exchanging machines in accordance with section 8 of class 18.

This question has been submitted to the proper legal authority for opinion, and it is held that, when the General Supply Committee has not available for transfer typewriting machines of the kind or similar to those requested that are serviceable, said committee is privileged, under the Executive order of December 3, 1918, where a congressional appropriation exists permitting such exchange, to authorize the exchange of old machines with the contractors in accordance with contracts for the current fiscal year.

Respectfully,
G. V. NORWOOD,
Superintendent of Supplies.

SPECIAL HOSPITALS FOR CERTAIN TYPES OF ARMY SURGICAL CASES

The War Department authorizes the following statement from the Office of the Surgeon General:

To afford wounded soldiers from overseas the benefit of special professional skill and experience, the Surgeon General of the Army has designated special hospitals for the treatment of certain types of surgical cases, such as amputations, peripheral nerve injuries, maxillofacial cases, etc.

Peripheral Nerve Cases.

For the treatment of soldiers suffering from peripheral nerve injuries 11 hospitals have been designated, as follows: Williamsbridge, N. Y.; Fort McHenry, Md.; Colonia, N. J.; Fort McPherson, Ga.; Cape May, N. J.; Fort Des Moines, Iowa; Fort Sheridan, Ill.; Fort Snelling, Minn.; Walter Reed General Hospital, Takoma Park, D. C.; Letterman General Hospital, San Francisco, Cal.; Base Hospital at Fort Sam Houston, Tex.

Peripheral nerve injuries by reason of their complexity, demand cooperation of a neurologist, a surgeon skilled in neurologic surgery, an orthopedist, and a well-developed physio-therapeutic department. In the hospitals selected for treatment of these cases particular care has been exercised to fulfill the requirements as noted.

Cases Have Become Scattered.

Many peripheral nerve cases have become unavoidably scattered throughout the general and base hospitals, and the Surgeon General has therefore directed commanding officers of hospitals to transfer these patients to the specially selected hospitals to insure to the patients every possible advantage in recovering power. The treatment of these cases, whose symptoms are affections of the nerves all over the body, particularly the arms and legs, is by operation or massage.

GEORGE A. ZABRISKIE HEADS SUGAR EQUALIZATION BOARD

Following a meeting of the board of directors of the United States Sugar Equalization Board (Inc.), held in the United States Food Administration Building, Washington, on February 26, it was announced that George A. Zabriskie has been elected president of the Sugar Equalization Board to succeed George M. Rolph, resigned. Theodore F. Whitmarsh was elected vice president, James F. Bell treasurer, and William A. Glasgow, jr., general counsel; E. S. Keeley was elected assistant treasurer.

Mr. Rolph, who has been president of the Sugar Equalization Board since its organization, was compelled to withdraw from this position in order to devote himself to his own business. He tendered his resignation on January 30, to take effect at the time his successor was appointed.

The members of the board of directors as at present composed are as follows: Herbert Hoover, chairman; George A. Zabriskie, Theodore F. Whitmarsh, James F. Bell, Dr. F. W. Taussig, C. M. Woolley, William A. Glasgow, jr.

PROCEEDINGS OF THE CONGRESS BRIEFLY TOLD

SENATE.

Senator Knox, Republican, of Pennsylvania, made a speech this morning in opposition to the constitution of the proposed league of nations, and was followed by Senator Hardwick, Democrat, of Georgia. Senator Lodge, of Massachusetts, Republican leader, addressed the Senate at length on the subject yesterday afternoon and took strong grounds against the constitution as made public, insisting upon its amendment in various substantial particulars. Speeches in the same general tenor were also made by Senators Lenroot, Republican, of Wisconsin, and Frelinghuysen, of New Jersey. During the discussion Senator Ashurst, Democrat, of Arizona, advocated restrictions upon immigration into this country of Russians, Greeks, Czechoslovaks, Bulgarians, and Roumanians.

Chairman Simmons of the Finance Committee submitted the report on the bond bill and gave notice that to-day he would call it up for consideration and would seek to keep it continuously before the Senate until finally acted upon. A resolution was introduced by Senator Calder, of New York, asking for an investigation of charges made before a court in New York City that the Belgian Relief Commission shipped large quantities of bad wheat into Belgium for food purposes and that a large number of war sufferers who were fed that wheat died as a result.

Many bills on the calendar were taken up and disposed of, as follows: House bill, providing for the destruction of liquor seized by Federal courts, but with an amendment permitting the sale or gift of confiscated liquors to Government departments for nonbeverage purposes; joint resolution raising the rank of the legation at Peru to an embassy; a resolution calling upon the Secretary of War for the names of all officers and others who since the war have been authorized to purchase military supplies; resolution directing the Secretary of War to transmit to the Senate information regarding promotions in overseas service, and the names of all officers who have not seen service abroad; a bill for the restoration and maintenance of Commodore Perry's flagship, the *Niagara*, as a historical brig, at Erie, Pa.; resolution permitting the construction of ships in American shipyards for foreign account without license from the Shipping Board; a bill authorizing the Secretary of War to acquire and operate the Cape Cod Canal; objection was made by Senator France, of Maryland, to consideration of the bill to prohibit the circulation of radical and other forms of insidious and unlawful propaganda literature; passed House bill authorizing granting of pay and allowances to female Army and Navy nurses, field clerks, and civil employees of the Army for time spent in captivity; efforts to consider the elections committee compromise resolution for the preservation of ballots and evidence in the Ford-Newberry senatorial election contest in Michigan were blocked by Republican objection.

Chairman Jones, of the Suffrage Committee, announced that an effort would be

made before adjournment to obtain a vote on the modified suffrage amendment he has proposed. The Post Office Committee reported favorably a resolution for the termination of Federal control of wire systems by December 1, next.

HOUSE.

The last two of the big supply bills were passed by the House late last night, and yesterday afternoon the sundry civil and the third general deficiency appropriation bills. This morning the House busied itself with the consideration of a contested election case, all of its business having been completed except final action on conference reports. The sundry civil bill carries appropriations aggregating \$850,000,000 and the deficiency \$7,771,000. Unsuccessful efforts were made to insert an amendment providing for the continuance of the Federal employment service after July next, but it was rejected. An appropriation of \$10,000,000 for the continuation of that service was ruled out on a point of order. The major portion of the appropriations in the sundry civil bill is the item of \$626,000,000 for the Emergency Fleet Corporation. Provision was made in an amendment for the payment of their salaries to Members of Congress who served in the military forces during the war. The general deficiency bill carried an amendment creating a joint Congressional commission to investigate and report upon the feasibility of establishing a national budget system. The Senate also yesterday afternoon passed a separate resolution providing for the same thing so that the House amendment will probably be accepted in conference, and this reform urged by the President will be started.

Conferees on the bill placing military reconstruction hospitals under the Public Health Service, agreed to an amendment under which the Secretary of the Treasury will be granted a fund of \$1,500,000 to acquire additional hospitals. Representative Johnson, Democrat, of Kentucky, chairman of the District of Columbia Committee, filed a report unanimously adopted by that committee holding that the Secretary of Commerce paid an unwarranted price for land bought for the Bureau of Standards, and that the transaction had not been properly represented in an official communication to the House.

LEAVES FEDERAL RESERVE BOARD.

Mr. Milton C. Elliott Resigns as General Counsel.

Mr. Milton C. Elliott has resigned as general counsel for the Federal Reserve Board to resume private practice. Mr. Elliott has been connected with the Federal reserve system since its organization, having assisted as counsel to the Comptroller of the Currency, in 1913, in the revision of the bill which became the Federal Reserve Act, and as secretary and counsel of the Reserve Bank Organization Committee, he assisted in organizing the twelve Federal reserve banks. When the Federal Reserve Board was organized he was appointed counsel and

JURY OF "AD" EXPERTS STUDIES COPY FOR VICTORY LIBERTY LOAN

At the request of the Bureau of Publicity of the Treasury Department, several of the leading advertising experts of the United States came to Washington to-day to serve as a copy jury for the display advertising prepared for the Victory Liberty loan campaign.

For more than a month, expert copy writers have been engaged in preparing the copy for the display advertising campaign for the loan. From this copy the jury will select a series of advertisements calculated to develop accurately the theme of the Liberty loan campaign.

The copy jury was composed as follows:

Joseph H. Appel, New York, general manager of the John Wanamaker store.

Robert Tinsman, New York, president Federal Advertising Agency.

Henry C. Brown, Camden, N. J., sales manager Victor Talking Machine Co.

Wright A. Patterson, Chicago, editor-in-chief, Western Newspaper Union.

Frank R. Wilson, director of publicity, war loan organizations.

Bayard F. Pope, New York, assistant director of publicity, second Federal Reserve District, Liberty loan committee.

G. E. Gable, Philadelphia, third Federal Reserve District, Division of Publicity, Liberty loan committee.

has continued in that position since that time.

Mr. George L. Harrison has been appointed general counsel of the board to succeed Mr. Elliott. Mr. Harrison has been assistant counsel for the board since November 1, 1914.

GENERAL MARCH'S WEEKLY STATEMENT TO PRESS

(Continued from page 1.)

than 1,700,000 officers and men in the United States camps. Total ordered demobilized, including men returned from France, 1,571,000. Details are here if they are of interest to anybody.

The number of officers who have accepted commissions in the Officers' Reserve Corps has risen to 21,324, of all grades. If the grades would be of interest, these men are divided as follows:

Colonels	5
Lieutenant colonels	14
Majors	378
Captains	1,513
First lieutenants	3,580
Second lieutenants	15,834

There are on files applications from men who have had this training for commissions in the Regular Army, 12,005.

Distinguished Service Crosses.

There has been some interest in the numbers of distinguished service crosses, which indicate conspicuous gallantry in France, as applied to divisions. I have had a table prepared here which shows the distinguished service crosses awarded to the different divisions in the American Expeditionary Forces. The Second Division had 664 distinguished service crosses, that is 664 individuals who were members of the division were awarded the cross, over twice the number awarded to any other division.

Division	No.
Second	664
First	360
Third	233
Twenty-six	229
Forty-second	205
Thirtieth	177
Fifth	163
Twenty-ninth	150
Seventy-seventh	146
Twenty-seventh	139
Thirty-second	134
Ninety-first	134
Eighty-ninth	97
Seventy-eighth	95
Seventy-ninth	80
Thirty-third	76
Fourth	66
Twenty-eighth	58
Ninetieth	57
Eightieth	42
Eighty-second	34
Seventh	30
Thirty-seventh	26
Thirty-sixth	24
Ninety-second	21
Eighty-first	19
Thirty-fifth	17
Sixth	10
Eighty-eighth	1

These were awarded by branches of service:

Infantry	2,942
Air Service	251
Medical Corps	236
Artillery	183
Engineers	149
Signal Corps	50
Tank Corps	36
Others	70

Another way of approaching the distinguished-service crosses is by services. Of these, of course, the combatant services had the greatest number.

Combatant forces	3,864
Service of supply	2
Troops with British	5
Ambulance service	27
Officers of the French Army	32
Officers of the British Army	3
Y. M. C. A.	3
Total	3,918

Battle deaths during the war for all nations as far as can be determined from official reports, as follows:

Russia	1,700,000
Germany	1,600,000

France	1,385,300
Austria	800,000
England	708,700
Italy	460,000
Turkey	250,000
Belgium	102,000
Bulgaria	100,000
Roumania	100,000
Serbia and Montenegro	100,000
United States	50,000
Total	7,354,000

Battle deaths mean troops killed in battle or died from wounds received in battle.

Questions.

Q. How may an officer in the Army of Occupation obtain individual discharge for "good cause," provided he pays his own ocean transportation, as recently announced. Is the fact that the officer is married and that he occupies an unusually responsible position in an important industry—a position which has been kept open for him due to his special fitness—sufficient cause to obtain individual discharge under the above ruling?

A. The answer to this is that the War Department announcement about discharges in France has apparently been misunderstood by some papers, although an official statement given them was that the interpretation given it was incorrect. Gen. Pershing was authorized by the War Department to discharge certain men in France who intended to engage in business or had positions there; men who otherwise would be sent to this country and then return to France. And it has apparently been assumed that if men had their transportation paid back to the United States they could obtain a discharge. No such authority has been given Gen. Pershing at all.

Q. Foreign dispatch says United States is to withdraw its troops from Adriatic to avoid entanglement in Italian-Jugoslav affairs. Please advise whether troops are to be withdrawn, and if so, for reason above assigned; also, are our troops in Montenegro or elsewhere on east shore of Adriatic?

A. The only information we have about the United States troops in Italy, which might have a bearing on this, is a dispatch from our military attaché in Rome that orders have been issued for the Infantry regiment, the 332d I think, which is serving in that territory, to be concentrated at Genoa. The War Department has not yet authorized the return of those troops to the United States. They have been serving in Fiume, Cattaro, and Trieste.

CONTRIBUTIONS DEDUCTIBLE IN COMPUTING NET INCOMES

The Bureau of Internal Revenue, Treasury Department, issues the following:

Contributions which may be deducted in computing the net income of an individual taxpayer include not only donations to incorporated institutions, but those given to similar associations which are not incorporated. Contributions to War Chest funds, War Camp Community funds, and similar funds which were raised solely for organizations supporting and furthering war relief, are likewise deductible items on personal returns, within the limit named in the law.

Church Donations Deductible.

All gifts and donations to churches are deductible, it being held by the Bureau that every church constitutes a religious corporation or association for the purpose of this deduction. Donations to missionary funds, church building funds, or for church activities, which are intended for the furtherance of church work, constitute deductible items.

There can be no departure from the restrictions defined in the law, that the deductibility is limited to contributions to institutions no part of the earnings of which inures to the benefit of any private stockholder or individual, and that the total deduction may not exceed 15 per cent of the taxpayer's net income as computed without the benefit of this deduction.

Individual members of a partnership may include in the deduction for contributions their proportionate shares of such donations made by the partnership.

In each case, however, the limitations defined in the law must be observed.

CHANGE IN NATURALIZATION RULES FOR ALIEN SOLDIERS

WAR DEPARTMENT,
Washington, December 28, 1918.

General Orders, No. 146.

1. Owing to the changed conditions existing since the signing of the armistice and the consequent demobilization of the Army, section VI, General Orders, No. 95, War Department, 1918, is rescinded, and the following method of delivering certificates of naturalization to soldiers is prescribed:

(a.) The commanding officer of each camp, post, or station will designate a naturalization officer, if one has not already been appointed, whose official designation will be "United States Army Naturalization Officer, Camp _____." This Army naturalization officer should preferably be a personnel officer, and, if available, one with legal training. In small commands this officer may perform such duties in addition to his other duties.

(b.) The Army naturalization officer will secure from every naturalized soldier in his command who has not received his naturalization certificate the completion of Form No. 133, Department of Labor, Bureau of Naturalization, or such other Bureau of Naturalization forms as may be necessary. These forms can be secured from the nearest naturalization examiner, Department of Labor. The name and camp address of the naturalization officer to whom the certificate is to be sent will be noted on the forms.

(c.) The Army naturalization officer will send the necessary completed forms for naturalization certificates directly to the Bureau of Naturalization, which has agreed to send the requested certificates in bulk, from time to time, directly to the naturalization officer. The naturalization officer will deliver the certificates to the men concerned without waiting until they are discharged, and will obtain from them their receipts, which he will thereupon send to the Bureau of Naturalization.

(d.) In case men have been discharged the naturalization officer will forward the naturalization certificates to the home address given. The certificates should be sent by registered mail and the envelopes marked "Deliver to addressee only." The envelopes will have the official designation "United States Army Naturalization Officer, Camp _____," thereon, so that in case of non-delivery the certificates may be returned by the postal authorities. The naturalization officer will return such undelivered certificates to the Bureau of Naturalization.

(e.) The naturalization officer should advise soldiers who are about to be discharged and whose naturalization certificates are to be forwarded to them that no correspondence with either the War Department or the Bureau of Naturalization nor the retaining of a lawyer or other person to procure the naturalization certificates is necessary, but that such certificates will be sent to them at the address given by registered mail.

2. In the work of naturalizing alien soldiers, commanding officers concerned are instructed to lend their aid to the

Recent Orders to Railroad Accountants Issued by Director of Division Prouty

The United States Railroad Administration, division of public service and accounting, issues the following:

P. S. & A. CIRCULAR No. 59-A.

WASHINGTON, D. C., January 31, 1919.

P. S. & A. Circular No. 59, dated December 31, 1918, item marked No. 4, calls for a statement of income and profit and loss classified according to the form of income and profit and loss statements included in the annual report to the Interstate Commerce Commission, which is intended to be in accordance with the information furnished on page 301, "Income account for the year," and page 300, "Profit and loss account."

In addition thereto it is desired to support income account No. 501 (railway operating revenues), with a detailed classification of such revenues prepared in accordance with the primary accounts thereof reported on page 302 of the annual report to the Interstate Commerce Commission, railway operating revenues. It is also desired to support account 531 (railway operating expenses), with a classification thereof, showing only the total of each of the eight general accounts.

Federal auditors are here requested to submit this information with their returns to P. S. & A. Circular No. 59, if the said returns have not yet been forwarded, otherwise the data should be reported as promptly as possible.

C. A. PROUTY,
Director.

P. S. & A. CIRCULAR No. 62.

WASHINGTON, D. C., January 17, 1919.

American Railway Association car service rule No. 20 provides as follows:

"Unless otherwise agreed, when carload freight is offered in interchange without having been weighed or without evidence of weight on billing, as prescribed by rules 4 and 7 of the national code of rules governing the weighing and reweighing of carload freight, the receiving road may weigh the car and the delivering road shall pay it \$2 per car for the weighing service.

"This rule shall apply only to carriers participating in the freight rate."

The rule quoted is not effective as between railroads under Federal control.

C. A. PROUTY, Director.

P. S. & A. CIRCULAR No. 63.

WASHINGTON, D. C., January 21, 1919.

Effective with the closing of the accounts for the month of December, 1918, Federal auditors shall annually close to profit and loss account balances in all accounts includable in income and profit and loss accounts, defined by the classifications of the Interstate Commerce Commission and P. S. & A. circulars.

The balance in the profit and loss account shall then be closed to the account styled "Administration ledger control account," previously referred to in P. S. & A. Circular No. 55. The purpose being to open on the administration ledger at Washington, D. C., profit and loss and other accounts which will in due course be cleared through the control account.

The balance of December 31, 1918, in the account "W. G. McAdoe, Director General of Railroads," shall also be closed to the account "Administration ledger control account."

Subsequent to the account for December 31, 1918, the amounts of cash transferred to the administration treasurer or received by Federal managers, or Federal treasurers, from the administration treasurer, and charges arising from stating express revenue, or other amounts heretofore includable in the account "W. G. McAdoe, Director General of Railroads," shall be accounted for monthly in the account "Administration ledger control account."

A statement shall be submitted with the December, 1918, balance sheet (see P. S. & A. Circular No. 59) disclosing the amount and sources of the debits and credits by months to the account "Administration ledger control account."

In order that the amounts included in the "Administration ledger control account," which have been transferred from the account "W. G. McAdoe, Director General of Railroads," may be identified with entries on the administration books, such amounts shall be detailed so as to show in the said statement the month, character, and amount of each transaction.

C. A. PROUTY, Director.

P. S. & A. CIRCULAR No. 60.

WASHINGTON, D. C.,

January 21, 1919.

P. S. & A. Circular No. 55 provides for making quarterly a statement of the actual balances in accounts with the corporation. Paragraph 7 therein states:

"In computing balances due under the various accounts, the dates that the individual items actually were accounted for should be considered and not the date that charge or credit to the corporation was made in the Federal books. The balances should be adjusted and reported to conform therewith. For example—

"If a lap-over item was accounted for in the month of January, 1918, but was not charged or credited to the corporation through the appropriate account (prefixed by the name of the corporation as authorized by General Order No. 17) until July, 1918, the amount of such item must be reported in the balance as of March 31, 1918."

It has come to my attention that a strict compliance with the language of the above paragraph is difficult or will involve considerable delay in stating the accounts, because Federal auditors in all cases have not included in accounts with the corporation, provided for by section 4 (a) and 4 (d) of the contract, amounts in the month's account corresponding to the original statement thereof. This is true especially respecting lap-over items and corrections in amounts previously included in other accounts.

To overcome this difficulty, permission is granted when making reports for periods subsequent to March 31, 1918, to state the amounts by individual accounts, applicable to prior quarters, separately on the face of form AC-910 indicating the quarter from the end of which interest on balances will apply. The aggregate of the several entries for each separate account should agree with the ledger balance in such account. With this information it will be possible for this division to accurately compute the interest thereon. The following illustrates the form of report that should be observed respecting the items above mentioned:

Balances covered by sections 4-A and 4-D of the contract.

P. S. & A. CIRCULAR No. 67.

WASHINGTON, D. C., January 27, 1919.

To secure uniformity in making settlements under the provision of General Order No. 30,

carriers under Federal control, including carriers by water, will, effective with accounts for March, 1919, render statements to other carriers of such accounts on standard Form AC-518, sample of which is printed on the back.

Attention of carriers is directed to the importance of carefully complying with instructions in General Order No. 30 as to stamping bills, accounts, reports, etc., to indicate clearly the month in which they are included by rendering carrier, as much confusion and unnecessary work will be avoided thereby. Particular attention is also directed to the instructions to the effect that statements of accounts, bills, etc., shall not be back dated.

Statements are to be signed by or for the Federal Auditor or Auditor.

C. A. PROUTY, Director.

P. S. & A. CIRCULAR No. 68.

WASHINGTON, D. C., January 27, 1919.

Federal auditors shall prepare and forward to this office not later than February 15, 1919, a statement showing certain information in connection with concessions in effect at stations (including union stations), on trains, or ferriboats, the accounting of which is under their jurisdiction.

The data respecting concessions to be reported upon is shown in items 1 to 11, inclusive, while the information required relating to the contract or agreement is shown in items A to L, inclusive.

NATURE OF CONCESSIONS.

1. Sale of newspapers and periodicals at stations.
2. Sale of cigars, candies, and souvenirs at stations.
3. Sale of fruits and flowers at stations.
4. Parcel checking privileges.
5. Boot blacking and toilet room concessions.
6. Telephone pay station concessions.
7. Vending machines—(a) Gum and candy, (b) Weighing, (c) Parcel checking.
8. Lunch and eating houses.
9. Hotels.
10. Sale of newspapers, periodicals, cigars, candies, fruits, etc., on trains and ferriboats.
11. Advertising at stations and on trains and ferriboats.

CONTRACT OR AGREEMENT CONDITIONS.

- A. Name of firm or individual having concessions.
- B. Date of contract or agreement.
- C. Date of expiration of contract or agreement.
- D. Provisions for prior termination of contract or agreement, if any.
- E. Basis for compensation—Show whether flat rental, percentage, or other basis.
- F. Gross receipts for year 1917, supplemented as soon as possible by gross receipts for year 1918.
- G. Annual compensation to railroad for year 1917, supplemented as soon as possible by 1918 compensation.
- H. What, if any, provisions are in contract or agreement for increase or decrease in compensation?
- I. What, if any, are the special provisions of the contract or agreement?
- J. To what extent are facilities provided and equipped by railroad, and to what extent by owners of concession?
- K. Does owner of concession employ and pay all necessary help, or to what extent is this done by railroad?
- L. Number of concessions operated by firms and individuals—railroads.

Director.

P. S. & A. CIRCULAR No. 69.

WASHINGTON, D. C., January 30, 1919.

Whenever employees of the railroads under Federal control or of the Pullman car lines, in the discharge of their official duties, are required to purchase railroad tickets or other transportation or to pay for Pullman or other similar accommodations, due to the failure to provide such employees with necessary passes, the amount thereof shall be included in the employee's expense account, or upon proper approval shall be vouchered in his favor. The amount paid for such transportation, Pullman or other similar accommodations, shall be included in the expenses of the carrier for whose account the expense was incurred.

If employees traveling on personal business purchase tickets for transportation or accommodations and are entitled to passes, which can not be furnished in time for their use, amounts paid under such circumstances, when properly authorized, may be refunded by and charged to the revenue of the carrier which sold the ticket.

When amounts are paid by such employees for tickets which read over lines not under

Federal control, the procedure in vogue prior to Federal control shall govern in the refunding of such fares.

ACCOUNTING CIRCULAR No. 71.

WASHINGTON, D. C., February 3, 1919.

Promptly upon receipt of this circular Federal auditors shall prepare and submit to the undersigned a statement showing the names and salaries at January 31, 1919, of the below designated officers who exercise jurisdiction on the reporting railroad.

- (a) Federal or general manager.
- (b) Principal assistant to the Federal or general manager.
- (c) Federal auditor.
- (d) Federal treasurer.
- (e) Officer in charge of traffic department.

If any of the above classes of officers are also engaged in directing departments of other railroads and are not carried on the pay roll of the respondent, that fact should also be stated.

ACCOUNTING CIRCULAR No. 74.

WASHINGTON, D. C., February 20, 1919.

1. Army regulations forbid the payment of transportation charges on a shipment covered by a Government bill of lading when a part or all of the shipment has been lost or damaged, until such loss or damage has been adjusted.

2. In order to avoid delay in settlement of accounts for transportation of War Department material and supplies, the following plan will be made effective immediately.

3. The Transportation and Telegraph Section, Quartermaster Branch, Central Disbursing Division, office of Director of Finance, is authorized by the Railroad Administration to deduct the amount of any claim for loss or damage from the freight charges due in connection with a bill of lading covering the shipment, a part or all of which has been lost or damaged. Under this arrangement, however, no deduction will be permitted from transportation charges due on other shipments.

4. When payment is made by the Quartermaster's Department there will be forwarded a statement explaining the deductions and a claim will be presented for investigation by the carrier. If such investigation develops no liability on the part of the carrier supplemental bill for the amount deducted in previous settlement will be paid.

5. The War Department in presenting claim will give all available data regarding the loss and damage in lieu of forms and documents required by paragraph 2 of General Order No. 41.

6. This plan supersedes any arrangements which may have been entered into by individual carriers.

Director.

WORK FOR RED CROSS KNITTERS.

Sewed Garments Also Needed in Large Quantities for Refugees.

Garments, both knitted and sewed, are needed at the rate of a million a month for destitute refugees in Northern France, Belgium, Italy, Roumania, Servia, Greece, Montenegro, Palestine, Albania, and other countries, according to a request to Red Cross headquarters from Harvey D. Gibson, American Red Cross commissioner to Europe. As a result, the Red Cross has requested its division organizations to have Red Cross chapters continue production on as large scale as is practicable under present conditions.

Detailed instructions covering the production of knitted and made garments have been sent to all division managers of the Red Cross by national headquarters in Washington. These instructions reverse the order sent broadcast late in December, "Cease knitting." The knitted articles will be confined to children's stockings, sweaters, mufflers, and women's shawls. The Red Cross has stocks of materials so large that it will be able to supply chapters without cost.

Summary of Earnings and Expenses Of Federal Reserve Banks in 1918

The Federal Reserve Board authorizes the following:

Total earnings of the Federal reserve banks for the calendar year 1918 were \$67,584,417, compared with \$15,438,858 for the calendar year 1917, while total current expenses were \$12,137,438, compared with \$4,235,866 for the earlier year. Current expenses for the year under review include besides \$8,463,957 of expenses of operation proper—\$2,448,973, the cost, including expressage, insurance, and other expenses incident to the issue and retirement of Federal reserve notes and bank notes, \$1,108,091 depreciation on furniture and equipment, and \$116,417 the cost of alterations and repairs to bank buildings.

Exclusive of Fiscal Agents.

Total expenses shown above are exclusive of the expenses of the fiscal agent departments. The latter are treated separately, being reimbursable by the United States Treasury Department. For the past year the Federal reserve banks, as fiscal agents of the Government, mainly in floating the certificate issues and the last two Liberty loans, disbursed a total of \$16,245,708. In addition there was outstanding at the opening of the year a reimbursable amount of \$1,697,220 disbursed by the banks during 1917. Reimbursements received from the Government during the year totaled \$8,377,983, leaving thus a reimbursable balance at the end of 1918 of \$9,564,945.

Net Earnings of Banks.

Net earnings of the banks, i. e., the excess of earnings over current expenses, totaled \$55,446,979, or at the rate of 72.6 per cent on an average aggregate paid-in capital for the year of \$76,342,600, compared with an average rate of 55.9 per cent for the first six months of the year and 18.9 per cent for the calendar year 1917. New York shows net earnings for the year at the rate of 113.6 per cent, Kansas City at the rate of 78.4 per cent, San Francisco at the rate of 72.3 per cent, and Chicago at the rate of 67.7 per cent. Of the remaining banks six show net earnings at rates between 50 and 60 per cent and two at rates between 40 and 50 per cent. All arrears in dividends having been paid at the end of June, dividend payments at the close of the year covered only the six months ending December.

Addition of Net Profits.

To the net earnings above shown should be added the net profits carried over from 1917—\$1,153,715, also net amounts credited during the year direct to profits—\$74,772. This gives total gross profits of \$56,680,466. Deductions from this total, \$2,805,441, comprise depreciation allowances on bank premises \$1,609,537, on vaults \$40,500, and on United States bonds \$848,120, also special reserves of \$307,275 set aside by the New York and San Francisco banks to take care of future contingencies. This leaves available for dividends, surplus, and franchise taxes a total of \$53,875,025, out of which were paid all dividend arrears and the maximum 6 per cent dividends for the year, totaling \$5,540,684. Of the remaining amount one-half up to 40 per cent of the paid-in capital of each bank was car-

ried to surplus, the total thus carried being \$21,606,901. The balance, \$26,728,440, was reserved for franchise tax to the Government. It will be noted that in the case of the New York bank the amount reserved for franchise tax is \$12,795,215, or more than \$5,000,000 in excess of the 40 per cent of the capital, the maximum which the bank is permitted at present to carry to surplus. For the other banks the ratios of surplus to average paid-in capital for the year stand as follows:

	Per cent of surplus to capital paid in on Dec. 31, 1918.		Per cent of surplus to capital paid in on Dec. 31, 1918.
Boston.....	22.9	Chicago.....	29.6
New York.....	40.0	St. Louis.....	21.1
Philadelphia...	17.2	Minneapolis...	24.8
Cleveland.....	19.6	Kansas City....	33.1
Richmond.....	28.5	Dallas.....	18.8
Atlanta.....	24.3	San Francisco..	26.4

For the system as a whole the ratio of surplus to paid-in capital is 28.2 per cent.

Discounts of War Paper.

Of the total earnings of the banks, 71.5 per cent, as against 45 per cent the year before, came from discounts largely of war paper. Bills purchased in the open market contributed 17.7 per cent of the total earnings, as against 32.2 per cent; United States securities, chiefly Treasury certificates, 5.7 per cent, as against 15.3 per cent; transfer operations yielded about 1.5 per cent of the total earnings, as against 3 per cent the year before, and the remainder came from penalties for deficient reserves, service charges, commissions, profits on foreign exchange operations, and sundry smaller profits. Expenses of operation of the banks proper, exclusive of their fiscal agent departments, totaled \$3,463,957, compared with \$2,669,855 in 1917. Of the larger total about 42 per cent, as against 28 per cent in 1917, went as compensation to the clerical staff, and 11.5 per cent, as against 23 per cent in 1917, as salaries to bank officers.

Expense for Postage.

Nearly 10 per cent of the total operating expenses went for postage and expressage and over 6 per cent for printing and stationery. Contributions of the banks for the support of the Federal Reserve Board aggregated \$382,641, as against \$237,795 the year before, and constitute about 4.5 per cent of the total 1918 expenses of operation, as against about 9 per cent the year before. Rent paid by the banks is about double in amount that for 1917, though some of the banks own the premises or parts thereof occupied at present by them. This is true of New York, Philadelphia, Richmond, Atlanta, Dallas, and San Francisco. With the exception of Cleveland and Minneapolis, all the banks have purchased ground on which it is proposed to erect buildings for use as permanent banking quarters. Total book value of the investments in "bank premises," after allowing \$1,609,537 for depreciation, stood at \$8,081,841 at the end of the year, compared with \$707,611 at the beginning of the year.

TREASURY RULINGS ON EXCESS PROFITS AND INCOME TAXES AND ON DENATURED ALCOHOL

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF
INTERNAL REVENUE,
Washington, D. C.

TO COLLECTORS OF INTERNAL REVENUE AND OTHERS CONCERNED:

For the purpose of determining invested capital under Title II of the act of October 3, 1917, income and excess profits taxes shall be deemed to have been paid out of the net income for the taxable year for which such taxes are levied. Amounts payable on account of income and excess profits taxes for any year may be included in computing surplus and undivided profits for the succeeding year only for the proportionate part of the year represented by the period of time between the close of the taxable year and the date or dates upon which such taxes become due and payable.

DANIEL C. ROPER,
Commissioner of Internal Revenue.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER
OF INTERNAL REVENUE,
Washington, D. C.

TO COLLECTORS OF INTERNAL REVENUE AND OTHERS CONCERNED:

Because of the fact that it will be impossible to put into the hands of taxpayers residing or located in the internal revenue district of Hawaii the blank forms and instructions prescribed by this department for use of taxpayers in making returns pursuant to the new revenue act in time for such returns to be filed on or before the due date—March 15, 1919—an extension of time of 60 days from

that date is hereby granted to all taxpayers filing returns in the internal revenue district of Hawaii.

DANIEL C. ROPER,
Commissioner of Internal Revenue.

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER
OF INTERNAL REVENUE,
Washington, D. C.

TO COLLECTORS OF INTERNAL REVENUE AND OTHERS CONCERNED:

The following formula, designated as No. 30, in Regulations No. 30, revised, for the special denaturation of alcohol to be used exclusively as a reagent for analytical and testing purposes by chemical and physical laboratories, is hereby authorized:

To each 100 gallons of pure 95 per cent ethyl alcohol add 10 gallons of pure methyl alcohol, which methyl alcohol is to have a specific gravity of not more than 0.810 at 60° F.

Alcohol so denatured shall not be redistilled or purified before use, and is not to be recovered for reuse. The use of specially denatured alcohol, formula No. 30, will not be permitted until the intended use and method of its use is fully and satisfactorily set forth in the application filed.

Laboratories availing themselves of the privilege here granted must duly qualify, keep records, and otherwise comply with the law and regulations, as in the case of manufacturers using specially denatured alcohol. The form of bond will be 582 or 582-A.

Respectfully,
DANIEL C. ROPER,
Commissioner of Internal Revenue.

Gun Crew and Ammunition Men On Board U. S. S. *Buck* Commended By Secretary of the Navy Daniels

Secretary Daniels has commended the below-named men, members of the gun crews and ammunition parties on board the U. S. S. *Frank H. Buck*, for their coolness while on duty during an engagement with an enemy submarine on September 1. The engagement lasted nearly half an hour, over 30 shots being fired with the after 6-inch gun, most of them going very close to their mark. The twenty-eighth shot was a probable hit, but the twenty-ninth was a positive one. It is reported the submarine suddenly stopped firing, the bow was seen to rise high and disappeared too quickly to have submerged mechanically.

Secretary Daniels has recommended the below-named men to the Secretary of the Treasury for awards of silver life-saving medals:

Jacob B. Miller, chief machinist's mate, U. S. Navy; mother, Sarah Miller, Birdsboro, Berk County, Pa.

James A. Anderson, boatswain's mate second class, U. S. Navy; mother, Mrs. Mary J. Anderson, Rochester, Ind.

These men, on October 4, while aboard the U. S. S. *Stevens*, were cruising in the Irish Sea in search of survivors of S. S. *Burutu*, when at 6 a. m. the ship was maneuvered alongside an overturned boat. There was a fairly heavy sea running, which made boating dangerous. All of the survivors were gotten on board except one man who became so excited in his efforts to slip a life preserver over his head and shoulders that he became nearly unconscious, dropping off the line that had been hoisted to him when half way up the side of the ship. Anderson went over the side in a bowline and endeavored to pass a line around the man, but failed. He had him half way up the side of the ship twice by holding on, but slipped and the man fell back into the water. Miller, after Anderson's efforts had failed, went over and passed a line around the man's waist, thereby saving him. It is without doubt that the man would have been lost if it had not been for the efforts of his rescuers.

Parcel-Post Service Is Resumed to Greece

OFFICE SECOND ASSISTANT
POSTMASTER GENERAL,
Washington, February 3, 1919.

Commencing at once, parcel-post packages for Greece may be accepted in accordance with the postage rates, conditions, and classification applicable to the service in general and with particular reference to the items, "Observations" and "Prohibitions," and the list of post offices, appearing on page 136 of the annual Postal Guide for 1917.

Acceptable merchandise which does not require an individual export license will be accepted in accordance with the instructions given by this office in notice of February 1 regarding special export licenses No. RAC-52, No. RAC-53, No. RAC-55, and No. RAC-64.

Packages will be transmitted to New York for dispatch to Piraeus and any undelivered parcels from Greece will be returned to the senders at the expiration of 30 days from receipt.

It will be observed that parcels can not be registered.

OTTO PRAEGER,
Second Asst. Postmaster General.

Health Conditions at Army Camps Within the United States As Reported to the Surgeon General for Week Ending Feb. 21

The War Department authorizes the following:

Herewith is a detailed report on the health conditions of troops in the United States for the week ending February 21, 1919. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. Satisfactory health conditions continue among troops in the United States. Very few influenza cases are reported from the majority of Army stations. Cases of influenza and pneumonia are reported in considerable numbers from Camps Taylor and Upton, and the ports of embarkation, Hoboken and Newport News. Camp Taylor, with a strength of command approximately 17,000, leads all camps in the number of deaths for the week (12).

2. The strength of troops in the United States as reported is 590,917, showing a net reduction of approximately 30,000, as com-

pared with last week. There were 119 deaths reported against 131 for the preceding week. The death rate (disease only) is 9.8, as compared with 10 last week. The noneffective rate is 63.7 against 60.1 last week.

3. Special diseases from camps and stations in the United States were reported as follows:

	This week.	Last week
Influenza.....	530	637
Pneumonia.....	245	205
Measles.....	96	81
Meningitis.....	5	8
Scarlet fever.....	70	82
Veneral diseases.....	804	953

4. There were 452 deaths from disease reported from the A. E. F. France, for the week, of which number

361 were due to pneumonia. Typhoid fever admissions number 93, as compared with 132 for the preceding week. While sick rates in the A. E. F. are lower than similar rates in the United States, the death rate for disease for the week is somewhat higher in the A. E. F. (13.9). There were 1,289 admissions for pneumonia for the week, an increase of approximately 200 cases, as compared with the number reported the preceding week.

Disease conditions among troops in the United States for the week ending Feb. 21, 1919.

[Compiled from telegraphic reports received in the office of the Surgeon General. Reports from the A. E. F. are delayed in transmission and the "current week" for troops in A. E. F. is not the same period as "current week" for troops in United States.]

¹ First figure in this column for each camp gives the total number of new cases during the week; the figure in parenthesis is the number of other cases which were contracted during the week by men in that camp's command at the time of contracting the disease. The difference, therefore, is the number of cases first reported during the week which were either (a) cases brought from civilian life by recruits or (b) cases brought by men transferred from other camps to the camp under which the case is reported, or (c) old cases which have previously evaded detection. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

¹ Sick and death rates among troops in the United States will continue to be relatively high, as the numerical strength of troops in the United States continues to decline from week to week as a result of demobilization. Well men only are eligible for discharge, while the sick and otherwise disabled are retained in service for further treatment. The continued influx of sick and wounded (properly chargeable to commands overseas) is another factor tending to increase rates in the United States and to diminish correspondingly similar rates overseas.

Increase in Parcel Post Weight Limits Between The United States and Peru and Colombia

OFFICE SECOND ASST. P. M. GEN.,
Washington, February 25, 1919.

Agreements having been made with the postal administration of Colombia and Peru, the maximum weight applicable to parcel-post packages exchanged between these countries and the United States will be 10 kilograms (22 pounds) instead of 5 kilograms (11 pounds) as heretofore, effective March 1, 1919, the postage rate to remain at 12 cents a pound or fraction of a pound. The note at the top of page 146 of the Postal Guide for July, 1918, is modified accordingly.

Postmasters will please cause due notice of the foregoing to be taken at their offices and the widest possible publicity to be given thereto.

OTTO PRAEGER,
Second Asst. P. M. General.
