

## U. S. MEN IN ACTUAL BATTLE NUMBERED 1,300,000, SAYS ESTIMATE MADE IN FRANCE FOR ARMY CHIEF OF STAFF

### BATTLE CASUALTIES TOTALLED 240,197

**Totals Are Given by Divisions — Secretary Baker and General March to Make Tour of Camps in This Country—Former Is Going Abroad on Return. Demobilization Progress.**

Press interview by the Chief of Staff, March 8, 1919:

The Secretary of War and I are starting on an inspection tour of the camps in the United States, so that this will be the last conference for the rest of this month at least. We leave to-morrow morning at 11.40, traveling to the Pacific coast by the northern succession of camps and cantonments, working down the Pacific coast, and coming back along the Mexican border, traveling by night and inspecting by day, and by that process being able to see most of the camps that are left.

#### Return March 28.

The itinerary calls for our return to Washington on the 28th of the month, which will give the Secretary a few days to arrange his affairs before starting for Europe. Our schedule is worked out so closely that practically no variation from it can be made. We go from Washington to Detroit, where we will inspect Camp Custer, and then work along the camps in succession out to Camp Lewis, Wash., then to San Francisco, then to Camp Kearney in the southern part of California, then coming to Washington by way of the camps still along the Mexican border.

There have been some estimates published of the number of Americans who fought in battle in France, and guesses have varied by very large numbers. We have an estimate now prepared in France which gives us perhaps as near as can be determined the number of United States troops that took part in actual fighting.

Division troops including replacements	1,100,000
Corps and Army troops	240,000
Services of supply	50,000

Total United States troops taking part in action against the enemy - 1,390,000

## MR. DANIELS GOING TO EUROPE TO STUDY NEW VESSEL TYPES AS DEVELOPED BY THE WAR

### TECHNICAL CHIEFS GO WITH HIM

*Rear Admirals Griffin, Taylor, and Earle to Participate in Conference with Experts of Foreign Navies. Starts Next Week.*

Secretary Daniels announces that he expects next week to start to Europe for a short visit accompanied by three chiefs of the technical bureaus of the Navy Department—Rear Admiral Griffin, of the Bureau of Steam Engineering, Rear Admiral Taylor, of the Bureau of Construction and Repair, and Rear Admiral Earle, of the Bureau of Ordnance.

#### First Hand Investigation.

The naval bill, that failed in the Senate, contained a provision unanimously approved by the Naval Committees of both House and Senate, directing the Secretary of the Navy to submit to Congress in December next description of such additional vessels as might be needed for the United States Navy. Full consideration and analysis of war experience was required; it was also required that particular attention be given to the types developed during the war, or shown to be necessary by the aforesaid war experience. In discussions with members of the Naval Committees of the House and Senate, Secretary Daniels stated his intention of making a first-hand investigation in connection with the information desired, with the assistance of the technical officers of the department and in consultation with the French, Italian, and British Admiralties while war experience is still recent and fresh in all minds.

#### Benson and Sims to Participate.

Admiral Benson and Admiral Sims with their respective staffs are in Europe, and will join Secretary Daniels and the technical officers accompanying him in conferences with the foreign admiralties regarding the deductions from war experience. It is believed that as a result of the contemplated investigations the Navy Department will be able to furnish Congress with full information as to the lessons of the war as regards construction of new types of naval vessels, or modifications of existing types.

It is not expected that it will require more than a few weeks at most to accomplish the business of this visit.

## CLAIMS OF U. S. CITIZENS AGAINST CENTRAL POWERS TOTAL ABOUT \$750,000,000 THUS FAR PLACED ON FILE

### STATE DEPARTMENT'S TENTATIVE ESTIMATE

*Divided Into Two Classes, Those Arising from Submarine Warfare and Those Laid to Other Acts—American Property in Enemy Territory at Opening of War About \$300,000,000.*

America's tentative statement of claims of American citizens and concerns so far reported against Germany and Austria-Hungary was made public to-day (March 8) by the Department of State. The total amount of the claims is about \$750,000,000. It is expected that additional claims will be received by the department which may increase this amount to some extent.

The department for several months has had a large force engaged in the compilation of American losses which have been reported to it in response to published requests for a very brief statement of losses or injuries of Americans attributable to the enemy. Opportunity for a more formal detailed statement of these claims will be given later when the new regulations for their submission are prepared.

#### Two Classes of Claims.

The claims are divided into two classes: those arising from submarine warfare and those attributable to other acts of the Central Empires.

Included in the items comprising claims growing out of submarine warfare are losses alleged for death and injury of American citizens; losses suffered in the destruction of or damage to American vessels; losses suffered in connection with American cargoes in both American and foreign bottoms; the loss of much valuable personal property other than cargoes; and many miscellaneous items of loss and injury.

#### Losses Due to Other Acts.

The losses due to other acts of Germany and Austria-Hungary include destruction and requisition of American properties in both enemy territory or territory occupied at various times by enemy forces. American citizens and concerns at the outbreak of the war had about three hundred million dollars worth of property in

enemy countries and those which have been under enemy occupation. Heavy losses have resulted in connection with this property due to war measures taken by the Central Powers.

The American claims in number will run well into the thousands.

## EXAMPLE FOR CORPORATION TO COMPUTE EXCESS PROFITS TAX

The Bureau of Internal Revenue offers the following example of how a corporation may compute its income and excess profits tax in filing an estimate of its tax on net incomes for 1918.

A corporation had a net income of \$24,000. On its income in excess of \$3,000 and not in excess of \$20,000—\$17,000—it pays an excess profits tax of 30 per cent, or \$5,100. On the amount of its net income in excess of \$20,000 it pays an excess profits tax of 80 per cent, or \$3,200. Its total excess profits tax is \$8,300.

In computing income tax the corporation deducts its specific exemption of \$2,000 and its excess profits tax of \$8,300 from its total net income of \$24,000, leaving subject to the income tax, \$13,700. At the normal rate of 12 per cent, the income tax amounts to \$1,644, which added to the excess profits tax, makes the total tax of the corporation \$9,944.

Payment of at least one-fourth of the tax must accompany the estimated return which must be filed on or before March 15 by all corporations unable to file a complete return by that date.

## U. S. EMPLOYMENT SERVICE DATA FOR 8 WEEKS ENDING FEB. 22

The United States Employment Service issues the following:

During the eight weeks ending February 22, the United States Employment Service received 1,090,124 applications from men and women for jobs. Of this number 930,029 were referred to opportunities and 679,513 were reported placed in employment. The difference between the number referred to jobs and the number reported placed is due in a large measure to the failure either of the employee or employer to send in their return cards. Unless these return cards are received the service has no record of whether the prospect has received employment or not.

The reports by weeks are as follows:

## GRAIN ON FARMS ESTIMATED BY CROP-REPORTING BOARD

The Crop-Reporting Board of the Bureau of Crop Estimates, Department of Agriculture, makes the following estimates from reports of its correspondents and agents:

The amount of corn on farms March 1, 1919, was about 884,476,000 bushels, or 34.2 per cent of the 1918 crop, against 1,253,290,000 bushels, or 40.9 per cent of the 1917 crop on farms March 1, 1918, and 782,303,000 bushels, or 30.5 per cent of the 1916 crop on farms March 1, 1917. About 14.5 per cent of the crop will be shipped out of the counties where grown, against 22.1 per cent of the 1917 crop and 17.6 per cent of the 1916 crop so shipped. The proportion of the 1918 crop which is merchantable is about 82.5 per cent (equivalent to 2,129,764,000 bushels), against 60 per cent (1,837,728,000 bushels) of the 1917 crop and 83.9 per cent (2,154,487,000 bushels) of the 1916 crop.

### Wheat on Farms.

The amount of wheat on farms March 1, 1919, was about 129,258,000 bushels, or 14.1 per cent of the 1918 crop, against 107,745,000 bushels or 16.9 per cent of the 1917 crop on farms March 1, 1918, and 100,650,000 bushels or 15.8 per cent of the 1916 crop on farms March 1, 1917. About 58.7 per cent of the crop will be shipped out of the counties where grown, against 51.1 per cent of the 1917 crop and 56.7 per cent of the 1916 crop so shipped.

### Oats and Barley.

The amount of oats on farms March 1, 1919, was about 588,421,000 bushels or 38.2 per cent of the 1918 crop, against 599,208,000 bushels or 37.6 per cent of the 1917 crop on farms March 1, 1918, and 394,211,000 bushels or 31.5 per cent of the 1916 crop on farms March 1, 1917. About 27.2 per cent of the crop will be shipped out of the counties where grown, against 32.3 per cent of the 1917 crop and 28.4 per cent of the 1916 crop so shipped.

The amount of barley on farms March 1, 1919, was about 81,899,000 bushels or 31.9 per cent of the 1918 crop, against 44,419,000 bushels or 21 per cent of the 1917 crop on farms March 1, 1918, and

## CITIZENS AT HOME OR ABROAD ALL SUBJECT TO INCOME TAX

Aliens Resident in United States Also Come Under Terms of the Law.

The Internal Revenue Bureau authorizes the following:

Though your residence be amid Greenland's icy mountains or on India's coral strands, you must pay an income tax if you are a citizen of the United States and your net income for 1918 was in excess of \$1,000 or \$2,000, according to your marital status. Every citizen of the United States, whether living at home or abroad, is liable to the tax. It makes no difference whether he owns no assets in the United States and receives no income from sources within the United States.

### Native or Naturalized Citizens.

Every person born or naturalized in the United States is a citizen. When a naturalized citizen leaves the United States and resides for two years in the country whence he came, or for five years in any other foreign country, he is presumed to have lost his American citizenship.

A person born in the United States who has long since moved to a foreign country and established a domicile there, but has never been naturalized therein or taken oath of allegiance thereto, is still a citizen of the United States. A foreigner who has filed his declaration of becoming a citizen but has not yet received his final citizenship papers is still an alien.

### Resident Aliens.

Every resident alien is subject to the tax, though his income be from sources wholly outside of the United States. Every nonresident alien is liable to the tax on his income from sources within the United States.

33,244,000 bushels or 18.2 per cent of the 1916 crop on farms March 1, 1917. About 39.1 per cent of the crop will be shipped out of the counties where grown, against 39.7 per cent of the 1917 crop and 43.5 per cent of the 1916 crop so shipped.

## BUSINESS PROSPERITY AHEAD, FORECAST BY POSTAL RECEIPTS, POSTMASTER GENERAL'S MESSAGE

### STEADY INCREASE SINCE NOVEMBER

#### *Pronounced Decline After Signing of Armistice More Than Recov- ered, Says Mr. Burselson—Post Office Considered "Barometer."*

The Post Office Department issues the following:

"I concur in the opinion of the executive head of one of the greatest business corporations of the world who prophesies 'large business prosperity ahead,'" said Postmaster General Burselson. "Admittedly the revenue of the Postal Service is one of the most accurate barometers of present business conditions and enables one to forecast future business conditions. This is necessarily true because the postal revenue comes from every community, hamlet, and city of the United States. When business is prosperous that fact is reflected in increased postal receipts; on the other hand, declining postal receipts are a certain indication of depressed business.

#### **Increase Since November.**

"To illustrate: During the month of November there was a pronounced decline in postal revenues due to the Nation-wide prevalence of influenza and the signing of the armistice, which intimidated and halted business throughout the United States. With the gradual passing of the scourge of influenza and the steady readjustment of industries, postal revenues in December showed a returning movement toward normal conditions, while during the months of January and February the postal revenues greatly exceeded for these months the average annual increase in postal revenues during the last 30 years.

"Judged, therefore, by reliable business barometer of the Postal Service, it is obvious that, notwithstanding the fear of business depression expressed in some quarters, this country is on the threshold of a period of pronounced industrial prosperity."

Belgium shows the most striking increase during this period, its exports gaining \$74,000,000 over the seven months ended January, 1918. Shipments to England also increased by an equal amount, followed by Australia and New Zealand with a gain of \$26,000,000; Italy, \$23,000,000; Japan, \$15,000,000; Argentina, \$12,000,000; China, \$12,000,000; the Philippines, \$10,000,000; France, \$8,000,000, and other countries showing smaller increases.

Exports to all neutral European nations increased in the seven months ended January, 1919, Norway and Sweden leading with \$17,000,000 each; Netherlands, \$16,000,000; Spain, \$14,000,000; and Denmark, \$10,000,000.

The success of your work is manifest, and I have no doubt that when the history of this great undertaking comes to be written, your contribution to the success of the country in the war will be an outstanding feature.

"For the personal sense of security and confidence which I have had I express my personal gratitude; officially, I express the gratitude of the department and of the Government for the service you have rendered.

## NEW METHOD FOR PACKING BONELESS BEEF FOR FRANCE

The War Department authorizes the following statement from the office of the Director of Purchase and Storage:

The Subsistence Division has received a request from the Chief Quartermaster of the American Expeditionary Forces for the shipment to France of 1,000,000 pounds of boneless beef to be packed in three different ways. Packages for steaks are to contain only tenderloins, sirloins, butts, loin steaks, top rounds, and shoulder steaks; packages for roasts are to contain prime ribs, rumps, bottom rounds, and bottom chucks; and the packages for stews are to include flanks, plates, necks, shanks, and trimmings. The object of the experiment is convenience in butchering and handling in France, and also that all classes of meat used for the same purpose will be packed together.

### No Cessation in Shipments.

The cessation of hostilities has not caused discontinuance of the shipment of boneless beef to France. The saving in freight overseas on shipments of boneless beef over carcass beef would aggregate \$73,000 each day were it possible to secure sufficient boneless beef to feed the entire expeditionary forces. A ship's ton of refrigeration space, 40 cubic feet, costs \$100. This makes the freight on each pound of carcass beef 12½ cents. Just half the space is required for boneless beef, which reduces the freight to 6½ cents per pound. The average consumption of frozen meat in France is 13 ounces per man per day.

### Fresh Pork Once a Week.

Fresh pork is being served to the troops once each week. Pork requires more strict attention in shipping and handling than the beef, as it deteriorates more rapidly. Its consumption will probably be reduced on the approach of warm weather.

## BIWEEKLY TREASURY NOTE OFFERING OVERSUBSCRIBED

Secretary Glass announces that the seventh biweekly offering (Series V G) of Treasury certificates of indebtedness in anticipation of the Victory Liberty loan was oversubscribed. Every Federal reserve district except the Boston Federal Reserve District equaled or exceeded its quota and in this respect the issue is the most successful except one which has been offered in anticipation of the Victory Liberty loan. The minimum amount offered was \$500,000,000 and the total subscriptions aggregate \$532,341,500. The aggregate of subscriptions for certificates in anticipation of the Victory Liberty loan to date is \$4,378,019,500.

The results by Federal reserve districts, arranged in order of the percentage of subscription of their quotas, are as follows:

### WORK OF THE CRUISER FORCE.

The Navy Department has received a report from the commander of the cruiser force, showing that during the month of February 96,368 passengers were landed in United States ports by the cruiser and transport force. Of this number 10,565 were carried by seven cruisers and 7,850 by seven battleships. The rated capacity of the vessels arriving was 104,211. The total of invalids carried was 16,356.

**WORK OF CONGRESS BRIEFLY TOLD**

Continuing his testimony before the propaganda investigating committee yesterday, Raymond Robbins, former head of the American Red Cross in Russia, condemned intervention in Russia as unfair to that country and unwise from the standpoint of the allies and the United States. He expressed the belief that intervention would solidify all factions in Russia in support of the Bolshevik Government, strengthen Bolshevism in France and England, and materially assist in laying the groundwork for the spread of radical doctrines in the United States. He advised against recognition of the Russian Bolshevik Government, but insisted that if the Russians wanted that kind of a government they should have it.

Mr. Robbins expressed the conviction that Bolshevism was the greatest menace that threatens the democratic governments of the world to-day. He testified that there are to-day 12,000,000 rifles available in Russia and that many of the communities and towns possess machine guns. He said he believed the people of Russia could get rid of Lenine and Trotsky at any time they desired to do so.

Mr. Robbins said he believed that American intelligence and institutions would be sufficient to neutralize and dissipate Bolshevik ideas. He concluded his testimony with an earnest appeal that the American and allied Governments take nobody's word on conditions in Russia, but that they get the facts for themselves upon which to base a future policy.

**NEW MARKINGS FOR UNIFORMS, MERCHANT MARINE APPRENTICES**

In order that young Americans entering the Merchant Marine through the United States Shipping Board's training service may be distinguished by their dress from Navy men, the board, it is announced, has adopted distinctive markings for the uniforms of apprentices aboard its 10 training ships, on which 3,000 men a month are now being drilled for service in merchant crews.

Although of standard seaman's blue and of traditional cut, the Merchant Marine apprentice's uniform differs particularly from that of the Navy man in its new markings. Two broad stripes are worn on the collar and cuffs of the blouse instead of three narrow ones, as in the Navy, while instead of white they are "old" blue, the same shade as that on the blouses of British and French merchant sailors. Another distinguishing mark is the insignia of the Shipping Board, an anchor supporting the national shield, worked in silk in red, white, and blue on the blouse pocket.

The new uniform, which has just been issued at the Shipping Board's training stations at Boston, Norfolk, New Orleans, San Francisco, and Seattle, respectively, was first seen in public on President Wilson's arrival at Boston, February 24, when 1,000 merchant marine apprentices, representing all the

# GENERAL MARCH'S WEEKLY STATEMENT TO PRESS

(Continued from page 1.)

I have just received a chart, also from Gen. Pershing's headquarters, giving the total figures by divisions of the killed in action, wounded, missing in action, and prisoners, according to the division reports received at his headquarters. Possibly these figures will have to be modified in some slight way, but it is as nearly accurate as he could get. The total battle casualties, as we will call them, follow:

Second	24,420
First	23,974
Third	10,356
Twenty-eighth	14,417
Thirty-second	12,948
Fourth	12,948
Forty-second	12,252
Nineteenth	9,710
Seventy-seventh	9,423
Twenty-sixth	8,955
Eighty-second	8,300
Fifth	8,280
Seventy-eighth	8,133
Twenty-seventh	7,940
Thirty-third	7,880
Thirty-fifth	7,745
Eighty-ninth	7,093
Thirtieth	6,893
Twenty-ninth	5,972
Ninety-first	5,838
Eighteenth	5,133
Thirty-seventh	4,303
Seventy-ninth	3,223
Thirty-sixth	2,397
Seventh	1,546
Ninety-second	1,399
Eighty-first	1,062
Sixth	285
Eighty-eighth	63

**Total Casualties 240,197.**

Total battle casualties—that is, killed in action, wounded, missing in action, and prisoners—for the American Expeditionary Forces, 240,197.

We have issued a commission as brigadier general to Col. Samuel E. Tillman, superintendent of the United States Military Academy. The President was authorized to make this appointment on the retired list by the Military Academy appropriation bill, approved March 3. We are also issuing ad interim commissions to Gen. Noble and Col. McCaw as brigadier generals in the Regular Army Medical Corps.

**Total Troops Sailing 419,555.**

The number of troops which had sailed from France up to and including March 3 had risen to 419,555, and there had landed in the United States up to March 7, of those, 354,824. In order to increase the number of men available for demobilization in the United States I have cut down the 33 camps which had been selected for demobilization centers to 23. We can run the demobilization process on fewer camps. Thirteen of the original 33 camps have been ordered discontinued, and in the places of three of them, Fort Bliss, Fort Oglethorpe, and Fort D. A. Russell, which are permanent Army posts, have been designated as demobilization points for their centers. The present demobilization scheme will be carried on at the following camps:

Bliss, Bowie, Custer, Dix, Dodge, Funston, Gordon, Grant, Jackson, Kearney, Lee, Lewis, Meade, Oglethorpe, Pike, Presidio of San Francisco, D. A. Russell, Shelby, Sherman, Taylor, Travis, Upton.

Examination of the hospital records of the American Expeditionary Forces shows that on November 11 there were in the hospitals, both from disease and injury, 193,448 men. Our last return on

February 28 shows that the number has been reduced to 81,231.

I have been asked informally at times as to the number of suicides in the Army during the war. We now have figures on that, and up to February 21, the number of suicides during the entire period of the war for the Army on both sides of the Atlantic was 334; this percentage is lower than the ordinary percentage shown by the census reports for the years 1914, 1915, and 1916 for civil life.

Last week we authorized Gen. Pershing to resume enlistments for the Regular Army, and as he enlists men for the Regular Army abroad they will be assigned to the Regular divisions in France, thereby releasing men who are emergency men for return to the United States. The number of men in the Army will not be reduced under any circumstances until some law is passed fixing a new number, below the number set forth in the bill which was sent to the Congress by the War Department; we will retain 509,909 men in the Army. To permit the military necessities of the United States to be handled the number of men in the Army will be kept at 509,909 men. During the progress of the war the troops of the Regular Army which were stationed at Hawaii were brought back to the United States to form parts of divisions to go to France. Troops in the Philippines were sent up to Siberia, and, in order to have somebody on the ground in both cases we organized a Hawaiian National Guard and a Philippine National Guard, consisting of Filipinos, and gave them a limited amount of training. All of the military problems that confront us have been carefully considered determining the number of men necessary, and we can not get along without that number, 509,909, and they will be held.

### Questions and Answers.

**Q. Have you heard anything from our troops along the Adriatic?**

**A. No report of any kind has come to me on that either from Gen. Pershing or our military attache.**

## BACK PAY TO RAILROAD MEN FROM GENERAL ORDER NO. 27

The United States Railroad Administration, Division of Accounting, issues the following:

ACCOUNTING CIRCULAR No. 77.

BACK PAY.

WASHINGTON, February 24, 1919.

Several requests have been made upon the regional directors and Federal auditors for information respecting the amount of back pay charged to operating expenses for the year 1918 arising out of the application of the provisions of General Order No. 27 or supplements thereto.

Due to causes beyond their control, Federal auditors were required to estimate a good portion of the data reported on this subject. The estimates in many cases were not comparable with the actuals subsequently determined, so that the results received were far from satisfactory.

In order that the Accounting Division may properly answer the many inquiries made upon it respecting the subject of back pay, Federal auditors shall prepare upon forms 15 by 10 inches, similar to Form AC 517, a report showing the amount of back pay included in the operating expenses of each month of the year 1918 that is applicable to other months of that year, the amount in each month applicable to each other month to be shown in the month or months in which it is properly includable.

After showing the full amount of back pay included in each month and the proper apportionment of that amount between the months to which it is applicable, a classification of the total amount assigned to each month shall be shown among the general accounts of operating expenses affected thereby.

If it is not reasonably possible to accurately assign the amount of back pay to the month or months to which it is applicable, such amount shall be apportioned among the appropriate months on some reasonable basis of estimate, and a note shall be made on the report that the distribution was made on an estimated basis.

C. A. PROUTY, Director.

## BIG IMPROVEMENT IN BUILDING OPERATIONS DURING FEBRUARY

The Department of Labor authorizes the following:

In the section of the country east of the Missouri and north of the Ohio Rivers, the contracts awarded for building and engineering operations during the month of February amounted to approximately \$121,000,000. The amount of the contracts awarded in the same territory during January was \$50,731,000.

The bulk of this work is done by private individuals and corporations, a fact which the Division of Public Works and Construction Development, of the Department of Labor, accepts as indicating that private interests rapidly are resuming building activities. During the war period, a large percentage of work was carried on by the Federal Government. At present, the amount of contracts awarded by the government is negligible, and that done by States and municipalities not an unusual proportion.

## HARNES ASSOCIATIONS CITED BY FEDERAL TRADE COMMISSION

Ordered to "Cease and Desist"  
from Combining in Restraint  
of Free Competition.

In a decision affecting the entire saddlery and harness industry of the United States the Federal Trade Commission in an order naming 159 officers and members of the Wholesale Saddlery Association and 20 associated retail harness associations of the National Harness Manufacturers' Association of the United States, directed the parties "forever to cease and desist" from combination or conspiracy in restraint of open and free competition in the interstate sale of saddlery and accessories.

### Monopolistic Practices Found.

The commission found that monopolistic practices and policies had worked to the exclusion of competitor jobbers, dealers, and mail-order houses not recognized by the two organizations as "legitimate" dealers, and had operated to restrict the free and unhampered sale and distribution of harness, saddlery, and accessories throughout the United States. The commission's order follows:

"Paragraph one: Now, therefore, it is ordered that the Wholesale Saddlery Association of the United States, its officers, committees, and members, forever cease and desist from directly or indirectly—

"1. Conspiring and combining among themselves to induce, coerce, and compel manufacturers of saddlery accessories to refuse to recognize certain nonmember competitors of the members of said association as being so-called legitimate jobbers or wholesalers, and to refuse to sell them as such in interstate commerce.

"2. Continuing or establishing any and all tests or standards of what constitutes a so-called legitimate jobbing or wholesale business, whether based upon eligibility to membership or actual membership in said association, the amount of business done, the stock carried, or the proportion of business which is wholesale.

### Distribution of Lists.

"3. Compiling, censoring, and distributing lists containing or purporting to contain all the so-called legitimate jobbers based upon any of the aforesaid tests or standards of what constitutes a legitimate jobbing business:

"4. Giving verbal and written notices to manufacturers of saddlery accessories that certain individuals and concerns not conforming to any of the aforesaid tests or standards are thereby not entitled to recognition as so-called legitimate jobbers.

"5. Reporting to or circulating among the members of said association the names of accessory manufacturers who are not in harmony with the policy of said association, or who do not accept the Wholesale Saddlery Association's tests or standards of what constitutes a so-called legitimate jobbing business.

"6. Withdrawing, withholding, threatening to withdraw or withhold, or urging the withdrawal and withholding of patronage for accessory manufacturers who are not in harmony with the policy of

#### Court-Martial Proceedings.

The following are the proceedings of court-martial of Maj. Alfred W. Birdsall, Quartermaster Corps:

AMERICAN EXPEDITIONARY FORCES,  
HEADQUARTERS, BASE SECTION NO. 5,  
SERVICES OF SUPPLY,  
France, September 11, 1918.

General Court-Martial Orders, No. 13.

Before a general court-martial which convened at Headquarters, Base Section No. 5, S. O. S., pursuant to paragraph 11, Special Orders No. 217, Headquarters, Base Section No. 5, August 9, 1918, was arraigned and tried:

Maj. Alfred W. Birdsall, Q. M. C.

Charge: Violation of the 96th Article of War.

Specification 1. In that Maj. Alfred W. Birdsall, Q. M. C., N. A., being then Provost Marshal at -----, France, did, at said -----, on or about June 3, 1918, assault Corpl. Harry W. Clarens, Headquarters Company, ----- Infantry, by striking him in the face with his hand.

Specification 2. In that Maj. Alfred W. Birdsall, Q. M. C., N. A., being then Provost Marshal at -----, France, did, at said -----, use profane, abusive, and provoking language toward Corpl. Harry W. Clarens, Headquarters Company, ----- Infantry, then a prisoner in confinement, to wit, the words "God damn you," or words to that effect, and the words "God damn you, strike me," or words to that effect.

71-19-3

Specification 3. In that Maj. Alfred W. Birdsall, Q. M. C., N. A., being at the time Provost Marshal, -----, did, on or about June 3, 1918, at said -----, arbitrarily cause Corpl. Harry W. Clarens, Headquarters Company, ----- Infantry, then a prisoner, to be placed in irons in violation of paragraph 985 of Army Regulations, although the case of the said Corpl. Harry W. Clarens was not the extraordinary case of a prisoner who is a desperate or dangerous character, and as the said Alfred W. Birdsall then well knew.

#### Pleas.

To all the specifications and the charge: "Not guilty."

#### Findings.

Of all the specifications and the charge: "Guilty."

#### Sentence.

To be severely reprimanded; to be reduced to the foot of the list of majors, Quartermaster Corps, United States Army, there to remain for a period of one year; and to forfeit from his pay the sum of one hundred dollars (\$100) per month for six months.

In the foregoing case of Maj. Alfred W. Birdsall, Q. M. C., the sentence awarded

by the court is totally disproportionate to the gravity of the offense committed by this officer, as revealed by the record. But in order that he shall not escape punishment, however inadequate, the sentence is approved and will be duly executed.

In administering this reprimand, the reviewing authority is compelled to recognize the fact that the offenses of which this officer was convicted were without an extenuating circumstance, and further that it appears from the record to have been his policy to abuse and strike enlisted men who were prisoners, and even to abuse officers.

For future guidance, the reviewing authority feels that it is his duty to inform this officer that there are attributes, the possession of which are essentially a part of the character of an officer of the United States Army; that among those attributes are true manliness and courage—not only the courage that will stand the test of actual war, but also the quality of courage that spurns the idea of bullying or assaulting a defenseless fellow being. The striking of a defenseless, orderly prisoner by one in whose custody and protection he has been placed is despicable. No brave or honorable man is capable of such degradation of power or position. Regardless of the views of any court-martial, it is an act fundamentally incompatible with the ideas and emotions of one worthy the position of an officer of the United States Army.

## St. Aignan Camp Conditions Described In a Cablegram From Gen. Harbord

The War Department authorizes publication of the following cable communication from Gen. Harbord, commanding general Service of Supply, A. E. F., under date of March 3, 1919:

"Prior to November 11 St. Aignan was used primarily as a replacement camp and its facilities constructed accordingly. After November 11 it was converted into casual embarkation camp. While the camp was being constructed for embarkation purposes it had to handle troops received from two directions, replacements passing through for the front and B and C class casualties passing through from the front to seaports. Due to the sudden change from expatriation to repatriation of troops this camp was handling B and C class evacuees before it was prepared to do so. Due to incomplete state of reconstruction during January the capacity of the camp was somewhat overtaxed, resulting in some discomfort. This was partially due to the following:

"Overestimating the amount of shipping for December and January; underestimating the number of B and C class evacuees; loss of individual records which cause delay in evacuation; shortage of rail transportation to ports. Many B and C class men were evacuated to St. Aignan whose physical condition was such that they should have been retained longer in hospitals. In some cases this was due to soldiers concealing their disabilities with the hope that they would be evacuated, thereby expediting their return to United States. However all men were examined on arrival at St. Aignan and the phys-

ically unfit, those requiring medical attention, were immediately sent to hospital at that place. As undoubtedly certain men tried to conceal their ailments in order to avoid going to the hospital, it is probable that some men were evacuated to ports who should have been retained in hospital. Since the latter part of January only potentially class A men are being evacuated through St. Aignan. All really B and C class men are being evacuated through hospitals and sent home as patients. At present shelter at St. Aignan more than sufficient, food good and sufficient, kitchens and mess halls adequate, bunks, bed sacks, straw, fuel and stove sufficient. Men go to meals on schedule so as to avoid waiting in line. Duck boards in practically all occupied portions of camp and men can go to necessary places without getting in the mud. Reports of inspectors and medical officers indicate that all sick and wounded have always received proper and sufficient attention, unless they have escaped detection through their own efforts. Gen. Pershing has seen and approves this cablegram.

"HARBORD."

#### GOES TO PEACE CONFERENCE.

Mr. Bradley W. Palmer, of Boston, who has been associate general counsel of the Alien Property Custodian for the last year, sailed for Europe to-day as the official representative of the Alien Property Custodian to advise the American Peace Mission in all matters affecting the final disposition of enemy property.

# Health Conditions at Army Camps Within the United States As Reported to the Surgeon General for Week Ending Feb. 28

The War Department authorizes the following:

Herewith is a detailed report on the health conditions of troops in the United States for the week ending February 28, 1919. The report of the Division of Sanitation to the Surgeon General of the Army for that week is as follows:

1. The health of troops in the United States continues very good. A recrudescence of influenza and pneumonia is noted at Camp Taylor, Ky., which leads all large camps in the number of new cases of these diseases, as well as in the number of deaths (17) for the week. The ports of embarkation, Hoboken and Newport News, are other commands reporting a relatively high incidence of influenza and

pneumonia. The incidence of other diseases is remarkably low.

2. The strength of troops in the United States as reported is 561,821, as compared with 590,917 last week, showing a net reduction of approximately 40,000. The death rate for disease (9.8) is slightly lower than last week (9.8). The death rate of the corresponding week of last year was 6.8. There were 107 deaths (all causes) reported against 119 last week. Of this total, 8 are charged to the tent camp group (average strength, 57,970), 42 to the cantonment group (average strength 215,970), and 57 to departments, ports of embarkation, general hospitals, aviation and miscellaneous stations (average strength 277,881). The noneffective rate is 64.8, against 63.7 last week.

3. Special diseases from camps and stations in the United States were reported as follows:

	This week.	Last week.
Influenza.....	607	550
Pneumonia.....	227	245
Measles.....	64	16
Meningitis.....	8	5
Scarlet fever.....	67	70
Veneral diseases.....	795	804

4. Pneumonia appears to be increasing in prevalence among troops in the American Expeditionary Forces, France. There were 1,560 new cases against 1,289 for the preceding week. Typhoid fever is declining rapidly, only 39 new cases being reported for the week. There were 507 deaths (disease only) reported, as compared with 452 for the preceding week. Of this total, 411 were due to pneumonia.

<sup>1</sup> First figure in this column for each camp gives the total number of new cases during the week; the figure in parentheses is the number of other cases which were contracted during the week by men in that camp's command at the time of contracting the disease. An interrogation point signifies that the report from that camp did not segregate cases contracted at the camp from other cases.

<sup>1</sup> Sick and death rates among troops in the United States will continue to be relatively high, as the numerical strength of troops in the United States continues to decline from week to week as a result of demobilization. Wellmen only are eligible for discharge, while the sick and otherwise disabled are retained in service for further treatment. The continued influx of sick and wounded (properly chargeable to command overseas) is another factor which tends to increase rates in the United States and to diminish correspondingly similar rates overseas.

Pvt. **ERNEST WASHINGTON PORTER**, A. S. No. 108602, deceased, 23d Company, 6th Machine Gun Battalion, United States Marine Corps. For extraordinary heroism in action near Thiaucourt, France, September 15, 1918. While taking cover with the remainder of his gun crew from a heavy artillery barrage, Pvt. Porter answered a call for volunteers to combat an enemy aeroplane. Upon reaching his gun he was instantly killed by an aerial bomb. Next of kin, Ernest Porter, father, 671 Summer Avenue, Newark, N. J.

Pvt. **ERNEST SPENCER**, A. S. No. 88292, 81st Company, 6th Machine Gun Battalion, United States Marine Corps. For extraordinary heroism in action near Thiaucourt, France, September 12-15, 1918. Pvt. Spencer repeatedly volunteered and carried messages through intense machine gun and artillery fire, obtaining valuable information at critical moments. Home address, Sarah Spencer, mother, Toppenish, Wash.

Pharmacist's Mate (third class) **CHARLES W. BATEMAN**, United States Navy, attached to 6th Machine Gun Battalion, United States Marine Corps. For extraordinary heroism in action near Thiaucourt, France, September 12-15, 1918. Rendering first aid under heavy artillery and machine-gun fire Pharmacist's Mate Bateman showed utter disregard for his own personal safety, venturing through shelled areas to the assistance of the wounded. He obtained most valuable information for the guidance of stretcher bearers. Home address, J. C. Bateman, brother, Giant, Cal.

Chief Pharmacist's Mate **BERNICE B. STAMPS**, United States Navy, attached to 6th Machine Gun Battalion, United States Marine Corps. For extraordinary heroism in action near Jaulny, France, September 13-15, 1918. Working continually without rest or food, Pharmacist's Mate Stamps cared for the wounded under most hazardous conditions. When a counterattack by the enemy seemed imminent the medical detachment was ordered to the rear, but he willingly stayed with the wounded and assisted greatly in their evacuation. Home address, I. J. Stamps, father, Parchman, Miss.

Mr. **THOMAS WHITESIDE WILBUR**, Y. M. C. A. Secretary, attached to 6th Machine Gun Battalion, United States Marine Corps. For extraordinary heroism in action near Jaulny, France, September 13-15, 1918. Declining to remain in the rear, Mr. Wilbur attached himself to the Medical Department, rendering first aid and bringing in wounded, serving at all times in a most valuable manner. He disregarded an order to return to the rear when it seemed that the enemy would launch a counterattack, but remained with the wounded until all were safely evacuated. Home address, Mrs. T. W. Wilbur, mother, 24 Franklin Square, New Britain, Conn.

First Lieut. **JACK S. HART**, 6th Machine-Gun Battalion, United States Marine Corps. For extraordinary heroism in action near Thiaucourt, France, September 15, 1918. Acting as company commander Lieut. Hart advanced with the first wave of Infantry to locate favorable positions for his gun. He discovered an enemy machine gun which he alone attacked, and although severely wounded, succeeded in capturing the gun and taking the crew prisoners. Home address, John M. Hart, father, Weatherford, Tex.

Pvt. **JAMES R. BRUMMETT**, A. S. No. 106052, 81st Company, 6th Machine-Gun Battalion, United States Marine Corps. For extraordinary heroism in action near Thiaucourt, France, September 12-16, 1918. By effective use of an automatic rifle, Pvt. Brummett defended the left flank of his platoon, thereby preventing the enemy from reaching the rear of his lines. On several other occasions, he volunteered and carried messages through terrific bombardment. Home address, Lilly Brummett, mother, Deme Box, Tex.

Capt. **RICHARD P. HILDRETH**, 23d Infantry. For extraordinary heroism in action near Landes-et-Saint Georges, France, November 8, 1918. During offensive operations west of the Meuse it was found necessary to withdraw his command to a less exposed position. When he had successfully accomplished this withdrawal, Capt. Hildreth

saw three of his men lying wounded 100 yards in front of his lines. Assisted by another officer, he crawled out, under heavy gun and shell fire, and safely conducted the wounded to shelter. Home address, Dr. E. A. Hildreth, father, National Road, Wheeling, W. Va.

Pvt. (First Class) **WILLIAM F. THEBERT**, A. S. No. 51702, Company K, 23d Infantry. For extraordinary heroism in action near Saint Etienne-Arnes, France, October 3-9, 1918. Acting as battalion runner, Pvt. Thebert carried messages through intense Artillery and machine-gun fire. This soldier has been on duty as a runner since June 6, being entrusted with especially important messages because of his carefulness and reliability. Home address, Mrs. Margaret Thebert, mother, Fort Covington, N. Y.

Lieut. Col. **A. C. ARNOLD**, 9th Infantry, for the following act of extraordinary heroism in action near Thiaucourt, France, September 12, 1918. Lieut. Col. Arnold is awarded a bar to be worn with the distinguished-service cross awarded him November 22, 1918. At a critical moment in the advance this officer went through a barrage and stopped the assaulting lines of a neighboring unit which had failed to halt on their objective and were in danger from their own barrage. His coolness in walking up and down the line under heavy enemy bombardment inspired confidence and restored order in his wavering line. Home address, Mrs. A. C. Arnold, 256 West Ninety-seventh Street, New York City.

Capt. **HANFORD MACNIDER**, 9th Infantry. For the following act of extraordinary heroism in action near Remenauville, France, September 12, 1918. Capt. MacNider is awarded a bar to be worn with the distinguished-service cross awarded him November 22, 1918. On duty as regimental adjutant, while carrying instructions to the assaulting lines, Capt. MacNider found the line unable to advance and being disorganized by a heavy machine-gun fire. Running forward in the face of the fire, this officer captured a German machine gun, drove off the crew, reorganized the line on that flank, and thereby enabled the advance to continue. Home address, Charles H. MacNider, father, Mason City, Iowa.

First Lieut. **CYLBURN O. MATTFELDT**, 9th Infantry. For extraordinary heroism in action near Jaulny, France, September 13, 1918. In plain view of the enemy Lieut. Mattfeldt rode across a field to a friendly battery, whose barrage was falling on the American trenches, and stopped its fire, thereby permitting a reestablishment of the front line and saving many lives. Home address, O. M. Mattfeldt, father, 305 East North Avenue, Baltimore, Md.

Corpl. **WILLIAM J. BOYLE**, A. S. No. 41319, Machine Gun Company, 9th Infantry. For extraordinary heroism in action near Medeah Farm, France, October 5, 1918. Corpl. Sergt. **FLOYD A. BROOKS**, A. S. No. 40373, Company K, Infantry. For extraordinary heroism in action near Champagne, France, October 13, 1918. After his lieutenant was seriously wounded, Sergt. Brooks took command of the platoon and led it with marked ability for seven days. Later, in the Argonne-Meuse engagement, he personally led his platoon against a machine gun which was holding up the advance of our line and destroyed the gun. Home address, Mrs. Ella Brooks, mother, 431 West Eighth Street, Newport, Ky.

Second Lieut. **THOMAS E. CARTER**, deceased, 9th Infantry. For extraordinary heroism in action near Tullerle Farm, France, November 4, 1918. Lieut. Carter showed extraordinary heroism when he led his company through an intense machine gun and artillery fire against superior numbers. He made an important gain but was killed by machine-gun fire during the engagement. Next of kin, Mrs. George M. Carter, mother, West Andover, Mass.

Pvt. **DIONIGO FIORITO**, A. S. No. 40897, Company M, 9th Infantry. For extraordinary heroism in action near Tullerle Farm, France, November 4, 1918. After many of the stretcher bearers had become casualties, Pvt. Fiorito, without assistance, carried many of his wounded comrades to the rear, through heavy machine-gun and shell fire. Home address, Catherine Fiorito S. Pietro, mother, Guarano Province, Coesenza, Italy.

Pvt. **JOHN GRUNDY**, A. S. No. 3357714, Company K, 9th Infantry. For extraordinary

heroism in action near Tullerle Farm, France, November 1, 1918. Pvt. Grundy made his way through heavy shell and machine-gun fire to his lieutenant, who had been seriously wounded, and dressed his wounds. He later rendered excellent service by keeping liaison between the platoons of his company while they were under severe machine-gun and shell fire. He continued to render valuable service in this way until wounded. Home address, John N. Grundy, father, 216 Tioga Street, Philadelphia, Pa.

Pvt. **CLYDE HOUSTON**, A. S. No. 1495275, Company M, 9th Infantry. For extraordinary heroism in action near Tullerle Farm, France, November 4, 1918, and near Mouzon, France, November 7-11, 1918. Dicluse, friend, 4710 Gertrude Street, Houston Heights, Tex.

## **Disposition of Effects of Deceased Enlisted Men**

An act of Congress approved July 9, 1918, provides:

"In case of the death of any person subject to military law the commanding officer of the place of command will permit the legal representative or widow of the deceased, if present, to take possession of all his effects then in camp or quarters; and if no legal representative or widow be present, the commanding officer shall direct a summary court to secure all such effects; and said summary court shall have authority to collect and receive any debts due decedent's estate by local debtors; and as soon as practicable after the collection of such effects said summary court shall transmit such effects and any money collected, through the Quartermaster Department, at Government expense, to the widow or legal representative of the deceased, if such be found by said court, or to his son, daughter, father, mother, brother, or sister, in the order named, if such be found by said court, or to the beneficiary named by the deceased, if such be found by said court, and such court shall thereupon make to the War Department a full report of its transactions; but if there be none of the persons hereinabove named, or such persons or their addresses are not known to, or readily ascertainable by, said court, and the court shall so find, said summary court shall have authority to convert into cash, by public or private sale, not earlier than 30 days after the death of the deceased, except sabers, insignia, decorations, medals, watches, trinkets, manuscripts, and other articles valuable chiefly as keepsakes; and as soon as practicable after converting such effects into cash said summary court shall deposit with the proper officer, to be designated in regulations, any cash belonging to decedent's estate, and shall transmit a receipt for such deposits, any will or other papers of value belonging to the deceased, any sabers, insignia, decorations, medals, watches, trinkets, manuscripts, and other articles valuable chiefly as keepsakes, together with an inventory of the effects secured by said summary court, and a full account of its transactions to the War Department for transmission to the Auditor for the War Department for action as authorized by law in the settlement of the accounts of deceased officers and enlisted men of the Army."

Under this law all the effects of a deceased soldier who dies overseas are collected and sent through the "effects quartermaster" at Hoboken, N. J., to the widow of the deceased or to his executor or administrator, or if there is no widow, executor, or administrator then to the son, daughter, father, mother, brother, or sister in order named, or to the beneficiary named by the deceased. (If there be none of the persons named above, or if such persons or their addresses are not known or readily ascer-

tained, then the effects of the deceased, except sabers, insignia, decorations, medals, watches, trinkets, manuscripts, and other articles chiefly valuable as keepsakes, are sold, and the proceeds of the sale together with the sabers, insignia, etc., are sent through The Adjutant General to the auditor for the War Department to be held for those persons entitled to receive them.) It is usually unnecessary for those entitled to the personal effects of a deceased soldier, who dies overseas, to make claim for them when there is no doubt as to the person who is entitled to receive them and when the address of such person is known. If a person who believes he is entitled to receive the effects of a deceased soldier who died overseas has not received them within three months after the soldier's death, such person should write first to the effects quartermaster, Pier 3, Hoboken, N. J., being sure to give full identification data as to the soldier, and to state the relationship to the soldier of the person who writes.

The effects of a soldier who dies in this country will be delivered by the commanding officer upon request to the executor or administrator of the deceased or to his widow. If such effects are not claimed or delivered within a reasonable time to the person entitled to receive them, they are disposed of as described above in parentheses.

Persons entitled to the effects of a soldier who dies in this country (or where the man died abroad, if the letter to the effects quartermaster at Hoboken, N. J., mentioned above brought no success) should address The Adjutant General, United States Army, War Department, Washington, D. C., unless it is known that the personal effects have been converted into cash. In such case, and where the family wishes to collect a deposit of the deceased soldier in a French-American bank, the letter should be addressed to the Auditor for the War Department, Washington, D. C.

The effects of an enlisted man in the Navy who has died will be delivered by his commanding officer upon request to the executor or administrator of the deceased, or to his widow. If such effects are not claimed within a reasonable time they will be sold and converted into cash, excepting only watches, trinkets, personal papers, and other articles valuable chiefly as keepsakes. The articles last named will be sent home by his commanding officer if the name and address of the next of kin are known. When the other effects of a man in the Navy are sold, the proceeds will be sent with the articles named above, if they have not already been sent to his next of kin, to the Bureau of Navigation, from which such proceeds will be sent to the Auditor for the Navy Department, but the man's watch and other articles named above will be kept at the Bureau of Navigation.

Persons entitled to the personal effects of an enlisted man who was in the Navy should address the Bureau of Navigation

in order to procure his watch, trinkets, personal papers and other articles valuable chiefly as keepsakes, and should address the Auditor for the Navy Department to obtain the proceeds from the sale of his other personal property.

## **Liberty Bonds Subscribed for by the Soldier and Not Delivered**

If a soldier has subscribed for liberty bonds and has not received them after completing the necessary payments thereon and after sufficient time has elapsed for their distribution, he or any one on his behalf should write the following letter:

Pvt. John Howard Smith, Serial No. 85634, Co. L, 125th Inf., American Expeditionary Force. Age, 26 years. Entered service July 30, 1917.

Zone finance office, allotments branch, bond section, United States Army, Washington, D. C.

GENTLEMEN: On October 12, 1917, at Camp Meade, Md., the above-named enlisted man subscribed for two bonds of \$50 each of the second Liberty loan through the Federal Reserve Bank of New York City, each to be paid for in 10 installments of \$5, to be deducted monthly from his pay. He was then a private in Company E, 122d Field Artillery.

Deductions from his pay, in accordance with the above allotment were made for each month from October, 1917, to July, 1918, both inclusive, while with the following organizations at the places and in the amounts as follows:

October, 1917	(Organization and place where deducted.)	(Amount.)
November, 1917	-----	-----
December, 1917	-----	-----
January, 1918	-----	-----
February, 1918	-----	-----
March, 1918	-----	-----
April, 1918	-----	-----
May, 1918	-----	-----
June, 1918	-----	-----
July, 1918	-----	-----

He designated me, his sister, Kate Higgins Smith, of 132 Willow Street, Rockford, Ill., as the person to whom such bonds should be sent. These bonds have not been received, although it is now 10 weeks since the payment of the last installment thereon. Please inform me when they will be delivered to me.

Very truly yours,

KATE HIGGINS SMITH,  
132 Willow Street, Rockford, Ill.

The subscriptions of most soldiers for the third or fourth Liberty loans were recorded through the Secretary of the Treasury. In all such cases the address and letters prescribed in paragraph 231 should be used, substituting "Secretary of the Treasury" for "Federal reserve bank." If, however, the soldier subscribed through some local bank, he should take the matter up directly with that institution.
